

## A LARGE INTERNATIONAL ORGANIZATION MOVED TO AWS CLOUD FOR IMPROVING SECURITY AND SCALABILITY

### PROFILE

The client leads international efforts to defeat hunger

United States of America

International Organization

### CHALLENGES

The client wanted to host their FAM catalog solution on cloud and wanted an automated deployment using AWS Cloud Formation services in multiple countries.

### SOLUTION

Datamatics implemented **AWS cloud** as an IAAS and configured the web app and database in the private subnet to allow seamless communication internally.

### IMPACT

#### DevOps

Process was eased using DevOps capabilities and auto healing

#### Scalability

Auto scaling on servers to meet growing demands of end users
