

# **BUSINESS CONTINUITY & DISASTER RECOVERY SERVICES**

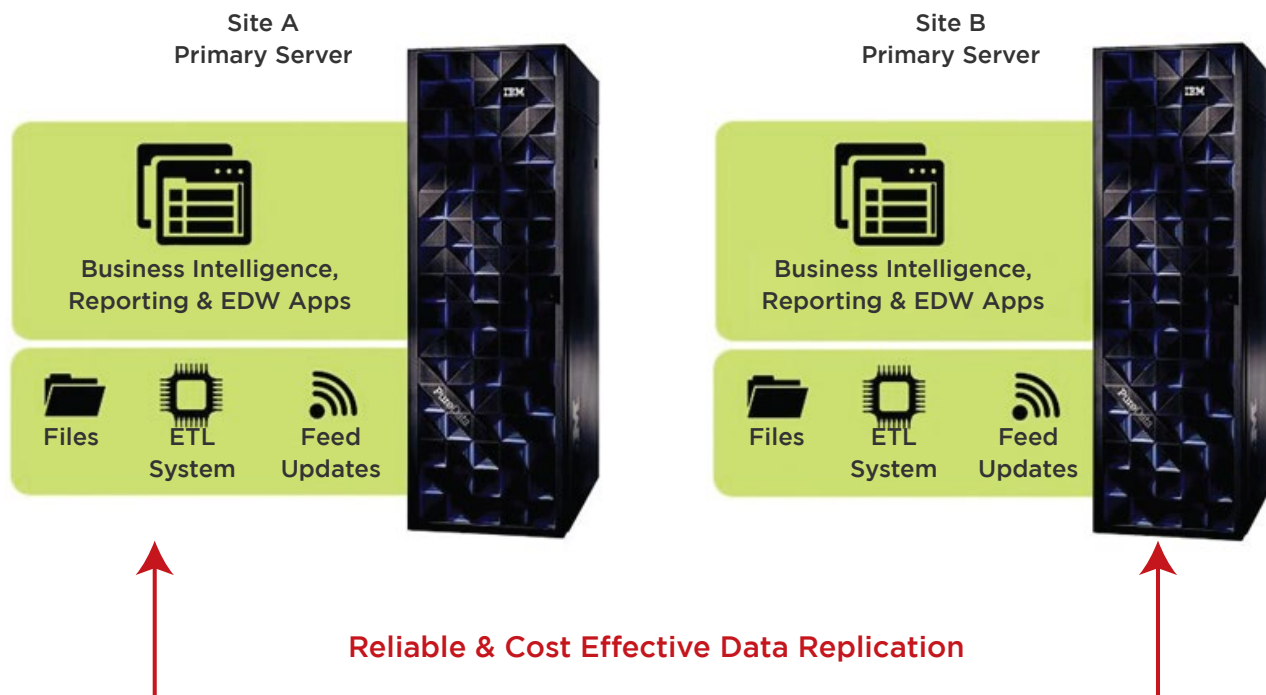

# PROTECT YOUR ENTERPRISE FROM UNFORESEEN RISKS

In today's hyper-competitive world, business success is increasingly dependent on actionable intelligence. In such a dynamic scenario, no enterprise, can afford to lose access to one of its most vital assets – Data.

However volumes of data are still under constant risk of hardware & software failures, power outages & natural disasters. An unplanned downtime – for whatever reason – poses a direct financial & reputational threat to your business & its ecosystem.

Datamatics' Business Continuity & Disaster Recovery (BCDR) services helps organizations prepare for the unexpected by improving the resiliency of businesses, reducing their backup & recovery time whilst lowering the support costs. Datamatics leverages IBM's Pure Data System for Analytics, powered by Netezza to provide organizations comprehensive business continuity & disaster recovery plan with complete visibility. This ensures the data, the software, & network remain safe & accessible.

## DATA REPLICATION PROCESS

# DATAMATICS HELPS YOU

- Reduce the risk of disruption & loss of information
- Identify, assess & prioritize business-critical functions & systems
- Review existing policies, procedures, & readiness, & make necessary recommendations for improvements
