Datamatics Claims Pre-Authorization Management Platform is a technology and product agnostic global delivery mechanism, which is based on real-time cross-functional integrated-coordination among various stakeholders (namely, health funds, providers, members, etc.). This platform helps the **healthcare insurance sector** the following objectives:

- Upfront view of eligible benefits to all stakeholders
- Real-time processing of pre-authorization requests
- Single window view and processing across multiple payers

## HIGHLIGHTS

- Modular cloud-based platform with independent modules for **Ancillary, Hospital, and Medical claims**
- In-built rules, process, and communication engines
- Available on both, private and public cloud

## PLATFORM FEATURES

- Secure generic API framework for authenticated access

---

- User-specific data access management to critical data

---

- Supports ICD-10 or custom diagnostic and procedure codes

---

- Real-time connect to Policy Management System, Claims System, Hospital Management System, Member Portal, etc.

---

- Automatic communication triggers to all stakeholders

---

- Accessible over any kind of hand-held or desktop devices

---

## BENEFITS

- Enhanced member experience

---

- No specific hardware requirement (for example: magnetic strip cards, terminals, etc.)

---

- Promotes more instances of Straight Through Processing (STP)

---

- Significant reduction in turnaround time (TAT) and processing cost

---

- Forecasting of claims for health funds

---

- Inputs to Revenue Cycle Management for Providers

---
