INNOVATIVE MINDS. GLOBAL IMPACT.

Over the past five decades, Datamatics has not only witnessed but also helped shape the evolution of India's IT and BPO industries. What began as the bold vision of our Chairman and Founder, Dr. Lalit S. Kanodia, has grown into a resilient, innovative enterprise that has thrived through every wave of technological change.

What started with a handful of minds in a single room has expanded into thousands across continents. Datamatics was not merely building an industry — we were solving problems, guided by logic, resilience, and heart. Our greatest strength has always been

our people: innovative minds who look beyond challenges and envision something greater. When such minds unite with purpose, they create global impact. This is not just our legacy; it is the promise we carry into the next 50 years.

As we look ahead, we are truly excited about the future. With an AI-first approach, Datamatics stands at the forefront of a new technological revolution, ready to seize the opportunities it brings. We extend our heartfelt gratitude to our customers, employees, and investors for being an integral part of this remarkable journey.

Strategic Focus

Powering the future with AI-first innovation and global impact

Shaping industries, empowering Fortune 500 companies, and driving impact in a world transformed by intelligent technologies

At Datamatics, AI continues to be a strategic priority. We are building Agentic AI solutions that deliver measurable business outcomes and lasting value. As businesses embrace this intelligent future, we are proud to be a trusted partner on their transformation journey.

AI Innovations and Strategic Collaborations: Looking ahead to FY26, Datamatics is excited by the transformative potential of artificial intelligence. We have collaborated with global technology leaders like Microsoft and Google to build small language models and copilots tailored for process automation, empowering enterprises to accelerate their digital transformation journeys. We are also proud to be among the world's first companies to achieve ISO 42001:2023 certification for Artificial Intelligence Management Systems. We will continue to innovate in the AI space and currently working on the development of intelligent AI Agents designed to deliver contextual and autonomous support across business functions.

Deepening Customer Relationships: With a diverse customer base spanning multiple industries, including several Fortune 500 companies, Datamatics is focused on strengthening existing relationships and expanding within key accounts. Our integrated sales and marketing approach is driving targeted account management, cross-selling, and upselling to unlock greater value for our clients.

Strengthening Our Global Leadership: Our leadership bench continues to grow stronger with the addition of seasoned professionals who bring deep expertise in digital transformation. We have also enhanced our mid-management and regional sales teams in the USA and UK to better support global growth and execution excellence. We have augmented our board with the induction of Dr. Avnish Kshatriya, Kanika Mittal, and Himanshu Verma. We are confident that their extensive industry expertise will contribute significantly to our continued success.

Advancing Our Products & Platforms: Datamatics remains committed to building and evolving proprietary digital technology solutions. Our flagship Intelligent Automation Platform (IAP) integrates TruBot (RPA), TruCap+ (IDP), TruDiscovery (AI content assistant) and AI/ML models to automate a wide range of business tasks, including the processing of unstructured and semi-structured data. Additionally, FINATO is enabling finance transformation with AI, while TruBI empowers users with advanced business intelligence and data visualization.

We've also embedded Generative AI into our automation suite, which is now live with more than 30 customers. Our products—TruBot, TruCap+, FINATO, and TruBI—are available on Microsoft Azure Marketplace, expanding their accessibility to a broader global audience.

Expanding Our Global Footprint: Datamatics is accelerating its brand presence across the US and Europe through strategic marketing investments. In FY25, we amplified our visibility by participating in marquee events, hosting focused customer engagements, and running high-impact digital campaigns. We also celebrated the New Year with a memorable event for our customers in Mumbai, strengthening relationships and reinforcing our commitment to customer delight.

Business Overview

Deep in Digital with AI-first Approach

Datamatics is well-positioned to support enterprises with an AI-first approach by providing end-to-end digital solutions that help improve productivity, elevate customer experiences, and enhance competitiveness. We see strong growth opportunities in areas such as intelligent process automation, AI-powered analytics, digital experience management, and content digitization. To remain at the forefront of this transformation, we continue to expand our capabilities across Digital Technologies, Digital Operations, and Digital Experiences, investing in cutting-edge tools and best practices to help our clients go Deep in Digital.

Datamatics continues to advance its vision with an AI-first approach, driving enterprise-wide digital transformation and AI adoption. Our IT services help enterprises modernize legacy systems, embrace cloud, harness data, build next-generation digital products, and deliver measurable business outcomes. At the core of our innovation agenda is a centralized AI Practice that designs and deploys scalable, secure, and cost-effective AI solutions. This strategic investment ensures consistent delivery of industry-defining outcomes, improved time-to-value, and enhanced customer satisfaction.

Our AI-enabled Hyperautomation offerings enable end-to-end enterprise transformation across all business functions:

- Front Office: Driving revenue growth and customer lifetime value through AI-powered personalization, multichannel engagement, and analytics.
- Mid Office: Enhancing agility and responsiveness by enabling real-time orchestration between front-end and operational workflows.
- Back Office: Delivering cost optimization and efficiency gains through intelligent automation and process re-engineering.

Our GenAI and Agentic AI platforms – KaiSDLC, KaiBRE, KaiTest, KaiVision, and KaiCloud – enable application development, cloud operations, analytics, intelligent automation, and knowledge management. Our proprietary IP – TruBot, TruCap, TruAgent, and the Intelligent Automation Platform strengthen our automation-led value proposition. Our strategic partnerships with Salesforce, Microsoft, and Google, ensure we stay ahead in delivering cloud-native, AI-integrated solutions aligned with future enterprise needs.

“Datamatics was very agile and proactive in their approach and worked as our extended team. Datamatics helped us in our Digital Transformation journey by enabling us to go deep in digital with its solutions.”

Chairman's Message

Dr. Lalit S. Kanodia
Founder and Chairman

FY25 was a significant year for us as we marked the golden jubilee of the Datamatics Group. From our beginnings in a 600 sq. ft. office with 10 employees in 1975, we have grown into a multinational enterprise with over 15,000 employees worldwide from 32 nationalities and a presence in the USA, UK, Germany, UAE, Philippines, and eight cities in India.

Dear Shareholders,

As we reflect on the past year, I am pleased to share the achievements and progress of your company, Datamatics Global Services Ltd. FY25 was a significant year for us as we marked the golden jubilee of the Datamatics Group. From our beginnings in a 600 sq. ft. office with 10 employees in 1975, we have grown into a multinational enterprise with over 15,000 employees worldwide from 32 nationalities and a presence in the USA, UK, Germany, UAE, Philippines, and eight cities in India. I would like to acknowledge the innumerable and invaluable contributions of all our customers, employees, and each and every one of you that has made this journey memorable.

In FY25, the global economic environment remained challenging with the World Economic Outlook projecting a growth rate of 3% in 2025 amidst trade tensions, tighter financial conditions, and geopolitical uncertainty. Despite these conditions, your company delivered steady growth in revenue, supported by our focus on financial discipline and long-term planning. Our consolidated revenue for FY25 stood at ₹1,723 crores, a growth of 11.2% over FY24, a testament to our robust business model and dedicated team.

We have followed four cardinal principles to lay the foundation of a strong and enduring enterprise:

- **Technology & Innovation:** Innovation has been corner stone of our journey. Well before AI became a buzzword, the Datamatics Group launched cognitive capture tools, robotic process automation built on fuzzy logic, and next-generation platforms for publishers and retailers, ushering AI into real business operations and redefining enterprise efficiency. Today, Datamatics, with its AI-first approach, is well-positioned to support enterprises in their AI-powered digital transformation journey.

- **Quality:** Quality is embedded in all our operations, earning the trust of customers and recognition from leading industry bodies. Just recently, Lumina Datamatics won three awards from the IMC Chamber of Commerce and Industry, related to Quality.

- **Corporate Governance:** We are committed to transparency, accountability, and ethical practices. Recently, Lumina Datamatics won the Corporate Governance Award at the hands of the former Chief Justice of India.

- **Financial Prudence & Discipline:** Our prudent financial approach has enabled us to maintain a strong balance sheet and P&L year after year.

Our people remain at the core of our business. We remain focused on creating a work environment that supports professional growth and encourages talent retention. This has also resulted in ET NOW awarding Lumina Datamatics with "Best Organizations to Work for in 2025".

As we look ahead, Datamatics will remain focused on building a sustainable and resilient organization. We will continue to invest in our people, technology, and partnerships to create long-term value for our shareholders. I thank our customers, shareholders, employees, and partners for their continued trust and support.

I am confident that the company is well placed to capture future opportunities and deliver steady growth. Together, we will strive to advance innovation, uphold excellence, and generate value for all our stakeholders.

I see our next 50 years as bolder, faster, and more intelligent than ever.

Yours Sincerely,

Dr. Lalit S. Kanodia

Vice Chairman & CEO's Message

Rahul L. Kanodia

Vice Chairman & Chief Executive Officer

As we look ahead, I am truly excited about the future. We stand at the forefront of a new technological revolution, and Datamatics is strongly positioned to seize the opportunities it brings. I thank our customers, partners, employees, and shareholders for your trust and support.

Dear Shareholders,

I am proud to share that your company recently celebrated a remarkable milestone, the 50th anniversary of the Datamatics Group. Over the past five decades, we have not only witnessed but also helped shape the evolution of India's IT and BPO industries. What started as the bold vision of our Chairman and Founder, Dr. Lalit Kanodia, has grown into a resilient and innovative enterprise, thriving through every wave of technological change. A heartfelt thank you to our customers, employees, and investors for being an integral part of this journey.

We navigated a volatile global economy with slowing growth in the US and Europe, rising trade tensions, and tighter financial conditions. Despite these headwinds, Datamatics delivered steady growth. On a consolidated basis, your Company achieved revenue from operations of ₹1,723 crores, an increase of 11.2% compared to ₹1,550 crores in the previous year. Consolidated operational profits were ₹229 crores compared to ₹244 crores, with a margin of 13.3%.

Artificial Intelligence is rapidly transforming industries by automating tasks, enabling data-driven decision-making, and enhancing customer experiences. With over five billion people expected to have AI access through their smartphones in the next three years, its role in shaping business strategy and operations is becoming increasingly central. At Datamatics, AI continues to be a strategic priority. We are developing innovative Agentic AI solutions designed to deliver measurable outcomes and long-term value for our customers. This year, we participated in the World Economic Forum at Davos, engaging with global leaders to share our AI vision. We are among the first companies globally to achieve ISO 42001:2023 certification for Artificial Intelligence Management Systems. Our AI portfolio includes small language models, copilots, and intelligent AI agents delivering contextual, autonomous support for process automation, empowering enterprises to accelerate their digital transformation journeys.

We continue to be recognised by leading analysts, including Gartner, Everest, ISG, IDC, and Avasant, for our work in Intelligent Document Processing, Robotic Process Automation, Finance and accounting Outsourcing, and Customer Experience Management. Google named us the "Strategic Partner for the back office of the future," while Microsoft recognized our AI innovation at scale by naming us the "AI-First Mover."

Strategic acquisitions strengthened our portfolio. Dextara Digital enhanced our Salesforce capabilities, while TNQTech expanded Lumina Datamatics' digital content operations, increasing our reach into the European market and cementing our leadership in e-publishing.

We aimed to focus on supporting communities through employability initiatives, empowerment efforts, and environmental sustainability. In India, we launched the Datamatics Fellowship Program, complementing our ongoing efforts to empower youth in tier 3 cities where we operate, and sponsored education for meritorious students from underprivileged backgrounds. Datamaticians participated in the Tata Mumbai Marathon in support of Annam, drawing attention to the important issue of malnutrition in the country. We partnered in the 'Trees for Tigers' project, focusing on wildlife conservation while reducing our carbon footprint and improving soil quality.

In the Philippines, we spearheaded the GROW (Giving Resources and Opportunities to Women) program, organised blood donation drives in association with Red Cross Philippines, and celebrated civil servants who keep the city clean. Our credible practices across the globe earned us the prestigious UN Women's India WEPs award in 'Transparency & Reporting'. We continue to nurture practices in alignment with the UN Sustainable Development Goals (SDGs).

As we enter FY26, AI will remain the cornerstone of our growth. We will deepen our AI-led transformation programs, strengthen hyperscaler partnerships, and focus on high-growth markets in the US and Europe. We are also aligning our solutions more closely to industries like BFSI, manufacturing, logistics, publishing, and retail, combining domain knowledge with technology to address sector-specific challenges.

As we look ahead, I am truly excited about the future. We stand at the forefront of a new technological revolution, and Datamatics is strongly positioned to seize the opportunities it brings. I thank our customers, partners, employees, and shareholders for your trust and support.

