

DATAMATICS

**INCREASE OPERATIONAL
EFFICIENCY & PRODUCTIVITY
WITH DIGITAL BUSINESS
AUTOMATION**

At Datamatics, our Digital Business Automation solutions are aimed at not just reducing administrative and operational costs through workflow digitalization but also allow the business to take more informed decisions. Our AI/ML algorithms combined with data and process analytics gives you complete control over your digital operations while externalizing these benefits to enhance customer experience.

DIGITAL BUSINESS AUTOMATION SERVICES

Consulting >> Implementation >> Transformation >> Support & Maintenance

SOLUTION ACCELERATORS

Trade Finance Solution – Datamatics Trade Finance Solution is one of the business accelerators deployable on-cloud and on-premises. It can seamlessly integrate with the client’s trade finance and banking system and automate the entire trade lifecycle.

Loan Origination Solution – Datamatics loan origination solution is another prominent business accelerator that automates end-to-end loan origination process, enhancing the performance of the core lending system

Digital Workplace Solution – Datamatics Digital Workplace solution offers a paper-less, cloud-based, digital solution for eOffice. It empowers enterprises with an agile, scalable, secure and future-proof remote working environment and complements the overall work from home culture.

Contract Management Solution – Datamatics Contract management solution is a digital platform customized to help enterprises support and manage contracts with real-time communication. It helps enterprises minimize conflicts and facilitates transparency between the signing parties.
