DATAMATICS

CLINICAL TRIAL MANAGEMENT WEB APP FOR A LEADING PROVIDER OF HEALTHCARE THERAPY SERVICES TO OCD PATIENTS

PROFILE

The client is a leading provider of therapy and healthcare services to people suffering from Obsessive Compulsive Disorder (OCD)
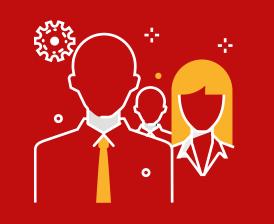

United States of America

Healthcare

CHALLENGES

The client wanted to build a program to build CROS, Sponsors, and admin under one roof for seamless access of patient data and report generation.

SOLUTION

Datamatics developed an application that enabled the client to manage the hierarchy and associations for a trial.

IMPACT

The candidates were notified faster about the status of the trial

Online report generation helped to efficiently track and analyze critical business needs