Yours Sincerely,

Rahul L. Kanodia

NOTES:

1. Pursuant to General Circular Nos. 14/2020 dated April 8, 2020, 17/2020 dated April 13, 2020, 20/2020 dated May 5, 2020 and subsequent circulars issued in this regard, the latest being General Circular No. 09/2024 dated September 19, 2024, issued by the Ministry of Corporate Affairs (hereinafter collectively referred as "MCA Circulars") and SEBI Circular(s) dated May 12, 2020 and subsequent circulars issued in this regard, the latest being Circular dated October 3, 2024 issued by the Securities and Exchange Board of India ("SEBI Circulars") and in compliance with the provisions of the Companies Act, 2013 ("the Act") and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), the 37th Annual General Meeting of the Company ('AGM' or 'Meeting') is being conducted through Video Conferencing ("VC") / Other Audio Visual Means ("OAVM") facility, which does not require physical presence of the Members at a common venue. Hence, the Members are requested to attend and participate in the ensuing AGM through VC / OAVM facility being provided by the Company through National Securities Depository Limited ("NSDL"). The deemed venue for the Annual General Meeting of the Company shall be the Registered Office of the Company.
2. The Notice of the Annual General Meeting along with the Annual Report for the financial year 2024-25 is being sent only by electronic mode to those Members whose email addresses are registered with the Company / Depositories as on Friday, August 22, 2025 in accordance with the aforesaid MCA and SEBI Circulars. Members may note that the Notice of Annual General Meeting and Annual Report for the financial year 2024-25 will also be available on the Company's website www.datamatics.com, websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively, and on the website of NSDL at www.evoting.nsdl.com.
3. The Explanatory statement pursuant to section 102 of the Companies Act, 2013 as amended (Act) setting out material facts concerning the business with respect to Item no. 4 forms part of this Notice. Additional information, pursuant to Regulation 36(3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), 2015 ("SEBI Listing Regulations") and Secretarial Standard-2 on General Meetings issued by the Institute of Company Secretaries of India, in respect of Director retiring by rotation seeking re-appointment at this AGM is annexed to this Notice.
4. **Pursuant to the provisions of the Act, a member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a Member of the Company. Since this AGM is being held pursuant to the MCA Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointments of proxies by the Members will not be available for the AGM and hence the Proxy Form and Attendance Slip are not annexed to this Notice.**
5. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available for 1000 members on a first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restrictions on account of first come first served basis.
6. Institutional / Corporate Shareholders (i.e. other than individuals / HUF, NRI, etc.) are required to send a scanned copy (PDF/JPG Format) of its Board or governing body Resolution/Authorization etc., authorizing its representative to attend the AGM through VC/OAVM on its behalf and to vote through remote e-voting. The said Resolution/Authorization shall be sent to the Scrutinizer by email through its registered email address to swapneel@spassociates.co with a copy marked to evoting@nsdl.co.in.
7. As per Regulation 40 of SEBI Listing Regulations, as amended, securities of listed companies can be transferred only in dematerialized form with effect from, April 1, 2019, except in case of request received for transmission or transposition of securities. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to consider converting their holdings to dematerialized form. Members can contact the Company or Company's Registrars and Transfer Agents, Datamatics Business Solutions Limited ("DBSL") for assistance in this regard.
8. The Company has fixed Thursday, September 11, 2025 as the "Record Date" for determining entitlement of Members to final dividend for the financial year ended March 31, 2025, if approved at the AGM.
9. The Final dividend of Rs. 5/- per share i.e. at the rate of 100% on face value of Rs. 5/- each for the year ended March 31, 2025, as recommended by the Board of Directors, if approved at the AGM, will be paid subject to deduction of tax at source ('TDS') on or from September 22, 2025 as under:
 - (i) To all Beneficial Owners in respect of shares held in dematerialized form as per the data as may be made available by the National Securities Depository Limited ("NSDL") and the Central Depository Services (India) Limited ("CDSL"), collectively "Depositories", as of end of day on Thursday, September 11, 2025;
 - (ii) To all Members in respect of shares held in physical form after giving effect to valid transmission or transposition requests lodged with the Company as of the close of business hours on Thursday, September 11, 2025.
10. Pursuant to the changes introduced to the Income Tax Act, 1961 by the Finance Act 2020, with effect from April 1, 2020, dividends paid or distributed by a Company are taxable in the hands of members, and the Company is required to deduct tax at source (TDS) at the prescribed rates on the dividend paid to its shareholders. The TDS rate would vary depending on the residential status of the shareholder and the documents submitted by them and accepted by the Company. In order to enable us to determine the applicable TDS rate, members are

requested to submit the relevant documents on or before Thursday, September 11, 2025. A copy of the detailed communication regarding TDS on dividend, which was previously sent to the Shareholders by e-mail is available at the weblink - <https://www.datamatics.com/about-us/investor-relations/financials>. Members are requested to refer to the same for further details. Kindly note that no documents in respect of TDS would be accepted from members after Thursday, September 11, 2025

11. **To support the 'Green Initiative', Members who have not yet registered their email addresses are requested to register the same with their DPs in case the shares are held by them in electronic form and with DBSL in case the shares are held by them in physical form.**
12. Members are requested to intimate changes, if any, pertaining to their name, postal address, email address, telephone/ mobile numbers, Permanent Account Number (PAN), mandates, nominations, power of attorney, bank details such as, name of the bank and branch details, bank account number, MICR code, IFSC code, etc., to their DPs in case the shares are held by them in electronic form and to DBSL in case the shares are held by them in physical form.
13. SEBI has mandated the submission of Permanent Account Number (PAN) by every participant in the securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their depository participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to DBSL.
14. As per the provisions of Section 72 of the Act, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. Members are requested to submit the said details to their DP in case the shares are held by them in electronic form and to DBSL in case the shares are held in physical form.
15. Members holding shares in physical form, in identical order of names, in more than one folio are requested to send to the Company or DBSL, the details of such folios together with the share certificates for consolidating their holdings in one folio. A consolidated share certificate will be issued to such Members after making requisite changes.
16. In the case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote at the AGM.
17. Shareholders are requested to forward their queries on the annual report for the financial year ended March 31, 2025 to the Company at investors@datamatics.com on or before Thursday, September 11, 2025.
18. Members are requested to note that, dividends if not encashed for a consecutive period of 7 years from the date of transfer to Unpaid Dividend Account of the Company, are liable to be transferred to the Investor Education and Protection Fund ("IEPF"). The shares in respect of such unclaimed dividends are also liable to be transferred to the demat account of the IEPF Authority.

In view of this, Members are requested to claim their dividends from the Company, within the stipulated timeline. The Members, whose unclaimed dividends/ shares have been transferred to IEPF, may claim the same by making an online application to the IEPF Authority in web Form No. IEPF-5 available on www.mca.gov.in. Members' attention is particularly drawn to the "Corporate Governance" section with respect to unclaimed and unpaid dividends.

19. SEBI vide Circular Nos. SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/131/ dated July 31, 2023, and SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/135 dated August 04, 2023, read with Master Circular No. SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/145 dated July 31, 2023 (updated as on August 11, 2023), has established as common Online Dispute Resolution Portal ("ODR Portal") for resolution of disputes arising in the Indian Securities Market.

Explanatory Statement

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 AND REGULATION 36(5) OF THE SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015

Item No. 4

In accordance with the provisions of Section 204 and other applicable provisions of the Companies Act, 2013 ("the Act"), read with Rule 9 of the Companies (Appointment & Remuneration of Managerial Personnel) Rules, 2014 (including any statutory modification(s) or re-enactment(s) thereof, for the time being in force), every listed company and certain other prescribed categories of companies are required to annex a Secretarial Audit Report, issued by a Practicing Company Secretary, to their Board's report, prepared under Section 134(3) of the Act.

Furthermore, pursuant to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, Third Amendment Regulations dated December 12, 2024 and Regulation 24A(1) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, every listed entity shall undertake Secretarial Audit by a Secretarial Auditor who shall be a Peer Reviewed Company Secretary. The Company may appoint an individual as Secretarial Auditor for not more than one term of five consecutive years or a Secretarial Audit firm as Secretarial Auditor for not more than two terms of five consecutive years.

The Board of Directors of the Company at its meeting held on May 15, 2025 considering the past performance, understanding of the Company's operations, systems and processes, and experience and expertise, has approved the appointment of M/s. Tushar Shridharani & Associates LLP, Practicing Company Secretary (Firm Registration Number L2025MH018100) as the Secretarial Auditor of the Company to hold office for the first term of five consecutive years i.e. from the financial year 2025-26 till the financial year 2029-30.

The said firm holds the 'Peer Review' certificate issued by the Institute of Company Secretaries of India and have further confirmed that they have not incurred any disqualification and are eligible to be appointed as Secretarial Auditors in terms of Regulation 24A of the SEBI Listing Regulations.

The proposed remuneration payable to M/s. Tushar Shridharani & Associates LLP for conducting the secretarial audit for FY 2025-26 is Rs. 1,50,000 (Rupees One Lakh Fifty Thousand only), plus applicable taxes (in addition to the out-of-pocket expenses on actuals as may be incurred in the discharge of their functions). The Board of Directors will decide the remuneration payable for the subsequent years of their proposed term of 5 consecutive years as mentioned above, and also the terms and conditions of such appointment, as may be mutually agreed with the said

secretarial auditors. Additionally, the Company would also from time-to-time avail certification or other permitted services from M/s. Tushar Shridharani & Associates LLP as may be required, that the secretarial auditor can render under the applicable law, for which they shall be remunerated separately as per the approval of the Board of Directors and as mutually agreed with M/s. Tushar Shridharani & Associates LLP.

The brief profile of M/s. Tushar Shridharani & Associates LLP is as under:

M/s. Tushar Shridharani, a proprietary firm of Practicing Company Secretaries, was founded in 1994 by CS Tushar Shridharani. In order to corporatize specific areas of practice and pool professional resources, **M/s. Tushar Shridharani & Associates LLP** was incorporated on February 13, 2025. Mr. Tushar Shridharani serves as the Designated Partner of the LLP.

The firm specializes in company secretarial and paralegal services, with a strong focus on corporate laws, including company law, securities law, corporate compliance management, foreign direct and outbound investments, external commercial borrowings, downstream investments, secretarial audits, and corporate legal due diligence. Its clientele comprises several prominent Indian companies, subsidiaries of multinational corporations, leading venture capital funds in India, as well as reputed Chartered Accountants and law firms.

Your Directors recommend the resolutions set out at item no. 4 to be passed as an ordinary resolution by the members.

None of the Promoter, Directors, Key Managerial Personnel (KMP) of the Company and their relatives are concerned or interested financially or otherwise in the resolution as set out at item no. 4.

FUTURE GROWTH STRATEGY

As market opportunities expand, Datamatics remains committed to fostering innovation and deepening customer engagement. By partnering closely with clients, Datamatics aims to support them in their journey to go 'Deep in Digital' and help them navigate the next phase of growth.

- **AI-First Approach.** Artificial intelligence is a key area of focus for Datamatics. The company has set up a Center of Excellence to support customers in exploring and scaling AI-led initiatives. Our approach is centered on building practical, use case-driven AI solutions that can bring efficiency and value to business operations.
- **Strengthening Hyperscaler Capabilities.** Datamatics is investing in building competencies across major hyperscaler platforms such as Microsoft, Google, Salesforce. The acquisition of Dextara Digital, a Salesforce-focused company, is in line with this strategy and enhances our ability to serve a growing customer base in this ecosystem.
- **Focus on the US, European markets.** The US and Europe continue to be key markets for Datamatics. With established regional teams and focused go-to-market initiatives, the company aims to further strengthen its presence and deepen customer relationships in these regions.
- **Industry-Focused Solutions.** Datamatics is aligning its solutions to better serve industries such as Banking, Financial Services, Insurance (BFSI), Manufacturing, and Logistics. By combining domain knowledge with technology expertise, we are helping organizations in these sectors address specific business challenges and improve operational efficiency.
- **Talent Development and Innovation.** To support future growth, Datamatics will continue to invest in people, processes, and technology. This includes upskilling programs, expanding global talent, and enhancing digital capabilities to meet evolving customer needs. The company remains focused on delivering long-term value through innovation and strong customer partnerships.

KEY BUSINESS DRIVERS FOR DATAMATICS IN FY 2024-25

- **AI Innovations and Strategic Collaborations:** Looking ahead to FY26, Datamatics is excited by the transformative potential of artificial intelligence. We have collaborated with global technology leaders like Microsoft and Google to build small language models and copilots tailored for process automation, empowering enterprises to accelerate their digital transformation journeys. We are also proud to be among the world's first companies to achieve ISO 42001:2023 certification for Artificial Intelligence Management Systems. We will continue to innovate in the AI space and currently working on the development of intelligent AI Agents designed to deliver

contextual and autonomous support across business functions.

- **Deepening Customer Relationships:** With a diverse customer base spanning multiple industries, including several Fortune 500 companies, Datamatics is focused on strengthening existing relationships and expanding within key accounts. Our integrated sales and marketing approach is driving targeted account management, cross-selling, and upselling to unlock greater value for our clients.
- **Strengthening Our Global Leadership:** Our leadership bench continues to grow stronger with the addition of seasoned professionals who bring deep expertise in digital transformation. We have also enhanced our mid-management and regional sales teams in the USA and UK to better support global growth and execution excellence. We have augmented our board with the induction of Dr. Avnish Kshatriya, Mrs. Kanika Mittal, and Mr. Himanshu Verma. We are confident that their extensive industry expertise will contribute significantly to our continued success.
- **Advancing Our Products & Platforms:** Datamatics remains committed to building and evolving proprietary digital technology solutions. Our flagship Intelligent Automation Platform (IAP) integrates TruBot (RPA), TruCap+ (IDP), TruDiscovery (AI content assistant) and AI/ML models to automate a wide range of business tasks, including the processing of unstructured and semi-structured data. Additionally, FINATO is enabling finance transformation with AI, while TruBI empowers users with advanced business intelligence and data visualization.

