DATAMATICS

BUSINESS ACCELERATORS FOR AGILE ENTERPRISES

CONTRACT MANAGEMENT SOLUTION
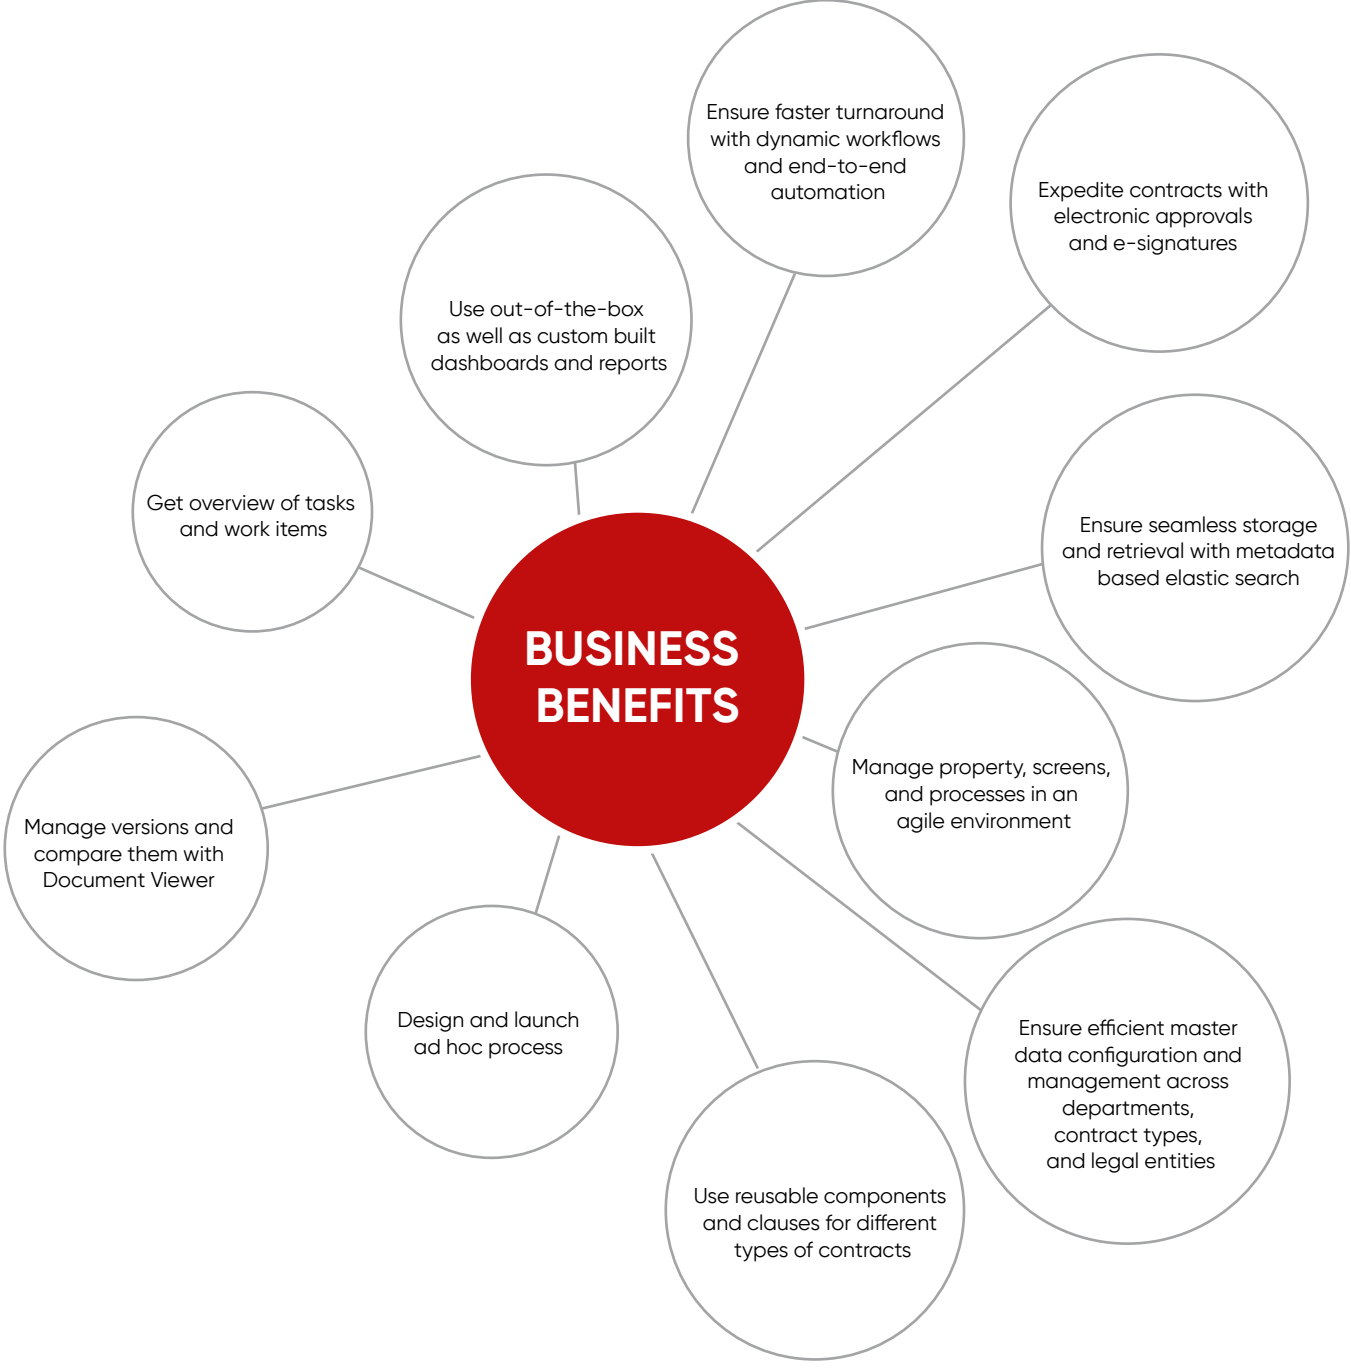

Cloud-based solutions for remote operations

Enterprises work as a part of an extended ecosystem comprising partners, vendors, and customers. Creating crisp contracts on-the-go for concurrently building in flexibility and dependability in these business relationships becomes a mandate for ensuring seamless and continued work alliances. They require a reliable solution for digitally administering comprehensive contracts towards this end.

Datamatics Contract Management Solution is a business accelerator for agile enterprises that enables quick generation of legally binding contracts through a digital platform. With a modular structure to create reusable clauses for different categories, the cloud-based solution enables quick creation and maintenance as well as faster administration of contract documents.

FEATURES

Datamatics Contract Management Solution has plethora of indispensable business features:

- **Layered and modular architecture:** Offers built in libraries to import as well build standard clauses and templates of legal contracts.

- **Built atop IBM Business Automation Workflow:** Facilitates business process management as well as case management through an integrated workflow with a 360-degree view of contracts and related work.

- **Object-oriented and scalable:** Provides a highly extensible digital platform that enables creation of comprehensive contract documents using reusable components.

- **Auditing, logging, and notifications:** Maintains logs and triggers notifications to support audits in an agile framework.

- **Responsive user interface:** Offers quick UI orientation across standard BYOD devices allowing on the go management of contracts and other deliverables.

- **Web service based integration:** Provides web-based integration with other business systems to facilitate an agile business framework.

- **Authentication and authorization:** Facilitates multi-factor user authentication for safe and secure access across different devices.

- **Custom user interface:** Provides 100% customizable UI for adapting to different work environments and business requirements.

BUSINESS BENEFITS

- Ensure faster turnaround with dynamic workflows and end-to-end automation

- Expedite contracts with electronic approvals and e-signatures

- Use out-of-the-box as well as custom built dashboards and reports

- Get overview of tasks and work items
