Datamatics Intelligent Automation Platform now can be connected with 1000+ enterprise applications instantly

Launches ready-to-configure connector in Workato App Directory

Mumbai, 9th March 2023 – Datamatics, a global Intelligent Automation, Digital Technologies, Operations, and Experiences Company, today announced the successful launch of a ready-to-configure connector in Workato for its Robotics Process Automation tool TruBot which will offer pre-built integration with 1000+ enterprise applications.

The Datamatics Intelligent Automation Platform is a unified platform that automates a variety of tasks, processes, with unstructured, semi-structured and structured data across various types of documents. The solution combines the capabilities of Datamatics TruBot RPA and TruCap+ IDP products, along with artificial intelligence (AI), machine learning (ML), and natural language processing (NLP) models.

The launch of the connector in Workato's app directory further strengthens the reach of Datamatics' intelligent automation platform, enabling businesses to seamlessly integrate their apps and automate their critical tasks without coding. TruBot connector offers a wide range of pre-built connectors and APIs that can be easily integrated with various systems, making it easier to automate tasks across different applications.

Commenting on the launch, **Shashi Bhargava, EVP & Head Product and Solutions Group, Datamatics** said, "We are delighted to announce ready-to-configure connector with Workato. Our partnership with Workato offers a significant opportunity to expand the reach of our Intelligent Automation Platform. This will allow users to directly connect Datamatics Intelligent Automation Platform with 1000+ other enterprise applications, enabling them to automate their business processes and improve efficiency."
