Datamatics and OutSystems Forge Strategic Relationship to Drive High-Performance Low-Code Application Development

Datamatics aims to accelerate app development and enhance business agility for its customers

9th January 2024, Mumbai - Datamatics, a leading global Digital Technologies, Operations, and Experiences company, today announced a new partnership with OutSystems, a global leader in high-performance application development, offering an enterprise grade low-code platform that empowers businesses to transform and accelerate software development and delivery.

OutSystems, in collaboration with Datamatics, presents a ground-breaking low-code platform, poised to transform the landscape of application development. Developers can rapidly create web and mobile applications with ease through the intuitive visual development environment and an array of pre-built templates. This innovation empowers developers to streamline the creation process while ensuring high-quality results for business-critical applications.

Some Key Features of the platform are:

- **Seamless Integration:** The platform effortlessly connects to various data sources and APIs, providing a comprehensive and unified development experience.
- **Cross-Platform Compatibility:** Applications built using this platform seamlessly operate on different devices and operating systems, ensuring maximum reach.
- **User-Centric Design:** Robust user experience design tools guarantee visually appealing and user-friendly interfaces, enhancing the end-user experience.
- **Security and Scalability:** Integrated security features and scalability options simplify the development process, ensuring data and application integrity.
- **Enhanced Functionality:** The platform offers analytics, automated testing, and AI/ML integration to boost application performance and capabilities.
- **Community and Support:** A thriving community and marketplace provide valuable resources, while comprehensive training and support options aid users at every step.
- **Flexible Deployment:** Whether deployed in the cloud or on-premises, this partnership empowers organizations to accelerate application delivery, reduce costs, and ensure security and scalability throughout the development lifecycle.

DATAMATICS

Bala Gopalakrishnan, President – Digital Technologies at Datamatics said, "Our collaboration with OutSystems signifies a pivotal moment in application development. With OutSystems' innovative low-code platform and Datamatics' extensive experience, we're poised to redefine the landscape of software creation. From streamlined integrations to elegant user interfaces, we're crafting a technological future that empowers organizations to expedite their digital transformations while upholding the pillars of efficiency, security, and scalability."

Saravanan Subramaniam, RVP APAC Channels & Alliances at OutSystems said, "We are thrilled to kick off this partnership with Datamatics. Our high-performance low-code platform empowers organizations to excel in the digital era, enabling swift responses to market challenges and emerging opportunities. Together, OutSystems and Datamatics can offer enterprises the freedom to build unique software for their unique business models faster, better and with built-in scalability."

By combining Datamatics Intelligent Automation capabilities with the OutSystems platform, the partnership will offer improved efficiency, faster high-performance low-code development, and reduced security incidents.