We've also embedded Generative AI into our automation suite, which is now live with more than 30 customers. Our products—TruBot, TruCap+, FINATO, and TruBI—are available on Microsoft Azure Marketplace, expanding their accessibility to a broader global audience.

- **Expanding Our Global Footprint:** Datamatics is accelerating its brand presence across the US and Europe through strategic marketing investments. In FY25, we amplified our visibility by participating in marquee events, hosting focused customer engagements, and running high-impact digital campaigns. We also celebrated the New Year with a memorable event for our customers in Mumbai, strengthening relationships and reinforcing our commitment to customer delight.

INTEGRATION OF AI INTO OUR OPERATIONS, SERVICES & PRODUCTS:

- Datamatics has continued to demonstrate its commitment to innovation and operational excellence within the realm of Digital Operations, specifically focusing on our Finance & Accounting (F&A) practice. This report outlines our strategic initiatives, highlights significant milestones, and presents future growth strategies to secure our market leadership position.

- Our strategic initiatives are rooted in an AI-first approach, reflecting significant investments in artificial intelligence, particularly within the Procure-to-Pay (P2P) and Order-to-Cash (O2C) process areas. The F&A – FINATO platform distinguishes itself with robust capabilities, leveraging advanced AI-driven analytics to automate routine tasks, enhance decision-making accuracy, and provide real-time insights. The autonomous finance platform reduces manual intervention, mitigates errors, and ensures seamless financial workflows, resulting in improved compliance, optimized cash flow, and significant cost savings for our clients. Consequently, FINATO solidifies its role as a leader in AI-enabled F&A solutions.
 - **AI-driven Collections:** The Collections AI prioritizes worklists and incorporates a BOT calling agent, resulting in a 50-70% increase in productivity within the collection process. This technology ensures that 100% of calls are effective, providing complete visibility into customer interactions and transforming each conversation into actionable insights.
 - **Dynamic Credit Assessment:** Our runtime dynamic credit assessment capabilities significantly reduce credit-related risks by up to 90%. These capabilities leverage AI-generated credit scores and integrate in real-time with financial data sources and credit rating agencies such as S&P, Fitch, and D&B.
 - The potential for our O2C solutions in North America and Europe is vast, with an estimated market size of USD 9.2 billion. We focus on leveraging our partnership with Google to enhance our technological offerings in these regions.
 - Datamatics sets itself apart by offering a platform that efficiently manages end-to-end F&A processes, incorporating advanced features like AI-driven analytics. This approach reduces the total requirement for working capital loans and improves our customers' cash flow.
- Datamatics' F&A practice has been widely recognized for its excellence:
- ****Gartner Magic Quadrant**:** Positioned within this prestigious quadrant.
 - ****IDC**:** Rated as a major player in "Worldwide Enterprise Analytics and AI Business Process Services for Finance and Accounting, 2024"
 - ****Everest and ISG**:** Recognized as a product challenger and Rising Star in F&A category.

As we move forward, our strategic focus on AI and digital transformation will continue to drive growth and innovation within Datamatics' Finance & Accounting practice. We are poised to deliver enhanced value to our Customers and solidify our market leadership in the future.

PATENT

Datamatics has been granted a patent for its AI-powered Intelligent Document Processing software TruCap+ i.e. **'SYSTEM AND METHOD OF AUTOMATED DOCUMENT PROCESSING FOR STRUCTURED, SEMI-STRUCTURED AND UNSTRUCTURED DOCUMENTS'**.

Datamatics' Intelligent Document Processing (IDP) journey began nearly a decade ago. Over the years, the team has diligently integrated new technologies and features, establishing it as a leading solution in the IDP space – TruCap+.

Datamatics TruCap+ automates data extraction from complex structured, semi-structured and unstructured documents. With AI at the core, it enables template-free approach, delivers a greater straight-through processing (STP) with a high accuracy. TruCap+ offers an intuitive UI to deliver business users an efficiency driven solution. Its cloud-based architecture allows TruCap+ to scale on demand while meeting enterprise-grade standards for security, reliability, and integration.

Recently Datamatics further enhanced TruCap+ with GenAI capabilities. It enables customers to leverage the power of GenAI for processing complex and unstructured documents such as legal documents, financial statements, medical images, drawings, graphs, emails, etc. Additionally, it allows customers to query and analyze extracted data using natural language querying feature.

QUALITY

Quality is the foundation on which the Datamatics' processes are built. It is a non-negotiable element of the way a process, service and product is conceived, designed and delivered end to end. A relentless focus on Customer delight, continuous process improvements and lean and efficient processes have been the hallmarks of the company for years. This is what provides us an edge over our competitors, far and wide. A look at the average duration a customer has been

happily associated with Datamatics is an eloquent testimony to our untiring commitment to quality. Quality at Datamatics is a legacy that is being ably carried forward by the present team as well. The industry has also been recognizing the company's performance. This year too, your company and its personnel featured prominently at various platforms by winning prestigious awards.

Your Company is the first and the only I.T. Company to have won the "International Asia Pacific Award" for Quality in services sector in the year 2007. The Award was won against competition from hundreds of companies from 38 countries spread across the world, including the US, Japan, Australia, New Zealand, Russia, Canada, China, Israel, South Korea, Peru and Mexico. Your Company also won the prestigious "IMC IT Award for Quality" in January 2014. We have won the Global Quality Challenge award of one of the fortune 100 organizations for the ninth time.

Further significant initiatives of the Company towards quality are:

1) **Certifications:**

The Company's quality management systems (QMS) that forms the backbone of all the processes and the way day-to-day operations are carried out is a very comprehensive and robust standard that draws from a host of international standards and benchmarks. This includes ISO 9001:2015, SEI CMMI, ITIL, Agile, ISO 20000 and so on. Your Company has been recommended assessment at the highest maturity level, Level 5 for CMMI Ver 2.0 SVC model. This covers almost all the locations and services that we cater to. The QMS has also been successfully assessed and certified for ISO 9001:2015. During all the surveillance periodic assessment audits, there has been no major non-conformity observed. All the new centers that we added in the financial year have also been successfully assessed and certified to the above international standards. Keeping in line with the focus on Artificial Intelligence, we are in the advanced stages of getting our Artificial Intelligence Management Systems (AIMS) to ISO 42001 standard. We were among the first few organizations in the world to get this certification.

In alignment with our environmental and sustainability commitments, we have achieved accreditation for our management systems under 14001, the internationally recognized standard for Environmental Management Systems. Additionally, we have received certification under ISO 45001, the global standard for Occupational Health and Safety Management Systems (OHSMS).

As you are aware, with the growing complexity of the digital economy the threat on the information security and data also increases in terms of complexity and impact. Your company is fully aware of this challenge and we constantly keep upgrading our information security management systems (ISMS). Our operations and ISMS have been successfully assessed and are compliant to ISO 27001:2013, SSAE 16 SOC 1 and SOC2 and HIPAA requirements. As you would be aware, these standards are extremely important for Financial, Insurance and Healthcare industries. The Organization is in the process of upgrading ISO27001:2013 to the latest 2022

version. The Livonia and Philippines operations have also been successfully assessed and certified to PCI-DSS requirements. The IPR products, TruCap+ and TruBot have also been successfully assessed for SOC2+ requirements. The company got certified to the requirements of CyberEssentials (CE) and CyberEssentials Plus (CE+). CE and CE+ are UK Government-backed certification scheme that helps keep an organisation's and your customers' data safe from cyber attacks. It provides a more comprehensive demonstration of an organization's security controls against common cyber threats. These certifications go along way in establishing credentials of our cyber security preparedness especially for the European zone.

Our commitment to ensure a robust information security management system for our customers has been bolstered by these certifications. We have implemented Security Information and Event Management (SIEM) solution as well which will further strengthen the Information security management. During the COVID 19 lockdown and remote working methodology, there has been a palpable increase in the threat to information and data security. Pre-empting such threats we have secured our networks further, addressed end point vulnerabilities and implemented mechanisms and tools to address advanced persistent threats (APTs) from all kind of malware attacks. The company recently implemented EDR (End point Detection and Response) and MDR (Manage Detection and Response) solutions to further enhance our preparedness to any malware threats. We also implemented (MFA) Multiple Factor Authentication solutions to further enhance access and security controls around sensitive data and information being processed by the company. Vulnerability and penetration tests (VA/PT) are carried out regularly through internal as well as external agencies to make sure that our networks and servers are robust to any malicious attacks. We have tied up with an Industry Leader in the space of Cybersecurity management systems Upguard, to monitor and manage our security robustness. We are proud to share that the current score of 843 / 950 and a rating of A is well above the average score of 668 for the industry. There is an increased focus on employee awareness around information security as well for proactive and preventive measures to thwart any malicious attack. There is a conscious thrust on risk management as an organization strategy and the risks and mitigation plans are reviewed regularly at all pertinent levels.

A lot of thrust has also been put in enhancing the overall project management skills of our project managers through formal PMP certification from PMI, USA.

GDPR REGULATIONS AND DATA PRIVACY ACT

As you would be aware, General Data Protection Regulations (GDPR), the most important regulation around data privacy in the European Union region came into force a couple of years back. All our contracts with the customers in the EU region have been revised to incorporate the requirements of GDPR. Our processes have been further strengthened around the GDPR requirements. A dedicated Data Protection Officer (DPO) has been appointed to address issues, if any, raised around GDPR compliance. All the relevant employees and

management have been trained on GDPR principles and requirements. GDPR awareness is an integral part of the employee induction program.

We are also gearing our processes to address all the requirements of the Data Privacy Act of India. We plan to get assessed and certified to Data Privacy standard, ISO 27701.

2) Customer Satisfaction Tracking:

As you're aware, your Company conducts customer satisfaction surveys at the end of every major milestone to assess customer's perception of our services. The wholly automated survey asks the customers their feedback on a range of parameters that measure their near and long term perception about the Company.

We feel proud to share with you that we continue a stellar performance on this count. Your company scored 5.3 on overall satisfaction rating on a scale of 1-6, 1 being the lowest and 6 being the highest. Another highlight of this survey has been that 85% of the respondents have rated us in the top 2 boxes of the rating i.e. extremely satisfied and Delighted. 64 customers have rated us as delighted on all the parameters. 61% of respondents expressed "Insist" and "Prefer" to work with Datamatics on Quality of Engagement questionnaire. We believe that in the modern environment Customer Experience i.e. the impression that our customers make during their interaction with us, is extremely critical. Customer Experience, apart from the feedback on the hard deliverables, is an integral part of these surveys. We are glad to share that the results are extremely positive on this front.

Apart from this, the more frequent and real time Customer Feedback Capture mechanism that captures feedback through other formal and informal channels also reports an improving trend in the customer sentiment towards our processes and performance.

3) Continuous Improvement - Lean Six Sigma:

The Company has a mature and well-entrenched continuous improvement program. This program is based on the principles of Lean, Six Sigma and Kaizen. The program focuses on making our processes more efficient, productive, accurate and cost effective. The program continues to deliver significant benefits to the organization with improvements in productivity, efficiency, accuracy and customer satisfaction. Overall 493 Lean Six Sigma projects and 2135 Kaizens were successfully completed since 2007.

The Company has about 30 Six Sigma Green Belt and 60 Six Sigma White Belt certified professionals along with 6 Six Sigma Black Belt and 1 Six Sigma Master Black Belt certified professionals.

HUMAN RESOURCE MANAGEMENT

At Datamatics, the journey to build a diverse workforce is integral to our HR philosophy. We are dedicated to fostering an engaging and inclusive workplace that attracts, retains, nurtures, and empowers talent to reach their full potential. As of March 31, 2025, Datamatics employs 15,660 people worldwide.

Datamatics continues to enthruse talent with high-impact roles, competitive and performance-driven pay with an emphasis on long-term incentives, a wealth of learning opportunities, a commitment to enhancing diversity, equity & inclusion, an employee-centric climate, well-being-focused infrastructure, and support that promotes fellowship and commitment amongst employees.

Our Global Annual Climate Survey was conducted with 86% participation, with the Dextara Datamatics team joining in for the first time with a customized survey. Datamatics was recognized as an 'Employee Friendly' organization for the fifth year in a row, and positive strides continue to be observed in 'Total Rewards'. Our 'AI-first' mindset strategy has penetrated further into the minds of Datamatics with awareness of Employee well-being and mental health initiatives.

