  - Cloud

Migration & Upgrades
- Product Upgrades and Migration

USE CASES

OpenText Documentum LSQM Implementation for a Leading Multinational Pharma Company

The client wanted to implement an automated DMS application along with an online compliance system that could integrate GMP documents with a common workflow to provide on the spot reports and audit trail facility. Datamatics implemented OpenText Documentum LSQM which reduced manual work, cut down time taken in document search and retrieval by 70% and provided data safety and security for its data bank and external data banks.

AI/ML powered eContent Migrator Tool for seamless migration experience

Our advanced AI/ML-driven eContent Migrator framework offers a smooth migration process, catering to clients' needs to transition content between older and newer versions of ECM or from one ECM to another. With an intuitive UI, it enables automated batch creation, migration, reconciliation, and offers visual reports for enhanced business migration experiences. The tool has successfully migrated approximately 10 terabytes within a span of two months.
