CHALLENGES

Blue Star wanted to improve its efficiency in procure-to-pay by streamlining the process.

SOLUTION

Implemented a vendor portal to bring the suppliers under one umbrella and automated the entire process with TruBot RPA and iPM workflow automation.

IMPACT

7000+

vendors on-boarded to the new vendor portal

33%

improvement in invoice processing time

98%

payment requests processed within TAT

We've been associated with Datamatics for close to about two years and this journey is around Blue Star's digitization initiative focused on the procure-to-pay solution. In the true spirit of partnership, we never had a feeling that Datamatics is a vendor or a service provider.
