## ONLINE PROCTORING SERVICES 2021

The Virtual Examination Centre for Enterprises  
Leveraging Education Technology

Education Technology has emerged as one of the fastest evolving sectors over a last couple of years. There has been a steady shift over the last decade to move from traditional classroom training to Leveraging EdTech solutions like online classes and learning management systems to make education more effective and accessible. The pandemic has further accelerated this growth in demand through more immersive and engaging platforms across end-to-end processes. For us at Datamatics, EdTech continues to be a core focus area with many high-impact success stories for our clients. As we continue to build immersive digital learning platforms, mobile Apps for students and process automations, we've also been quick to get into emerging trends, particularly how we've played the role of a sure-footed, early-mover in the Online Proctoring Services space. Datamatics has been successfully offering enterprise-grade proctoring services for online proctored exams to government bodies, OEMs, bank3, and educational institutions (post-graduation, under graduation, high schools, and secondary schools) over the last 3 years. Our solutions are leveraged across time zones and are highly scalable. This is courtesy a significant panel of trained & experienced Proctors we've curated over the years. Our consistent investments in empathy, sensitivity and cultural training have further added to the candidate experience (as cited in multiple client testimonials). Our services are backed with advanced versions of the proctoring solutions that make use of the latest technologies, such as Artificial Intelligence (AI) and Video & Audio Analytics to deliver immediate value to our clients in terms of most efficiencies, accuracy and scalability.

## GLOBAL ONLINE PROCTORING MARKET

The global computer based assessment market is worth an estimate