Our consistent efforts were recognized on diverse platforms globally, enhancing our employer brand and attracting talent:

• In India,

- ☐ Datamatics won the prestigious UN Women's India WEPs award in Transparency & Reporting.
- ☐ Recognized as Most Preferred Workplaces in IT and ITES for 2024-25, by Marksmen Daily.
- ☐ Won the 'Most Humane Organization Award' by the Market Research Society of India (MRSI) at the Golden Key Awards.
- ☐ Conferred with the "Maharashtra Best Employer Brand Awards 2024", third time in a row.

• In the Philippines,

- ☐ Healthcare Information Management Association of the Philippines (HIMAP) – Pamayanan Award for Community Development.

TALENT ACQUISITION:

FY 2024-25 witnessed a slowdown in the talent market compared to FY 23-24; however, a notable trend of candidates holding offers remains. There is a reduction in the hiring numbers as compared to FY 2023-24 due to the market slowdown. Most of the competitors equally witnessed a decrease in the IT hiring numbers. The Talent Acquisition (TA) Team underwent multiple AI-ChatGPT training programs and has effectively used AI-ChatGPT for market research, competitor mapping, JD creation, and search strings. The TA team has effectively secured joining numbers, met SLAs, and maintained a good offer-to-joining ratio.

Hiring gig workers remains constant compared to the previous year. The US market is witnessing uncertainty due to changing global circumstances. The team created business feasibility reports for various countries, evaluating key factors such as educational infrastructure, talent availability, wage competitiveness, and competitor presence.

The team delivered on the strategies adopted and planned initiatives to meet the defined goals. On Sourcing, the team continued to prioritize connecting with maximum candidates

through various sourcing channels, both traditional and emerging. Mass interview drives were conducted as needed by the businesses. The candidate engagement process was effectively executed.

New background verification partners were introduced for India, the Middle East, and the UK/EU. The team has regularly conducted desk research related to Datamatics offerings and market intelligence regarding competitors for all businesses. Regular engagement was conducted with the business teams to understand the pulse of the business. The year also witnessed the hiring and onboarding of senior strategic hires. The team focused firmly on cost-saving initiatives by prioritizing direct hiring and minimizing the use of vendors for key and strategic positions. The team effectively used cost-effective hiring models.

The team has stayed ahead of the curve with eminent industry practices relevant for AI-powered resume sourcing, assessments, interviewing, background verification, and candidate engagement. Innovation has been the guiding principle towards relentless improvement, and the team has employed avant-garde strategies like brand-driven job posts, video interviewing, passive candidate engagement, research, social media usage, industry intelligence, and effective referral programs.

LEARNING & DEVELOPMENT:

Empowering Growth and Enabling Excellence. At Datamatics, our commitment to nurturing a global learning ecosystem continues to thrive, thanks to the steadfast support of our learning Mascot, Datamatics DAT (Develop–Aspire–Transform). Through close collaboration with our Lines of Business (LOBs), DAT drives learning excellence and innovation, ensuring our workforce remains ahead of the curve in technological capabilities and industry trends.

Key Learning & Development Initiatives:

storytelling techniques to enhance leadership presence, communication, and engagement.

- **Trainer Felicitation:** Recognized and celebrated 56 internal facilitators and SMEs for their invaluable contributions to cultivating a strong learning culture across the organization.

Digital Learning & Compliance Achievements:

- **Elevate LMS Expansion:** Our Learning Management System, Elevate, now houses 220+ learning modules, covering cutting-edge technologies and trending domains.
- **Partnerships & Certifications:** Strengthened collaborations with Microsoft and other industry leaders have enabled more employees to gain certifications and upgrade critical skillsets.
- **Compliance & Audit Excellence**
 - Successfully completed ISO 9001:2015 PA2 Audits and received ISO 42001:2023 Certification (AI Management Systems)—placing Datamatics among a select few globally to attain this recognition.
 - ISMS STQC Surveillance Audits and IQA for HR (L&D) were completed with zero non-conformities, reaffirming our commitment to quality and governance.

Impact Snapshot:

- The overall learning effort by employees increased by 6%, as reflected in the rise in total learning hours, emphasising our dedication to continuous employee development.
- We recorded 4,56,450 person-hours of learning (equivalent to 57,056 training days), averaging 8.9 days per employee.

Our learning initiatives achieved an average feedback rating of **4.2/5**, reflecting our programs' high quality and relevance.

TALENT MANAGEMENT:

Throughout the year, the HR Centre of Excellence focused on assessing and developing the capabilities of identified Key Talent, maintaining a performance-driven and appreciation-focused Culture, celebrating Diversity, Equity, and Inclusion (DEI) in the workplace, Employer Branding, socially conscious initiatives, and leveraging technology (including creating in-house modules/ automation and GenAI capabilities).

- **Maintaining a performance-driven culture focused on professional development:**
 - As the next step in the Senior Leadership Talent Development Program (SLTDP), select leaders also underwent an Executive Coaching journey to hone their skills further with a pre- and post-journey developmental evaluation.
 - Continued competency-based focus with key talent across functions undergoing cohort-based Assessment/ Development Centers, followed by 1-1 Coach-aided reflection sessions.

- With due process rigor followed in the Promotion Board process, 96% of key talent got promoted to the next grade at a mid-senior level.

- The Datamatics Mentoring Program (DMP) third season launched as the Support Squad for identified Mentees.

- Our Assessment partner-based online platform helped identify, assess, develop, and promote talent across the employee life cycle.

- Through our online peer-to-peer recognition platform, '**Appreciate with Badges**', globally, more than 3500 unique Datamaticians were appreciated with 10,000+ badges.

DEI:

- **The fifth anniversary milestone of the Datamatics Diversity Charter (DDC)** was celebrated globally, with our CEO sharing his views on the strides made.

- '**HE for SHE**', a global virtual panel discussion, featured a compelling keynote address by our esteemed Chairman, Dr. Lalit Kanodia, four leaders from various geographies as panellists, and the CHRO as the moderator. The session, focused on the crucial role of male allies in helping women thrive in their careers, was attended by 1400+ Datamaticians.

- Launched '**Datamatics Women in Tech**', where we highlight inspiring women Datamaticians in tech/tech-enabled roles who share their career journey with us as in-house role models.

- '**Coffee, Cakes and Candid Chats**', conducted by the CHRO in the US and Nashik offices, encourages DEI principles in the workplace.

- **Focused (Wo)Mentoring sessions** conducted with international speakers, with 770+ unique women & allies joining the sessions during the year in a hybrid setup.

- **Our continued DEI efforts have been recognized globally** - Our Management team featured on the International Women's Day website as part of this year's #AccelerateAction campaign.

- **The Datamatics Fellowship Program** pilot was launched in Puducherry with Tagore Government College of Arts & Science, aligned with the talent needs of the Digital Operations business team.

Leveraging Technology & in-house expertise:

- An in-house multi-rater feedback module was created with automated reports.

- GenAI-powered analysis/ enhancements undertaken for applicable initiatives.

All efforts were aligned with a cost-conscious focus, enhanced employee experience, and improved productivity (in terms of efforts and time) in consultation with our expert business team.

- 'Mind Matters' campaign aligned with 'Datamatics Wheel of Wellbeing', shared credible information and resources, and destigmatized conversations.
- The team ensured strategic positive visibility and increased Datamatics' social presence across all existing channels, covering themes like DEI, CSR, and comprehensive Employee Wellbeing.

CORPORATE HR:

The role of the HR function has undergone significant evolution to adapt to the changing needs of an agile organization. Here are the highlights of the key initiatives undertaken during the year:

- Datamatics strengthened its commitments to the Apprenticeship Program. BOAT and NAPS programs promote basic and hands-on practical training at the workplace. In Maharashtra, we transitioned from the Employment Promotion Programme (EPP) to the newly introduced Chief Minister Apprenticeship Promotion Scheme (CMAPS). As of March 31, 2025, the company had 1074 youth apprentices trained across the in-demand industry skill sets. HR was pivotal in enabling an engaging environment to support the Blended (Work from Office, Work from Home, Work from Client Location, and Hybrid) workforce arrangement. Various surveys during the year enabled the functions to make appropriate people decisions in line with the pulse of the employees.
- The 30-60-90-day program, i.e., New Entrant Observation (NEO), continues to be a platform to understand and proactively address the new joiner's issues.
- Datamatics acquired Dextara, and the HR team extended full support to the Dextara team during the year.
- The focus and attention on Mental Health continued throughout the year, and eminent experts organized various talks.
- Our commitment to the Six Dimensions of Employee Wellbeing was further strengthened with the Launch of free Online Doctor consultation (24*7) through partnership with NIZ Care.
- The HR function continues to successfully resolve employees' queries by leveraging Ask HR's digital platform and online ticketing system.
- Monthly engagement activities were organized across locations through the HRBPs. The focus for the year was Financial and Health awareness among the employees.
- HRBPs had more than 13,000 unique one-to-one employee connect sessions during the year.
- Reward & Recognition (R&R) programs and connect programs like Euphoria continue to be leveraged for employee engagement and appreciation.

US and Overseas HR Operations:

The US HR team remains a strategic business partner for all business lines while maintaining compliance with all applicable US laws.

The US team continues to deliver a significant chunk of the business, specifically in our Tax area, CBLE (PSI) project, and GE Haer project. The USHR team supports talent acquisition, onboarding, payroll and benefits, retention, and annual US audits. Under compliance, policies were reviewed, and improvements were implemented for more cost-effective yet employee-friendly vacation and sick leave payouts. USHR supports all project-specific groups with compensation guidelines to improve billable rates and ensure better profit margins. USHR continues to operate in a hybrid workforce model, working three days a week in the office.

Philippines Human Resource Operations:

Strategic HR Execution & Employee Value Proposition- Our continued commitment to the Employee Value Proposition has led to significant employee experience and retention outcome, demonstrating tangible results from our refined onboarding, employee lifecycle, and retention strategies. Engagement programs, policy enhancements, and continued alignment with the employee well-being initiatives drove these improvements.

Cost Optimization & Recruitment Efficiency - We achieved notable cost efficiency this year:

- 30% savings in employee engagement expenses without compromising quality.
- Cost per hire reduced by more than 70% with all positions, including volume roles, sourced internally.
- 100% on-time hiring for all ramps and backfills, including expansion at the Cebu site.

HR Process & Policy Development- To improve functional effectiveness, the following enhancements were implemented:

- **Policy Updates:** Leave of Absence, Exit Interview, Performance Improvement Plan, Meals & Transportation, Skills Allowance.
- **System Enhancements:** Upgraded Performance Appraisal tool and centralized HR FAQs.

These initiatives streamlined operations, improved compliance, and enhanced employee experience.

Organizational Effectiveness & Engagement- The 2024 Climate Survey's strong results reflected our focus on employee engagement and workplace culture. The scores reflected a healthy and engaged workforce, with employees displaying growing loyalty, satisfaction, and pride in being part of the organization. Continuous programs such as the 'We Hear You' initiative, classroom visits, FGDs, ESAT surveys, and governance calls ensured regular feedback loops and responsive HR action.

Learning & Development Initiatives - We delivered high-impact programs through the FutureScape Learning Series, with Fit to Lead continuing to build leadership capacity across levels. The L&D strategy remains focused on skill-building and career growth.

Strategic Events & Talent Pipeline Development - We actively participated in key events and partnerships like:

- The 1st India-Philippines Job Fair, shortlisting hundreds of candidates.
- AI Innovation forums with the Indian Embassy.
- Collaborated with 20+ universities to support graduate career transitions.

The HR achievements in FY 2024–2025 reflect strategic focus, operational agility, and a deep commitment to employee and community growth. The team continues to strengthen Datamatics' employer position as a people-first organization delivering excellence on all fronts.

CORPORATE SOCIAL RESPONSIBILITY:

Datamatics continues to extend its commitment to corporate citizenship aligned with the United Nations Sustainable Development Goals (UNSDGs) through meaningful CSR activities that impact both individuals and communities in India and the Philippines. We stayed true to our emphasis on environment and employability, with an overarching focus on empowering marginalized groups with employee participation.

• In India:

- DATAMATICS NASHIK STANDS WITH OUR SOLDIERS ON ARMED FORCES FLAG DAY: Datamatics Nashik was proud to associate with Zilla Sainik Welfare Office in December 2024, like the past years. HR team met Assistant Commissioner, District Skill Development, Employment & Entrepreneurship Guidance Centre, Nashik, who mobilise funds for the Armed Forces Flag Day Fund for our soldiers. Since 1949, 7th December has been observed as the Armed Forces Flag Day throughout the country to honour the martyrs and the men in uniform who valiantly fought on our borders to safeguard the country. Our humble contribution plays a small part in rehabilitation of battle casualties, welfare of serving personnel and their families and resettlement and welfare of veterans and their families.
- **Enabling Employability in Tier 3 Cities**—We continue to support employment opportunities in Tier 3 cities in India, including flexible working options, especially for women and people with disabilities (PwD).
- **Sponsoring Education for students:**
 - **Dakshana Foundation** - Focusing on poverty alleviation through education by identifying brilliant but impoverished teenagers and providing intensive coaching for 1-2 years for the IIT and medical entrance exams.

