

A UK BASED NON-PROFIT ORGANIZATION MOVED TO AWS CLOUD AND INCREASED SECURITY

PROFILE

Charity assessment organization

United Kingdom

Non-Profit Organization

CHALLENGES

The client wanted to move to cloud and wanted to build a rich web & mobile application to improve their reach and response across the globe.

SOLUTION

Datamatics implemented **AWS Cloud** Trail and Cloud Watch to get almost real-time updates on the security and operational events generated by the AWS environment and instances.

IMPACT

Cloud Environment

Optimized the cloud environment

Ahead Of The Security Curve

by building secure frameworks for cloud deployment
