

SMART TRAVEL

BUSINESS OVERVIEW

In a global business environment, travel is necessary & expensive. More companies are seeking ways to reduce necessary travel costs in a tight, unpredictable economy. Shrewd companies are discovering that to control costs, they must adopt a travel management policy incorporating an automated solution.

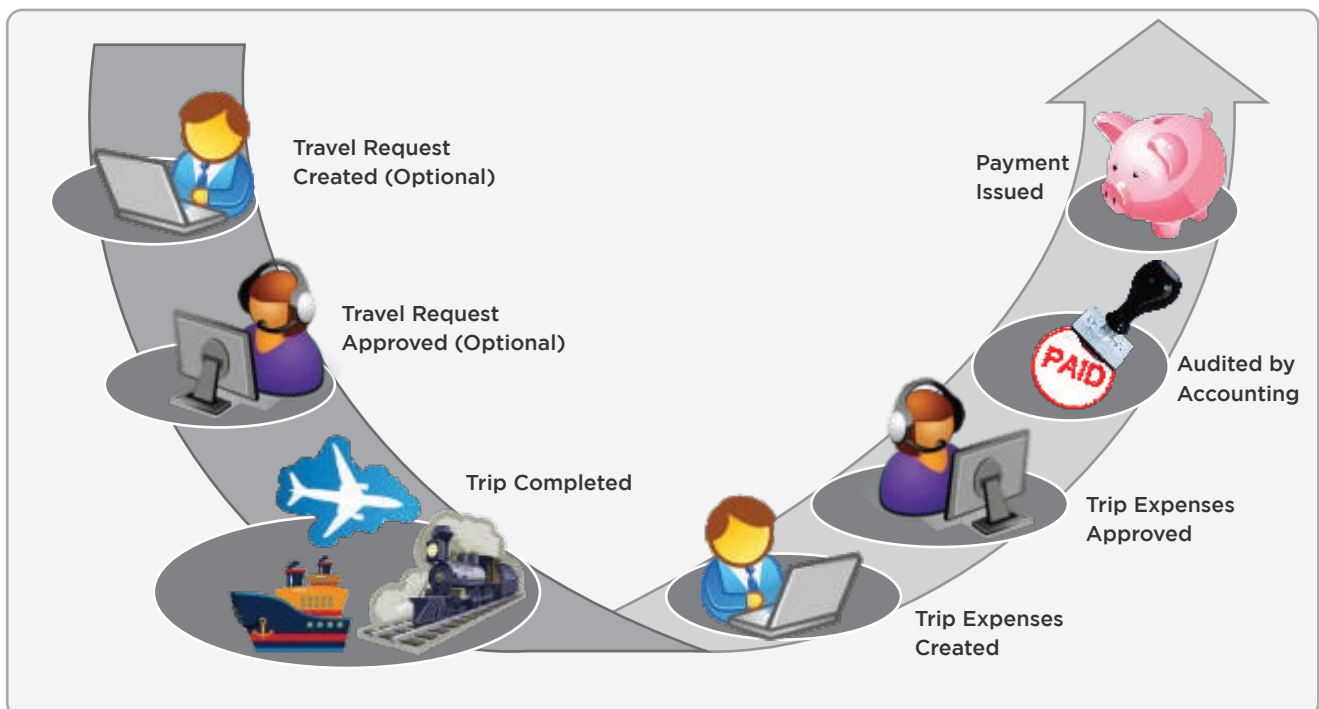

Every business trip begins with booking travel & ends when all travel expenses are reimbursed. & those travel expenses can add up, representing a typical organization's second largest controllable expense. So doesn't it make sense to manage your entire business travel process within one seamless on-demand service? More & more organizations around the globe are utilizing Datamatics to do just that. Datamatics's Smart Travel helps companies streamline all aspects of their travel & entertainment expenses.

DATAMATICS' NEXT-GENERATION SOLUTION

- Datamatics SmartTravel eliminates the traditional expense report by automatically reconciling what was booked with what was actually spent, putting your organization in complete control through the power of visibility & making easier & faster Business Travel a reality
- Datamatics Travel & Expense does more than just combine travel booking & expense reporting into one integrated end-to-end process. Datamatics actually helps your organization control spend - from the time travel is procured all the way through to payment & reporting - by driving compliance & enforcing your policies
- All the data captured during booking & throughout the business trip flows directly into the expense reporting process, which means that now your organization has more visibility into employee spend than ever before

DATAMATICS' RECORD TO REPORT PROCESS WORKFLOW

The Travel & Expense Platform provides web based interface to put travel requests & expense claims online which can be audited & approved by Datamatics team eliminating the efforts spent by your accounting team.

DATAMATICS' OFFERINGS

Datamatics offers comprehensive F&A services for global markets including India & have helped many organizations to achieve their business objectives by forming shared services by collaboration of automation & service delivery improving cost efficiency, control & compliance. Travel & Expense Processing is one of the key offerings under F&A service umbrella which bundles technology & service together enabling you to adopt a transaction based business model.

Travel Planning	▪ SmartTravel enables business travelers to book flights, hotels, cars as well as look up related information. In addition, the application fully supports communication with travel agencies, making interactions more efficient.
Travel Expense Management	▪ With easy-to-use functions that speed the entry & processing of travel expense reports & streamline accounting & settlement processes, Smart Travel reduces the administrative workload associated with travel expense accounting. Corporate policy control- SmartTravel enables you to control both travel planning & travel expense management according to corporate travel policies.
Travel Management Reporting	▪ SmartTravel supports decision-making & facilitates the development & implementation of new travel strategies. Preconfigured reports help you consolidate valuable data for supplier negotiations to further cut direct purchasing costs.

Datamatics with its flexible delivery models enables you to switch from traditional capex to opex based model which allows you to pay per transaction without spending on platform.
