

IDP SOLUTION

INTELLIGENT DOCUMENT PROCESSING (IDP)

Artificial intelligence-powered, template-free IDP solution

Organizations across all vertical industries continue to use documents as a major source of data input. These documents have unstructured data and require knowledge workers for manual data entry, exception management and quality checks, making document processing a cumbersome, time-consuming and costly proposition.

It is here that **Intelligent Document Processing or IDP** steps in. Users can get up and running faster with our Template-Free approach. Our AI-enabled IDP solution can be deployed in the cloud so no need to worry about setting up underlying infrastructure; easy-to-use Configurator, browser-based access, an intuitive GUI all add up to deliver a compelling user experience (UX) to business users. Continuous learning & improvement based on AI/ML algorithms and user inputs, and other cognitive capabilities deliver a greater percentage of straight-through processing (STP) with a higher accuracy. Quite clearly, Datamatics TruCap+ IDP is an ideal solution for your document processing and automation requirements.

TRUCAP+ IDP SOLUTION - KEY DIFFERENTIATORS

Get up and running faster with our Unique, Template-Free approach

Our template-free approach reduces set up time by 30% -70% and delivers faster time-to-automation. No need to create and maintain multitudes of document templates that escalate total cost of ownership (TCO) and increase time-to-value.

AI-enabled document capture and processing for a greater degree of automation & accuracy

Pre-built AI/ML capabilities and business rules enable automated verification and validation of data. Continuous learning & improvement based on AI/ML algorithms and user inputs. Cognitive capabilities deliver a greater percentage of straight-through processing (STP) with a higher accuracy, thereby reducing manual effort and saving time. TruCap+ supports multiple OCR engines.

Deployment flexibility as per your business requirements

Deploy the IDP solution in the cloud or on-premises as per your business requirements. Cloud deployment ensures infrastructure flexibility and scalability with increasing IT workloads.

Tailor made for Business User persona

TruCap+ with its easy-to-use Configurator and a compelling UX enables business users to quickly achieve document automation. Browser-based access and an intuitive GUI ensures faster document processing.

