Datamatics Recognized in the Gartner® Magic Quadrant™ for Finance & Accounting Business Process Outsourcing Report for the Fourth Consecutive Year

29th April 2025, Mumbai: Datamatics, a global leader in Digital Operations, Technologies, and Experiences, is pleased to announce its inclusion for the fourth consecutive year in the 2025 Gartner Magic Quadrant for Finance and Accounting Business Process Outsourcing. The company has also improved its position in both its ability to execute and its completeness of vision. The Magic Quadrant evaluated 16 vendors in the industry. We believe that this recognition solidifies Datamatics' position as a preferred partner for CFOs seeking AI-powered autonomous finance.

Gartner evaluates providers based on their ability to deliver cost-efficient, automated solutions for core finance functions such as purchase-to-pay (P2P), order-to-cash (O2C), and record-to-report (R2R). The assessment focuses on system connectivity, intelligent automation, and AI and ML-driven transformation. Datamatics has maintained its position in the Niche Players quadrant for the fourth consecutive year, which we feel underscores its automation-led service delivery, global processing excellence, and tailor-made F&A solutions for manufacturing.

Navin Gupta, EVP and Global Head, Digital Operations, Datamatics, said, "We are happy to be recognized in the 2025 Gartner® Magic Quadrant™ for Finance and Accounting BPO. We see this as a reflection of our commitment to building intelligent operations that help finance leaders manage change with confidence." **He added,** "Datamatics, through its AI and ML-powered platform FINATO, is driving the shift towards Autonomous Finance—transforming P2P, O2C, and R2R processes by reducing manual intervention, enhancing agility, and enabling end-to-end automation across the finance function."

Mitul Mehta, EVP and Chief Marketing Officer, Datamatics, shared, "At Datamatics, we are dedicated to empowering our customers with AI-powered autonomous finance transformation. Being recognized for the fourth consecutive year in the 2025 Gartner Magic Quadrant for Finance and Accounting Digital Operations. We think this is an improvement in our position in both our ability to execute and completeness of vision, which according to us is highlighted our strong digital finance transformation capabilities and consistent focus on customer success. As we look to the future, we are excited to continue innovating and delivering next-generation finance solutions that help our customers stay ahead in an ever-evolving landscape."

Recently, Datamatics was also recognized as "Major Contender" in the Everest Group Intelligent Process Automation (IPA) Solutions PEAK Matrix® Assessment 2025,

DATAMATICS

reinforcing its commitment to delivering powerful, future-ready automation solutions for global enterprises.