■ **Tagore Govt. Arts & Science (Puducherry)** - Sponsoring Education for meritorious students.

- **Grow-Trees.com** - 1000 trees planted at Ramtek, Maharashtra, as part of the Trees for Tigers project. 150 individuals (the majority of whom were women from the Dulara village) gained employment over 80+ days. The plantation, upon maturing, can absorb ~20,000 kg of Carbon dioxide from the atmosphere and improve the soil quality of the region.

• In the Philippines:

- **E-Waste: Beyond the Street:** In celebration of Labor Day, we honored the invaluable service of 100 street sweepers and maintenance personnel from Barangay San Antonio, Pasig. We provided appreciation meals and care kits containing hygiene essentials and daily-use items, recognizing workers' hard work to uplift their morale by showing appreciation in a meaningful way.
- **Empowerment & Employability: Macrame Workshop:** In partnership with Project Pearls, this initiative supported the GROW (Giving Resources and Opportunities to Women) program and benefited 50 women from underprivileged communities, providing hands-on training in macrame-making techniques. Beyond skill development, the event fostered a strong sense of economic empowerment and creative expression.
- **Blood Donation Drive:** In partnership with the Philippine Red Cross, employees contributed to the national blood bank. The drive resulted in 34 successful donations, highlighting our shared commitment to health and life-saving causes.

Additionally,

- Datamaticians participated in the Tata Mumbai Marathon with pride in support of Annam. A cause dedicated to fostering health, hope, and nutrition among its beneficiaries in and around Mumbai.
- We also personally connected with our beneficiaries in person and virtually via the Ekam Foundation and Dakshana to extend our support. Team Datamatics (CSR/Business/Tech representatives) visited Dakshana's Pune Campus to interact with 300+ aspiring Engineers and share technology trends and success mantras.
- As a socially conscious and community-driven organization, we continue to welcome New Joiners with a canvas bag (as part of the ongoing Bonding Time sessions) in association with Little Angels School (Mumbai), a school for students with learning disabilities and special needs.
- Employees celebrated World Environment Day across India locations, planting 500+ tree saplings.
- Employees of Datamatics participated in the Helmet Rally in association with Traffic PS (North), Puducherry.

- An Awareness Program on 'Eliminating Gender-based Violence, Gender Equality and Upholding the Dignity of Women in Society', conducted in association with the Department of Women and Child Development, Government of Puducherry, had 130+ participants.

These initiatives reinforce our mission to make a lasting difference in the lives of those around us.

DATAMATICS' INSIDER TRADING POLICY FOR REGULATION OF TRADING BY INSIDERS

Datamatics' Compliance Team has formulated an Insider Trading Policy for Directors and employees in compliance with the SEBI (Prohibition of Insider Trading) Regulations, 2015.

The policy lays down guidelines, which advises the insiders on procedures to be followed and disclosures to be made, while dealing with the Company's securities. The policy clearly specifies, among other matters, that "Designated Persons" including Directors of the Company can trade in the Company's securities only when the 'Trading Window' is open. The trading window is closed during the time of declaration of financial results, dividend and other important events as mentioned in the policy.

STRUCTURED DIGITAL DATABASE FOR PREVENTION OF INSIDER TRADING PRACTICE

In accordance with the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015, ('SEBI PIT Regulations') as amended, the Company has customized a secure Insider Trading Compliance Tool (InsiderLens Software) which is maintained in house to prohibit insider trading activity. The Company has in place a structured digital database wherein details of designated persons along with connected persons with whom UPSI is shared on a need to know basis and for legitimate business purposes is maintained with time stamping and audit trails to ensure non-tampering of the database.

The Insider Trading Policy for Regulation of Trading by Insiders is available on our website at <https://www.datamatics.com/about-us/investor-relations/corporate-governance>

The Compliance Team conducts regular awareness initiatives by circulating emails to designated employees on the Company's Prohibition of Insider Trading Policy. Additionally, a comprehensive training module on the policy has been developed and made accessible to all employees via the Company's intranet portal, "Pulse." These measures have effectively mitigated the risk of insider trading violations. Consequently, during the financial year 2024-25, there were no reported instances of insider trading violations.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG) INITIATIVES

In today's rapidly evolving sustainability-driven global economy, where sustainability and responsible governance are essential, Datamatics recognizes that responsible governance and sustainable practices are fundamental to long-term success. Our commitment to Environmental, Social, and Governance (ESG) principles is at the core of our operations, guiding us in making a positive impact on society, the environment, and the communities we serve. Through dedicated initiatives, transparent processes, and a long-term value-driven approach, Datamatics actively works toward fostering sustainable growth while fulfilling its social and environmental responsibilities.

Following are key ESG Initiatives at Datamatics:

1. **Science-based Targets Setting:** Science-based targets are emission reduction goals aligned with climate science to limit global warming to 1.5°C or well below 2°C. Datamatics made commitment to setting up SBTi targets early this year, reinforcing our dedication to addressing climate change through measurable and science-driven actions.
 2. **ESG Committee:** The Company has established a structured ESG Committee comprising of cross-functional leadership from the Legal & Secretarial, HR, Finance departments. This committee is entrusted with overseeing and driving initiatives related to Environmental, Social, and Governance aspects across the organization.
 3. **Environmental Stewardship:** Datamatics is committed to advancing environmental sustainability through strategic initiatives that minimize its ecological footprint and promote long-term green practices.
- Datamatics prioritizes environmental sustainability as a key focus area, actively contributing to building a sustainable society and reducing its carbon footprint.
 - The company adheres to the Ministry of Environment and Forests (MoEF) e-Waste Management Rule 2016, supported by a comprehensive e-Waste management policy.

- Electricity conservation is emphasized across all office locations through specific initiatives aimed at reducing global warming impact like - replacing the lights with LEDs at all locations, optimized air conditioners with regular servicing, use of daylight wherever possible in offices etc.
- **Trees for Tiger project:** Datamatics proudly supports the "Trees for Tigers" project in Ramtek, Maharashtra, contributing to the restoration of tiger habitats in the Kanha-Pench corridor through the plantation of 1,000 trees. The Kanha-Pench corridor spans an impressive 16,000 sq km and serves as a vital ecological link between the Kanha and Pench Tiger Reserves. This impactful initiative not only addresses critical environmental challenges like habitat fragmentation and human-wildlife conflicts but also empowers local communities by generating employment and sustainable livelihoods. By enhancing ecological balance, improving groundwater levels, and fostering biodiversity, Datamatics is driving meaningful change for both wildlife conservation and community development. Additionally, the project contributes to **carbon sequestration, absorbing approximately 20,000 kgs of CO₂ annually**, showcasing Datamatics' commitment to a greener, sustainable future.
- Datamatics has implemented desktop power-saving software developed by Vigyanlabs, a semi-government technology organization focused on promoting green computing.

These initiatives collectively demonstrate Datamatics' commitment to practical steps in reducing its environmental impact and supporting sustainable business practices.

4. **Social Responsibility:** Datamatics demonstrates a strong commitment to social responsibility through a broad range of initiatives aimed at fostering sustainable communities and creating meaningful social impact. Key highlights of their social responsibility efforts include:
 - **Education & Skill Development:** Sponsored underprivileged students, supported IIT/medical coaching via Dakshana Foundation, and provided inclusive education tools for special needs children.
 - **Community Empowerment:** Created job opportunities in Tier 3 cities, enabled rural women's livelihoods in the Philippines, and transformed urban families' income through fishing boat donations.
 - **Healthcare & Nutrition:** Partnered with Annam and Ekam Foundations to deliver nutritional supplements and healthcare access to underserved groups.
 - **Environmental Sustainability:** Sponsored a water recycling plant and green campus initiatives, reducing groundwater usage and promoting biodiversity.

- **Sports Excellence & Infrastructure:** Supported 24 athletes under Olympic Gold Quest and renovated facilities for 10,000 students in the Philippines.
 - **Volunteerism & Employee Engagement:** Fostered inclusivity through eco-friendly gifts and engaged employees in road safety and community activities.
- 5. Corporate Governance:** Datamatics upholds strong corporate governance built on transparency, ethics, and accountability. Its governance framework ensures compliance, risk management, and strategic oversight, enabling sustainable growth and stakeholder trust through various initiatives as follows
- Robust policies covering Board evaluation, ethics, anti-bribery, whistleblower protection, stakeholder engagement, insider trading policy, Prevention of Sexual Harassment Policy, Equal Employment, Diversity & Inclusion Policy, Code of Conduct for Board and Senior Management Personnel, CSR policy, Sustainability Sourcing Policy, Whistleblower policy, Policy on material subsidiaries, Annual Performance Evaluation Policy, Board Diversity Policy, Related Party Transaction Policy and many others.
 - Balanced Board composition with annual performance evaluations of the Board, its committees, and directors.
 - Structured risk management processes to identify, mitigate, and manage business risks.
 - Generative AI policy to balance innovation with security and confidentiality.
 - Strong Code of Conduct promoting integrity, fairness, and zero tolerance for corruption.
 - Focus on diversity, inclusion, and skill diversity at leadership levels.
- 6. EcoVadis Assessment:** EcoVadis assessment evaluates a company's sustainability performance across four key themes: Environment, Labor & Human Rights, Ethics, and Sustainable Procurement. The assessment uses a structured methodology to review a company's sustainability management system based on three pillars: Policies, Actions, and Results (P-A-R). It focuses on 21 specific sustainability criteria aligned with international standards such as the UN Global Compact, ISO 26000, and GRI. The benefits of registering and undergoing EcoVadis assessment include improved transparency in the supply chain, enhanced credibility with global partners, risk management, and continuous improvement in sustainability performance.

Datamatics' registration with EcoVadis signifies its commitment to these high sustainability standards and its intent to benchmark and improve its ESG practices in line with global best practices.

- 7. Integration of Digital ESG analytics:** Adoption of cutting-edge solutions like Sprih, an AI-powered sustainability platform, enhances our reporting, monitoring, and progress on sustainability metrics.
- 8. Continuous ESG disclosures:** Datamatics publishes annual ESG performance reports in alignment with the SEBI BRSR framework, striving for greater accountability to all stakeholders.

Empowering Legal Operations with the New Contract Management System (CMS) Portal

Aligned with Datamatics' "DEEP IN DIGITAL" initiative, the Datamatics Legal team, with the help of the Tech team, has successfully launched a new online portal for contract reviews and management to address the ever-increasing contract requests with the aim of ensuring efficiency and effectiveness in the contract review and execution cycle. With the help of the CMS Portal, all contract requests are now addressed through a digitized platform. CMS Portal has also assisted in managing, tracking, and collaborating for all contract related requests and has significantly eased the process by automating it.

The smart features of the Datamatics Contract Management System encompass –

- a. a comprehensive audit trail ensuring transparency and accountability throughout processes
- b. compliance with the Company's Contract Management Policy.
- c. automated workflow for review and approvals by the stakeholders.
- d. efficient storage and archival of contracts, streamlining access and retrieval.
- e. user-friendly dashboard and detailed reports to provide valuable insights.
- f. system goes beyond by offering system-based alerts and email notifications, keeping users promptly informed of key updates.
- g. can search for any already executed contracts and agreements.
- h. sends out automated system alerts well in advance for agreements that are going to expire or are approaching expiry.

We are soon going to make the CMS Portal AI-enabled.

MODERN SLAVERY ACT STATEMENT

Modern Slavery Act 2015 ("Act") consolidates UK law on slavery and human trafficking. A key provision of the Act, which came into force in October 2015, requires certain businesses to ensure transparency within their supply chains

and to prepare an annual **Slavery and Human Trafficking Statement**. In particular, Section 54, titled "Transparency in Supply Chains", has a significant impact on the corporate sector.

As per Section 54 of Modern Slavery Act, 2015 a statement is required, which shall state the steps taken by an organization during the financial year to ensure that slavery or human trafficking is not taking place in its business or supply chain.

Business will have to comply with the reporting requirements laid out in the Act if:

- it is incorporated or a partnership;
- it "carries on a business, or part of a business" in the UK;
- its turnover or the turnover of a parent company and its subsidiaries is equal to or greater than £36 million per annum;
- it supplies goods or services.

Accordingly, in compliance with the Act, a Statement for FY 2024-25 was approved by the Board of Directors.

CAUTIONARY STATEMENT

Statements in this Report, particularly those which relate to Management Discussion & Analysis describing the Company's objectives, estimates and expectations may constitute "forward looking statements" within the meaning of the applicable laws and regulations. Actual results might differ materially from those expressed or implied in the

statements depending on the circumstances.

ACKNOWLEDGEMENTS

The Board of Directors place on record their appreciation of the assistance, guidance and support extended by all the Regulatory authorities including SEBI, Stock Exchanges, Ministry of Corporate Affairs, Registrar of Companies, Reserve Bank of India, the Depositories, Bankers and Financial Institutions, the Government at the Centre and States, as well as their respective Departments for their co-operation and continued support. The Company expresses its gratitude to the Customers for their trust and confidence in the Company.