Seamless integration with TruBot for end-to-end automation

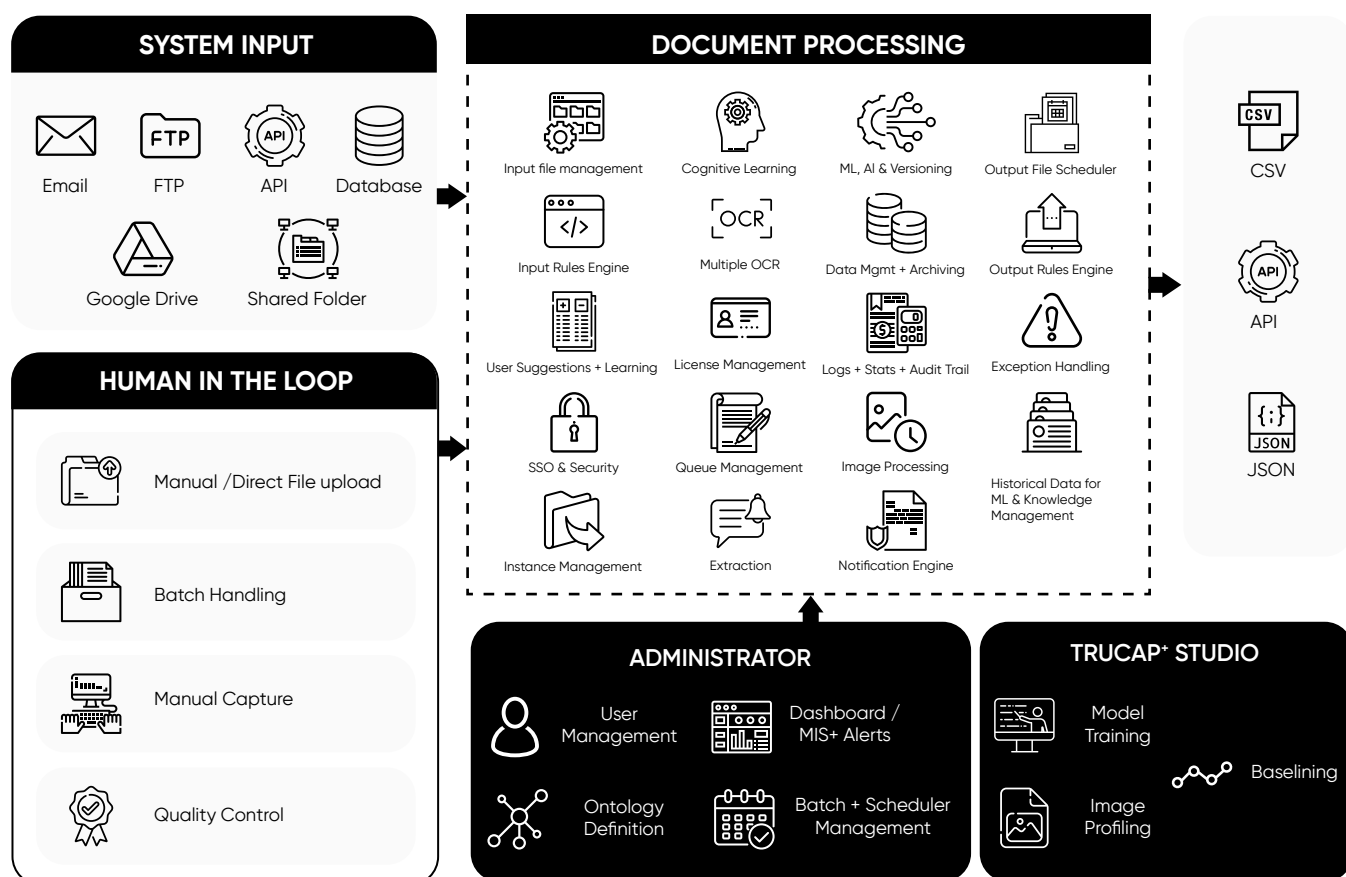

Achieve end-to-end automation by ingesting unstructured data from documents and its conversion to structured data using RPA and IDP in combination, TruCap+ integrates with TruBot and other leading RPA products.

Flexible, tiered pricing based on page volume

Flexible pricing models provide a range of options to choose from depending on your business requirements, be it thousands or millions of documents. Our transparent pricing ensures business value and offers the options to add-on greater page volume(s) if the need arises.

TRUCAP+ DATAMATICS IDP SOLUTION ARCHITECTURE

KEY AWARDS AND RECOGNITIONS FOR INTELLIGENT AUTOMATION PRODUCTS

A Leader in Quadrant SPARK Matrix: Intelligent Document Processing (IDP), 2020

Major contender in Everest Group's IDP Peak Matrix, 2020

Datamatics TruBot scores 4.7/5 for customer satisfaction on G2

Datamatics TruBot scored 4.8/5 for customer satisfaction on Gartner Peer Insights for the year 2020

KEY AWARDS & RECOGNITIONS

Datamatics TruBot and TruCap* won Silver and Bronze Awards at the Asia Pacific Stevie Awards

Datamatics TruCap* won People's Choice Stevie Awards at the American Business Awards 2020

Datamatics recognized in the IAOP 2020 Global Outsourcing 100 List of the world's best outsourcing providers

Datamatics TruBot wins Gold Award at the Stevie Awards for Sales & Customer Service 2020

Datamatics wins the Rail Analysis India Award 2020 for Automated Fare Collection technology

Datamatics TruAI wins Gold Stevie Award at the American Business Awards® 2020

ABOUT DATAMATICS

Datamatics provides intelligent solutions for data-driven businesses to increase productivity and enhance the customer experience. With a complete digital approach, Datamatics portfolio spans across Information Technology Services, Business Process Management, Engineering Services and Big Data & Analytics all powered by Artificial Intelligence. It has established products in Robotic Process Automation, Intelligent

Document Processing, Business Intelligence and Automated Fare Collection. Datamatics services global customers across Banking, Financial Services, Insurance, Healthcare, Manufacturing, International Organizations, and Media & Publishing. The Company has presence across 4 continents with major delivery centers in the USA, India, and Philippines. To know more about Datamatics, visit www.datamatics.com
