Datamatics and Scan-Optics Partner to Help Enterprises Optimize Business Performance

Mumbai, Manchester, Conn., October 06, 2022 – Datamatics, a global Digital Technologies, Operations, and Experiences Company, and Scan-Optics, a leader in intelligent data management and digital transformation, today announced that they have entered in a partnership to help organizations enhance automation of business operations.

Scan-Optics digitizes, classifies, and migrates data – owning the lifecycle of digital data. Datamatics brings Artificial Intelligence and Machine Learning to the world of unstructured document automation and business processes.

Aabhas Zaveri, SVP, Intelligent Automation, Datamatics, said, “We believe it’s a natural progression for both Scan-Optics’ and Datamatics’ customers to adopt AI-driven Intelligent Automation solutions to bring efficiencies to manual and document-driven operations. Our combined technologies can help the customers with process automation, document extraction and generate intelligence around their customers, partners, products, and employees, enabling them to deliver better customer and employee experience.”

Jeff Mitchell, CEO Scan-Optics expressed, “We are happy to partner with Datamatics and are confident in their AI-driven intelligent solutions. It will provide excellent value for companies in automating workflows, improving customer productivity, and optimizing employees’ time spent on tedious tasks.”

The combined power of these technologies will allow for increased speed, efficiency, accessibility, productivity, and accuracy of business operations. Datamatics and Scan-Optics will offer enterprises with solutions such as document/digital conversion, intelligent document processing, digital record management and robotic process automation.

About Scan-Optics, LLC.

Scan-Optics is a global leader in digital transformation, intelligent data management, document conversion and business process optimization. With over 50 years of experience serving private, government and higher education institutions, Scan-Optics helps customers digitally transform their businesses by leveraging AI technology, machine learning and cloud-based solutions.

With a range of solutions, including information management, robotics process automation, enterprise content management and professional services, Scan-Optics helps customers energize data through their easy.forward™ platform. This proprietary platform helps promote speed, efficiency and data transparency within a customer’s work environment.