In addition, your Directors also place on record their sincere appreciation of the commitment and hard work put in by the Registrar & Share Transfer Agents, all the suppliers, consultants, clients and employees of the Company.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED ON MARCH 31, 2025

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members – Datamatics Global Services Limited
Knowledge Centre,
Plot No. 58, Street No. 17, MIDC,
Andheri (East),
Mumbai – 400 093.

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Datamatics Global Services Limited ("the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2025 ("Audit Period") complied to the extent applicable with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company to the extent applicable for the Audit Period according to the provisions of:

- (i) The Companies Act, 2013 ("the Act") and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 and the rules made thereunder;
- (iii) The Securities and Exchange board of India (Depositories and Participants) Regulations, 2018;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992:
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;

(g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and

(h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018.

I have also examined compliance with the applicable regulations of the following:

(a) Secretarial Standards issued by The Institute of Company Secretaries of India;

(b) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the Audit Period, the Company complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards etc. mentioned above to the extent applicable subject to delay of publishing newspaper advertisement with respect to transfer of shares to IEPF pursuant to sub-rule 3(a) of Rule 6 of Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016.

During the Audit Period, no law was specifically applicable to the Company.

I further report that:

The Board of Directors of the Company is duly constituted with the proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and notes on agenda were sent in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

During the Audit Period, all decisions at Board Meetings and Committee Meetings were carried out unanimously.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period the company had no event or action which has a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc.

Subject: Certificate on implementation of "Datamatics Global Services Limited's Performance Based Employee Stock Option Plan 2022" in accordance with regulation 13 of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021.

Dear Sir / Madam,

In context of subject, I submit as follows:

1. Datamatics Global Services Limited ("**the Company**") has an Employee Stock Option Plan, 2022 named Datamatics Global Services Limited's Performance Based Employee Stock Option Plan 2022 ("**PSOP 2022**" or "**the Scheme**"), which has been approved by the members of the Company by way of a Postal Ballot passed on 14th March, 2022 in pursuance of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 ("**Regulations**").
2. As per regulation number 13 of the Regulations; the Board of Directors of every company that has passed a Resolution for the Performance Based Employee Stock Option Plan is required to place before the shareholders at each Annual General Meeting, a certificate from the Secretarial Auditor of the Company that its Performance Based Employee Stock Option Plan has been implemented in accordance with the Regulations and in accordance with the terms of the Resolutions passed by the company in the General Meeting.

Having above in regard, I have been invited by the Company to issue the above-mentioned certificate.

Management's Responsibility

3. The Management of the Company is responsible for adherence to the Regulations and the terms of the resolutions of the Company passed in the General Meeting and implementation of the Scheme in accordance with the Regulations.

Auditor's Responsibility

4. Pursuant to the Regulations, it is my responsibility to provide reasonable assurance that the Scheme has been implemented in accordance with the Regulations.
5. To issue this certificate, I have examined:
 - a) Datamatics Global Services Limited's Performance Based Employee Stock Option Plan.
 - b) The Register of ESOP maintained in pursuance of rule 10(a) of The Companies (Share Capital and Debentures) Rules, 2014, under cover of Form SH – 6 disclosing particulars of the options granted by the Company in pursuance of section 62(1)(b).
 - c) Such other information and documents which I considered necessary for the purpose of issuing this certificate.
6. I have conducted my verification in accordance with the guidance note on ICSI Auditing Standards issued by the Institute of Company Secretaries of India.

Opinion

7. Based on the examination carried out by me and the information and explanations provided to me, I certify, to the best of my knowledge and belief, that the Scheme has been implemented for the year ended March 31, 2025 in accordance with the requirements of the Regulations.

Restriction of use

8. This certificate has been issued to the Company for placing before the Company's Annual General Meeting for the year ended March 31, 2025 and should not be used for any other purpose without my prior consent.

27. Overview of the entity's material responsible business conduct issues

(Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format.)

S. No.	Material issue identified	Indicate whether risk (R) or opportunity (O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	GHG emissions and carbon emissions	R	In the IT and BPM sector, data centers and electronic devices are used. The operation of this equipment is an energy-intensive activity and generates significant direct and indirect greenhouse gas (GHG) emissions, including carbon dioxide and methane from fuel use. Uncontrolled pollutants, emissions and associated activities impose legal and environmental risks for the company.	Leveraging cloud and other Green IT technologies, implementing energy efficient lights helps us to reduce our carbon footprint.	Negative Implications

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
2	Energy management	R	Energy management can be a potential risk for various companies. In the context of an IT company, energy management risk can be significant due to the high energy consumption of data centres and other IT infrastructure. Similarly, IT companies may be vulnerable to disruptions in the energy supply chain, such as power outages or fuel shortages, which can impact the availability and reliability of their IT systems. Also many countries and regions have environmental regulations that impose restrictions on energy consumption and carbon emissions. Failure to comply with these regulations can result in fines and other penalties.	Our strategies include using green technologies such as cloud, to further reduce our environment footprint and impact along with usage and promotion of third-party renewable energy sources.	Negative Implications
3	Human Rights	R	Companies focusing on respecting human rights demonstrate their commitment to building sustainable and mutually beneficial relationships with those who are influenced or impacted by their operations, such as customers, communities, workers, and investors. This includes demonstrating that they care about the people whose lives they engage with.	Develop clear policies and guidelines that governs the human rights. Establishment of confidential reporting channel for the employees to report human rights concerns.	Negative Implications
4	Employee Engagement, Diversity & Inclusion	O	A company's high diversity and inclusion rate reflects employees' sense of belonging and fairness within the Company. Improving diversity and inclusion helps companies to support vulnerable groups resulting in community brand image creation for the company.	Our strategies include implementing policies to prevent discrimination, fostering a culture of respect and inclusivity, and promoting diversity in hiring practices. This enables us to bring many diverse ideas and cater to larger set of clients.	Positive Implications
5	Customer responsibility and Satisfaction	O	Customer satisfaction is a key indicator of success. A poor customer experience relationship can pose a risk of loss of existing customers or decrease in customer loyalty. Similarly, loss of customers and damage to reputation can lead to decline in sales and revenue.	Organization uses matrix and data to track customer satisfaction and identify area of improvement.	Positive Implications
6	Employee well-being and health	R	Employee wellbeing is one crucial risk for the company. BPM companies often deal with complex and high-volume workloads, leading to a high-stress work environment for employees. Jobs in IT and BPM require sitting for extended periods, leading to a sedentary lifestyle that can lead to various health problems and sometimes experience mental health issues such as anxiety, depression, and stress due to workload pressure	Employee wellness is a top priority of Datamatics. Some of our strategies include implementing safety protocols, providing access to healthcare resources, and promoting healthy lifestyles for all employees.	Negative Implications

7	Talent Attraction & Retention	O	Talent attraction and retention is a significant risk for BPM and IT companies due to the highly competitive nature of the industry and the demand for specialized skills. Similarly, BPM companies may experience high turnover rates due to factors such as job dissatisfaction, lack of career growth opportunities, and inadequate compensation and benefits.	Our strategies include providing employees with opportunities for professional development and education, as well as creating a diverse and inclusive workforce culture.	Positive Implications
8	Service quality and delivery	O	BPM companies can leverage service quality and delivery to gain a competitive edge in the industry, build customer loyalty, and increase revenue. BPM companies can optimize their processes to ensure efficient and effective delivery of services. This can include using automation, process mapping, and continuous improvement methodologies.	Our organization work on standardizing processes to ensure consistent quality and timely delivery of services. We focused on understanding the needs and expectation of our customer, aligning processes to deliver services that meet or exceed those expectations.	Positive Implications
9	Community Giving	O	Environmental policy, community health, and process safety have significant regulatory, operational, financial, and reputational ramifications for companies. Building strong relationships with communities can help companies to mitigate potential operational disruption, reduce regulatory risk, retain top employees, lower the risk of litigation expenses in the event of process safety incidents, and ensure a strong social license to operate. Process safety incidents jeopardise community health and safety, resulting in regulatory penalties, legal action, and mitigating expenses.	Our strategies include engaging in philanthropic initiatives, supporting local businesses, volunteering employee time and promoting economic development. Increasing community activity enables us to create future Datamatics first-class employees.	Positive Implications
10	Data Privacy & Cyber Security	R	Companies are assessed based on the amount of personal data they collect, their exposure to evolving or increasing privacy regulations, their vulnerability to potential data breaches, and their data protection systems	We have implemented a robust set of security measure and controls to protect against cyber threats and safeguard and protect sensitive data of Datamatics and our clients.	Negative Implications
11	Training and development	O	Training and development are essential to the success of any IT and BPM organization. Companies that invests in employee training and development can increase their competitiveness, improve their workforce's skills and knowledge, and promote a culture of continuous learning and development.	The Company offers various learning and training program to its employees. It helps employees to leverage on all the new technology courses & learnings. Datamatics partners with Future Skills Prime (FSP), a first of its kind government & Industry partnership to drive a national skilling ecosystem for digital technologies (Geo-India).	Positive Implications

12	Ethics and compliance	R	The key issue relevant to business ethics and management of business ethics issues such as fraud, executive misconduct, corrupt practices, money laundering, or anti-trust violations. Ethics violations can lead to police investigations, hefty fines, settlement costs, and damage to reputation.	Our intention and ambition are to operate ethical under all circumstances. Our strategies to mitigate include establishing a code of conduct, implementing compliance and ethics training programs, and holding employees accountable for ethical violations.	Negative Implications
13	Corporate governance	R	Businesses are assessed based on their performance across all key governance issues, which include ownership & control, Board pay, accounting, business ethics, and tax transparency. This topic examines the effect that a company's corporate governance and business ethics practices have on its shareholders and other investors.	Our strategies include implementing ethical and transparent business practices, establishing effective risk management strategies, and ensuring compliance with regulatory requirements.	Negative Implications

8. Details about projects related to reducing GHG emission.

a. Does the entity have any project related to reducing GHG emission?

Yes

b. If yes, then provide details.

Datamatics has undertaken several initiatives aimed at reducing greenhouse gas (GHG) emissions. In FY 2024-25, Datamatics sponsored the plantation of 1,000 trees under the Trees for Tigers project in Ramtek, Maharashtra, which is

estimated to sequester approximately 20,000 kgs of CO₂ annually while simultaneously restoring biodiversity and generating livelihood opportunities for local communities.

Beyond afforestation efforts, Datamatics is actively pursuing a structured decarbonization pathway:

- **Science-based targets:** The organization is in the process of setting science-based targets to align with global climate objectives, with a strong emphasis on transparent disclosures.
- **Renewable energy transition:** A phased transition to solar energy is currently underway to reduce dependence on conventional energy sources.
- **Resource efficiency:** Measures such as installation of motion-sensor lights and AC vents, optimized air conditioning systems with regular servicing, switching off idle computer systems, and maximizing use of daylight in office spaces have been implemented to reduce energy consumption.
- **Elimination of single-use plastics:** All office locations are being transitioned to become free from single-use plastics.
- **Employee engagement:** Awareness and sensitization programs are regularly conducted to encourage employees to adopt sustainable practices both at the workplace and in their personal lives.
- **Water stewardship:** The organization is committed to water conservation through the application of the 3R principle (Reduce, Reuse, Recycle).

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Datamatics has adopted comprehensive waste management practices designed to ensure the responsible handling of all waste produced on-site. This begins with meticulous segregation, enabling the proper management of various waste categories. Electronic waste is addressed specifically through partnerships with certified vendors who facilitate responsible recycling and disposal. Moreover, other types of office waste are systematically transferred to the local municipal authorities, where they undergo designated recycling, reuse, and recovery processes to ensure environmentally sound treatment. In terms of reducing the usage of hazardous and toxic chemicals in our products and processes, our company has developed a strategic approach focused on minimizing environmental impact. This strategy includes rigorous evaluation of chemical alternatives, prioritizing those with lower toxicity profiles.

Our practices are designed to mitigate risks associated with waste materials, emphasizing safe handling, storage, and disposal methods to protect both human health and the environment.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

Management Discussion and Analysis

Introduction

We are witnessing an unprecedented convergence of technological breakthroughs – from autonomous vehicles and humanoid robots to spacetechn, biotech, green energy, quantum computing, and artificial intelligence. These advancements are unfolding simultaneously, driving a new wave of technological revolution that is set to transform every aspect of our lives.

Artificial Intelligence is rapidly transforming industries by automating tasks, enabling data-driven decision-making, and enhancing customer experiences. With over five billion people expected to have AI access through their smartphones in the next three years, its role in shaping business strategy and operations is becoming increasingly central. As organizations navigate a fast-changing market landscape, AI's ability to simulate human reasoning is accelerating digital transformation, driving greater efficiency, agility, and responsiveness.

At Datamatics, Artificial Intelligence continues to be a strategic priority. We are developing innovative Agentic AI solutions designed to deliver measurable outcomes and long-term value for our customers. This year, we participated in the World Economic Forum at Davos, engaging with global leaders to share our AI vision. There is a strong and growing consensus across industries on AI's transformative potential, with a focus on creating real, impactful business results.

