TruBot

Start and scale your RPA
journey with TruBot

START AND SCALE YOUR RPA JOURNEY WITH TRUBOT

TruBot is an enterprise grade, multi-skilled bot programmed to enhance your enterprise's productivity. It automates a range of simple as well as complex processes. With TruBot anybody, even a business user with absolutely no programming knowledge, can design bots with click of a button. Whether you have just started your robotic process automation journey or planning to scale up your automation program, now you can just sit back, relax and take complete control of your RPA program centrally. TruBot also comes with an intelligent data capture solution, TruCap⁺. It has integrated artificial intelligence (AI) & fuzzy logic and captures meaningful data from unstructured documents with over 99% accuracy. In addition with TruBot Neuro, your digital workforce gets reasoning capabilities. Integration of cognitive technologies like artificial intelligence, machine learning enables your bot workforce to handle complex transactions which are generally reliant on human expertise and intervention.

ARCHITECTURE

MODULES

TruBot Designer

With TruBot Designer, anybody can design bots. Business users who do not have any programming knowledge, can design the bot at click of the button!

TruBot Cockpit

Take complete control of your RPA program with TruBot Cockpit. You can now centrally manage and monitor your entire bot workforce deployed across the enterprise.

PLATFORMS

TruBot

TruBot is a proprietary product for RPA. It is a multi-skilled bot with intelligent data capture solution

TruCap+

Intelligent data capture solution with integrated AI & fuzzy logic.

TruBot Neuro

Comprehensive Artificial Intelligence platform for pattern detection, text and data mining.

TruBot Analytics

Go beyond automation. Get actionable intelligence from your RPA data

FEATURES

Intelligent data capture solution

TruCap+, proprietary intelligent data capture solution with integrated AI & fuzzy logic. Captures meaningful data from unstructured documents with over 99% accuracy.

Reliable

Consistent performance with enterprise technologies and business processes in fully automated or attended modes

Cognitive Support

Integrates with Datamatics AI platform- TruAI, Machine Learning for Natural Language Processing, pattern detection use cases; Chatbot scenarios

Versatile

Compatible with legacy & mainframe systems, enterprise COTS - SAP, Siebel, Finacle, Murex, Virtualization (Citrix, Virtual desktop infrastructure).

Full Featured AI Platform, TruAI

Well integrated with Datamatics Artificial Intelligence platform, TruAI. Independent of third party platforms.

Secured

Major source of fraud averted by segregation designers (TruBot Designer) and executors (TruBot Cockpit). Credential vault for heightened security.

RECOGNITION