Datamatics is well-positioned to support enterprises with an AI-First approach by providing end-to-end digital solutions that help improve productivity, elevate customer experiences, and enhance competitiveness. We see strong growth opportunities in areas such as intelligent process automation, AI-powered analytics, digital experience management, and content digitization. To remain at the forefront of this transformation, we continue to expand our capabilities across Digital Technologies, Digital Operations, and Digital Experiences, investing in cutting-edge tools and best practices to help our clients go Deep in Digital.

A. Economic Environment

According to the IMF's World Economic Outlook, July 2025, global economic activity is expected to remain subdued amidst significant uncertainty. The global growth forecast for 2025 stands at 3% in 2025 and 3.1% in 2026, a downward revision from earlier expectations due to escalating trade tensions, rising tariffs, and tightening financial conditions. This growth rate remains well below the pre-pandemic average of 3.7%, reflecting the fragility of the recovery.

The United States, Datamatics' largest market, is expected to see a slowdown in growth from 2.8% in 2024 to 1.9% in 2025 and 2% in 2026. This deceleration is attributed to policy-induced uncertainty, trade disruptions, and softening consumer demand.

Europe is expected to decelerate from 0.9% in 2024 to 1% in 2025 and grow at 1.2% in 2026, reflecting a fragile recovery. Rising uncertainty and tariffs are key drivers of the subdued growth in 2025. Offsetting forces that support the modest pickup in 2026 include stronger consumption on the back of rising real wages. The United Kingdom is projected to be stable

at 1.1% in 2024 to 1.2% in 2025 and grow to 1.4% in 2026.

For India the growth is forecasted to decelerate from 6.5% in 2024 to 6.4% in 2025 and 2026, backed by strong domestic demand, ongoing digital initiatives, and a demographic dividend.

However, the global economy remains vulnerable to downside risks. These include prolonged trade disputes, volatile energy prices, limited fiscal buffers, and evolving geopolitical tensions. These challenges underline the need for businesses to remain agile, resilient, and innovation-focused.

B. Industry Review

Digital Technologies

- The global IT services market is expected to see a steady growth, with total spend projected to reach from US\$ 1.5 trillion in 2025 to US\$ 2 trillion by 2029, growing at a CAGR of 7.2%. Enterprise priorities include services such as enterprise application services, custom application development, cloud services, cybersecurity services, and data, analytics, and AI services.
- Datamatics is aligning with enterprise priorities through its AI-First strategy embedded across its solutions portfolio. The company has continued to strengthen its AI Centre of Excellence, delivering innovations such as KaiSDLC for software development lifecycle optimization and KaiVision for AI-powered video analytics. AI is also integrated across key platforms—TruBot for RPA, TruCap+ for IDP, and TruBI for data visualization—enhancing productivity, accuracy, and decision-making. Datamatics has also partnered with Microsoft and Google and developed small language models and copilots focusing on process automation to accelerate business transformation for organizations. Microsoft has recognized Datamatics as AI-First Movers. Datamatics is also one of the first companies globally certified for ISO 42001:2023 for Artificial Intelligence Management System.
- Datamatics is deepening its collaboration with hyperscalers like Microsoft, Google, and Salesforce. The acquisition of Dextara Digital has bolstered its Salesforce capabilities, and key products are now featured on the Microsoft Azure Marketplace, increasing their accessibility and enterprise adoption.

Digital Operations

- The global business process services market, including in-house and outsourced segments, is expected to grow to US\$ 2.1 trillion by 2029, at a CAGR of 2.5%. Within this space, Finance & Accounting Outsourcing (FAO) continues to gain traction and is expected to reach US\$ 20 billion by 2025.
- Datamatics' digital operations are powered by FINATO, an AI-powered finance transformation platform that enables automation across procure-to-pay, order-to-cash, and record-to-report processes. Datamatics continues its investments in FINATO. With growing enterprise demand for efficiency and compliance, Datamatics is well-positioned to capture market share through its intelligent automation suite.

- Datamatics is consistently featured in the global top 10 vendors for F&A services across all the leading analysts. Additionally, Google has recognised Datamatics as the 'Strategic partner for the back office of the future'.
- Lumina Datamatics is transforming content operations through AI-powered digital content strategies—streamlining workflows, enabling personalization, and enhancing user experience. Its acquisition of TNQTech, which operates in digital content for scientific journals gives it a technology platform and several patents in content enrichment. With this acquisition, Lumina Datamatics will increase its presence in the European market, and serve 9 of the 10 largest publishers worldwide, solidifying its position as a market leader in digital content.

Digital Experiences

- The global contact center market is expected to reach US\$ 225 billion by 2029, growing at a CAGR of 18%. In 2025, the industry continues its pivot to digital-first customer engagement, prioritizing cost efficiency and seamless omnichannel experiences. However, the rapid advancement of AI is expected to fundamentally disrupt traditional models, enabling AI systems to increasingly perform tasks once handled by human agents.
- Datamatics' Digital Experience offerings are built around its proprietary AI framework—SuperCX—which enables intelligent customer journey management, sentiment analysis, and personalized interventions. The company's multilingual delivery centers across the Philippines, India, and the USA, staffed by "Super Agents," ensure consistent and high-quality service delivery.
- Datamatics continues to deliver end-to-end experience transformation through services in lead generation, workforce management, CSAT optimization, and digital proctoring—contributing to stronger client loyalty and brand differentiation.

C. Business drivers

- **AI Innovations and Strategic Collaborations:** Looking ahead to FY26, Datamatics is excited by the transformative potential of artificial intelligence. We have collaborated with global technology leaders like Microsoft and Google to build small language models and copilots tailored for process automation, empowering enterprises to accelerate their digital transformation journeys. We are also proud to be among the world's first companies to achieve ISO 42001:2023 certification for Artificial Intelligence Management Systems. We will continue to innovate in the AI space and currently working on the development of intelligent AI Agents designed to deliver contextual and autonomous support across business functions.
- **Deepening Customer Relationships:** With a diverse customer base spanning multiple industries, including several Fortune 500 companies, Datamatics is focused on strengthening existing relationships and expanding within key accounts. Our integrated sales and marketing approach is driving targeted account management, cross-selling, and upselling to unlock greater value for our clients.
- **Strengthening Our Global Leadership:** Our leadership bench continues to grow stronger with the addition of seasoned professionals who bring deep expertise in digital transformation. We have also enhanced our mid-management and regional sales teams in the USA and UK to better support global growth and execution excellence. We have augmented our board with the induction of Dr. Avnish Kshatriya, Kanika Mittal, and Himanshu Verma as Independent Directors. We are confident that their extensive industry expertise will contribute significantly to our continued success.
- **Advancing Our Products & Platforms:** Datamatics remains committed to building and evolving proprietary digital technology solutions. Our flagship Intelligent Automation Platform (IAP) integrates TruBot (RPA), TruCap+ (IDP), TruDiscovery (AI content assistant) and AI/ML models to automate a wide range of business tasks, including the processing of unstructured and semi-structured data. Additionally, FINATO is enabling finance transformation with AI, while TruBI empowers users with advanced business intelligence and data visualization.

We've also embedded Generative AI into our automation suite, which is now live with more than 40 customers. Our products—TruBot, TruCap+, FINATO, and TruBI—are available on Microsoft Azure Marketplace, expanding their

accessibility to a broader global audience.

- **Expanding Our Global Footprint:** Datamatics is accelerating its brand presence across the US and Europe through strategic marketing investments. In FY25, we amplified our visibility by participating in marquee events, hosting focused customer engagements, and running high-impact digital campaigns. We also celebrated the New Year with a memorable event for our customers in Mumbai, strengthening relationships and reinforcing our commitment to customer delight.

Particulars	March 31, 2025	March 31, 2024	Change
Total equity	1356.41	1220.73	135.68

- ❖ The movement in retained earnings was on account of profit earned during the year and payment of dividends.

LIABILITIES

(₹ in Crores)

Particulars	March 31, 2025	March 31, 2024	Change
Non-current liabilities	410.89	49.59	361.30
Current liabilities	289.10	192.94	96.16
Total liabilities	699.99	242.53	457.46

- ❖ Liabilities include lease liabilities, capital expenditure creditors, borrowings, fair value of consideration payable for acquisitions, outstanding forward contracts at fair value, provisions for share appreciation rights, trade payables, unearned revenue, customer advances, and employee benefit obligations. The increase in liabilities during the period was primarily driven by the acquisition of subsidiaries. Key contributors to this increase were contingent consideration, secured loans, provisions for employee benefits, trade payables, and lease liabilities. These were partially offset by a reduction in unclaimed dividends.

ASSETS (₹ in Crores)

Particulars	March 31, 2025	March 31, 2024	Change

F. Risk management

The Company's global operations bring in considerable complexities and in response to that, Datamatics has established a robust enterprise risk and compliance management framework and process. This process provides an enterprise-wide view of risks and compliance which enables it to take a more holistic approach towards informed decision making. Some significant risks that could hinder Company operations are identified below:

Global Economic Risk

Datamatics derives majority of its revenues from overseas geographies. The changing economic conditions, inflation, reforms in tax laws, fiscal and monetary policies in these markets could enhance cost pressure and affect the Company adversely in several ways. The Company may also witness price reduction, lose key projects and customers, deterring financial performance.

Employee Related Risks

Datamatics' business success is deeply dependent on the quality of its workforce. An inability to attract, retain, and motivate key employees could limit the Company's ability to deliver the right quality of services to its clients.

As a talent-driven organization, the Company's primary goal is to secure the best talent, equipped with highly specialized skills in every business vertical, at the right levels and in the right locations, thereby strengthening its differentiation and competitiveness.

Datamatics strives to be recognized as the employer of choice. Its Human Resources Department (HRD), is closely aligned with the Company's vision to attract, retain, and nurture high-quality talent.

The Company is committed to building a culture of learning and continuous improvement, enabling employees to develop and grow their careers.

The total number of Employees including subsidiaries as on March 31, 2025 was 15,660 as against 12,311 as on March 31,

2024.

Business Continuity and Information Security

Datamatics recognizes the business continuity risks arising out of global disruptions such as natural disasters, IT outages, cyberattacks, pandemic, terror, political unrest and power disruptions. Such events can potentially impact availability of people and process, technology and infrastructure.

To address these risks, the Company has a well-defined, robust and tested Business Continuity Plan (BCP) and Disaster Recovery (DR) processes in place. As a part of this plan Datamatics have identified Primary and secondary locations that are equipped with the necessary infrastructure and facilities to ensure that the business processes can continue uninterrupted had there been any disaster. There are dedicated, trained and empowered cross-functional teams at various levels in all locations to ensure that the BCP and DR processes are implemented in shortest possible times. Readiness according to the BCP and DR processes are regularly tested through surprise mock drills and audits. The audit and mock-drill findings are reviewed by senior management in Management Information Security Forum (MISF) – forum comprising senior management responsible for managing security posture of organization at par with current cybersecurity trends. These measures have proven effective in real scenarios, where customer processes were successfully restored within defined timelines, earning commendation from clients. Likewise during the global pandemic Datamatics ensured smooth transition of operations in the Work from home (WFH) mode seamlessly.

The Company's operations and ISMS have been successfully assessed and are compliant to ISO 27001:2022, ISO 9001: 2015, SSAE 18 SOC 1 and SOC2 requirements and HIPAA requirements. The Company has PCI-DSS certification. To boost our Europe government business operations while maintaining security and privacy company has implemented Cyber Essentials, Cyber Essentials Plus and GDPR compliance. All These standards are especially critical to the financial, insurance and healthcare industries.

Moreover, Datamatics successfully implemented series of security solutions such as Security Information and Event Management (SIEM) solution, MDR, Data Leakage Prevention (DLP) solution to strengthen Information security management framework.

Competition Risk

The technology market is evolving at an unprecedented pace. The world is moving towards smart automation and the emerging digital technologies are disrupting and changing the paradigm of business operations across Industries. This rapid transformation intensifies competitive risk. Datamatics mitigates these risks through a multi-pronged approach:

- Datamatics invests in new technologies and product development in Robotics, Artificial Intelligence, Mobility and Analytics and consistently updates its own IP solutions in the digital technology space.
- With rapid urbanization, Datamatics has built strong offerings in Automated Fare Collection, Smart Gates, and Contactless Gates. Datamatics has deep domain knowledge, skilled professionals, delivery capabilities, and efficient sales force along with relationship managers to help retain its competitive positioning amongst peers.
- Adopting a customer centric approach together with its ability to innovate customer specific solutions, through its in-house incubation hub, DataLabs, Datamatics conducts research and development based on emerging trends and cutting-edge technologies.
- The company continues to strengthen its partner network and believes that the evolving partner ecosystem will increase sales momentum and ensure smooth implementation and support for Datamatics IP solutions globally.

Legal and Regulatory Compliance Risk

Datamatics is exposed to greater compliance risks than ever before due to its presence in multiple developed and developing countries. Data Privacy and protection of personal data is a high priority concern globally. Legislations such as General Data Protection Regulation (GDPR) in Europe and California Consumer Privacy Act (CCPA) in the United States carry severe consequences for non-compliance or breach. Any violation or security breach, non-compliance or inadequacy of privacy policies and procedures can result in substantive liabilities, penalties and reputation impact.

To keep the Company protected against the risk of data privacy breach, all its contracts with the customers in the EU region have been revised to incorporate GDPR requirements. A dedicated Data Protection Officer (DPO) has been appointed to address issues, if any, raised around GDPR compliance. Regular online training and workshops on Data Privacy and GDPR are conducted to foster a culture of awareness and responsibility among its employees. GDPR awareness is an integral part of the employee induction program.

Datamatics engages professional consultants, working under the supervision of its dedicated in-house compliance team, to proactively identify and manage compliance risks. The team is well-equipped to ensure adherence to both domestic and international laws and regulations. Changes in applicable regulations are continuously monitored and tracked on a global scale.

Currency Risk

Datamatics derives majority revenues in foreign currencies. Volatility in currency exchange movements negatively impacts Company's financial performance. Through appropriate hedging strategy and business marketing practices aligned with market best practices, the management team takes adequate steps to minimize currency-related value erosion.

The Company consistently reviews economic scenario and updates policies accordingly.

Internal Control Systems and their Adequacy

Datamatics has mechanisms in place to establish and maintain adequate internal controls over all operational and financial functions. The Company intends to undertake further measures as necessary in line with its intent to adhere to procedures, guidelines and regulations as applicable in a transparent manner.

The Company has appointed, M/s. Ajmera & Ajmera, Chartered Accountants, Mumbai as Internal Auditors of the Company. During the year, the Internal Auditor has carried out Company audit on significant areas affecting the Company's business. The Audit Committee reviews its findings and recommendations at periodic intervals.

The Company's internal control system is adequate considering the nature, size and complexity of its business.

G. Outlook

Datamatics remains optimistic about the growth prospects in the current fiscal year. The company will continue to focus on key strategic areas including artificial intelligence, talent development, expansion in key international markets, and investments in technology and research. These efforts are aligned with our vision to support customers in their digital transformation journeys.

AI-First Approach. Artificial intelligence is a key area of focus for Datamatics. The company has set up a Center of Excellence to support customers in exploring and scaling AI-led initiatives. Our approach is centered on building practical, use case-driven AI solutions that can bring efficiency and value to business operations.

Strengthening Hyperscaler Capabilities. Datamatics is investing in building competencies across major hyperscaler platforms such as Microsoft, Google, Salesforce. The acquisition of Dextara Digital, a Salesforce-focused company, is in line with this strategy and enhances our ability to serve a growing customer base in this ecosystem.

Focus on the US, European markets. The US and Europe continue to be key markets for Datamatics. With established regional teams and focused go-to-market initiatives, the company aims to further strengthen its presence and deepen customer relationships in these regions.

Industry-Focused Solutions. Datamatics is aligning its solutions to better serve industries such as Banking, Financial Services, Insurance (BFSI), Manufacturing, and Logistics. By combining domain knowledge with technology expertise, we are helping organizations in these sectors address specific business challenges and improve operational efficiency.

Talent Development and Innovation. To support future growth, Datamatics will continue to invest in people, processes, and technology. This includes upskilling programs, expanding global talent, and enhancing digital capabilities to meet evolving customer needs. The company remains focused on delivering long-term value through innovation and strong customer partnerships.

As market opportunities expand, the company remains committed to fostering innovation and deepening customer engagement. By partnering closely with clients, Datamatics aims to support them in their journey to go 'Deep in Digital' and help them navigate the next phase of growth.

Report on Corporate Governance

I. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Corporate Governance is an integral part of Datamatics' philosophy. It's a reflection of the culture, values and policies of the Company. To meet its obligations towards its shareholders and other stakeholders, the Company has a corporate culture of conscience and consciousness; integrity, transparency and accountability for efficient and ethical conduct of business. It aims at highest standards of fairness, and accountability as well as equal treatment to all the stakeholders comprising of regulators, employees, investors, customers, vendors and the society at large.

l) Unpaid/Unclaimed Dividend and Transfer of Shares to IEPF:

Pursuant to Sections 124 and 125 of the Act read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("IEPF Rules"), dividend, if not claimed for a period of seven years from the date of transfer to Unpaid Dividend Account of the Company, are liable to be transferred to IEPF.

Further, all the shares in respect of which dividend has remained unclaimed for seven consecutive years or more from the date of transfer to unpaid dividend account shall also be transferred to IEPF Authority. The said requirement does not apply to shares in respect of which there is a specific order of Court, Tribunal or Statutory Authority, restraining any transfer of the shares.

In the interest of the shareholders, the Company sends periodical reminders to the shareholders to claim their dividends in order to avoid transfer of dividends/shares to IEPF Authority. Notices in this regard are also published in the newspapers and the details of unclaimed dividends and shareholders whose shares are liable to be transferred to the

IEPF Authority, are uploaded on the Company's website www.datamatics.com.

In light of the aforesaid provisions, the Company has during the year, transferred to IEPF the unclaimed dividends, outstanding for seven years, of the Company. Further, shares of the Company, in respect of which dividend has not been claimed for seven consecutive years or more from the date of transfer to unpaid dividend account, have also been transferred to the demat account of IEPF Authority.

The details of unclaimed dividends and shares transferred to IEPF during FY 2024-25 are as follows:

Financial Year	Amount of unclaimed dividends transferred (In ₹)	Number of shares transferred
2016-17 (Final Dividend)	2,04,715	4,436

The Members who have a claim on above dividends and shares may claim the same from IEPF Authority by submitting an online application in web Form No. IEPF-5 available on the website www.mca.gov.in and sending a physical copy of the same, duly signed to the Company, along with requisite documents enumerated in the web Form No. IEPF-5. No claims shall lie against the Company in respect of the dividend/shares transferred.

Shareholders of the Company who have not received or encashed their dividend warrants for the financial years, as mentioned below, are requested to claim the unpaid/unclaimed dividend from the Company before its transfer to the above-mentioned Fund:

Year of Declaration	Date of Declaration	Interim/Final	Rate of Dividend (In ₹)	Date of Transfer to IEPF
2017-18	August 14, 2018	Final	0.25 per share	September 19, 2025
2018-19	August 13, 2019	Final	1.00 per share	September 18, 2026
2021-22	August 13, 2021	Interim	2.50 per share	September 18, 2028
2021-22	July 29, 2022	Final	1.25 per share	September 03, 2029
2022-23	September 29, 2023	Special	1.25 per share	November 04, 2030
2022-23	September 29, 2023	Final	3.75 per share	November 04, 2030
2023-24	August 01, 2024	Final	5.00 per share	September 06, 2031

In terms of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended from time to time, all shares in respect of which dividend has not been claimed by shareholders for seven consecutive years were transferred to the Investor Education & Protection Fund Authority in accordance with the procedure prescribed under the said rules. At the end of the year, i.e., as at March 31, 2025, 89,630 equity shares were lying in the IEPF.

m) Updation of KYC details:

Independent Auditor's Report on the Audit of the Consolidated Financial Statements

To

The Members of **DATAMATICS GLOBAL SERVICES LIMITED**
Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **DATAMATICS GLOBAL SERVICES LIMITED** ("Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), listed in Annexure A, which comprise the Consolidated Balance Sheet as at March 31, 2025, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information ("the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025, their consolidated profit, their

consolidated other comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI"), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter

A. Revenue recognition in respect of fixed price contract

The Group inter alia engages in fixed price contracts, wherein revenue is recognized using the percentage completion method based on the Group's estimate of contract cost. We identified revenue recognition of fixed price contracts as a Key Audit Matter since:

- accuracy and existence of revenues and onerous obligations, in respect of fixed price contracts, involves critical estimates.
- these estimates have high inherent uncertainty as it requires determination of the progress of the contract, costs incurred till date and future costs required to complete the remaining contract and performance obligations.
- estimate of costs is a critical estimate to determine the revenues and liability for a contract and these contracts may involve onerous obligations which require critical assessment of future costs.
- at the year-end, significant amount of unbilled revenue is recognized on the balance sheet date.

Auditor's Response

Our audit procedures included discussion with the management to obtain an understanding of the systems, processes and controls implemented by the Group for recording and computing the costs, revenue and other estimates associated with such contracts. Our audit approach was a combination of test of internal controls and substantive procedures which included the following:

- we evaluated the design of internal controls relating to recording of costs incurred and estimate of costs required to complete the performance obligations.
- we tested the access and application controls pertaining to time recording, allocation and budgeting systems which prevents unauthorised changes to recording of costs incurred.
- we selected a sample of contracts and tested the operating effectiveness of the internal controls relating to costs incurred and estimate of costs, through the inspection of performance of these controls.
- we selected a sample of contracts and performed a retrospective review of costs incurred with estimate of costs to identify significant variations and verify whether those variations have been considered in estimating the future costs required to complete the contract.
- we reviewed a sample of contracts with unbilled revenue to identify possible delays in achieving milestones, which

B. Carrying Value of Goodwill The Group has goodwill of Rs. 606.95 Crore in respect of some of its Cash Generating Units. The Group is required to annually test the amount of goodwill for impairment. This annual impairment testing was significant to our audit because the balance of Rs. 606.95 Crore as of March 31, 2025 is material to the financial statements. The determination of recoverable amount requires judgment on the part of the management with respect to future revenue, estimated profit, discount rate and hence the assessment process is highly subjective and is based on assumptions. Hence, We considered carrying value of goodwill as key audit matters.	require change in estimated costs to complete the remaining performance obligations. - we performed analytical procedures and test of details for reasonableness of incurred and estimated costs We evaluated the appropriateness of management's identification of Cash Generating Units and the continued satisfactory operation of the Holding Company's internal controls over the whole process. Our procedures included discussion with the management of the Holding Company on the suitability of the impairment model and reasonableness of the assumptions. Our review included the below: - evaluating the design and operating effectiveness of internal control relating to review of goodwill impairment testing performed by the valuation professional engaged by the Management. - benchmarking the Holding Company's key assumptions with industry comparables, the assumptions made in the prior years and also comparing the margin and revenue trend with the actual results relating to previous forecasts. - reviewing the Holding Company's Management's impairment assessment and reviewed the calculation methodology and sources for key assumptions in the valuation reports. - reviewing the key assumptions, being the cash flows, growth assumptions and discount rates. - performing sensitivity analysis over significant assumptions used in the models to ascertain the point at which impairment would be triggered and considered the likelihood of such a change. - involving our valuation experts to assess the assumption and methodology used by the Company to determine the recoverable amount. - reviewing the disclosure in the consolidated financial statements in respect of the Holding Company's Management's impairment testing to confirm that these are consistent with the conclusions of our audit work and meet the disclosure requirements of the relevant accounting standards.

Other Information

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the consolidated financial statements, the standalone financial statements and our respective Auditors' Report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial

statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries is traced from their financial statements audited by the other auditors. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of

the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act ("Ind AS"). The respective company's Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each entity and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective management and Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective management either intends to liquidate or cease operations, or has no realistic alternative but to do so.

The respective management and Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i)

of the Act, we are also responsible for expressing our opinion on whether the Holding Company, its subsidiaries which are incorporated in India, have adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities and business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the business activities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the

adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) We did not audit the financial statements / financial information of sixteen subsidiaries (including nine step-down subsidiaries), whose financial statements / financial information reflect, before consolidation adjustments, total assets of Rs. 1519.10 Crore as at March 31, 2025, total revenues of Rs. 1,409.53 Crore, net profit after tax of Rs. 155.81 Crore, total comprehensive income of Rs. 158.92 Crore and net cash inflow of Rs. 74.43 Crore for the year ended on that date, as considered in the consolidated financial statements. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Holding Company's Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries are based solely on the reports of the other auditors.
- (b) We did not audit the financial statements / financial information of six subsidiaries (including five step-down subsidiaries), whose financial statements / financial information reflect, before consolidation adjustments, total assets of Rs. 5.72 Crore as at March 31, 2025, total revenues of Rs. 12.26 Crore, net profit after tax of Rs. 0.27 Crore, total comprehensive income of Rs. 0.27 Crore and net cash outflows amounting to Rs. 0.85 Crore for the year ended on that date, as considered in the consolidated financial statements. These financial statements / financial information are unaudited and have been furnished to us by the Holding Company's Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Holding Company's Management, these unaudited financial statements / financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the unaudited financial statements / financial information certified by the Holding Company's Management.

Report on Other Legal and Regulatory Requirements

- d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with rule 3 of Companies (Indian Accounting Standards) Rules, 2015.
- e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2025 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" which is based on the auditor's report of the company and its subsidiaries incorporated in India.
- g) With respect to the matter to be included in the Auditor's Report under section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Holding Company, subsidiary companies incorporated in India, wherever applicable, to its directors during the current year is in accordance with the provisions of section 197 of the Act. The remuneration paid to any director by the Holding Company, subsidiary companies incorporated in India, is not in excess of the limit laid down under section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under section 197(16) which are required to be commented upon by us.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014 as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on the financial statements / information of the subsidiaries, the financial statements / information certified by the management in the case of some subsidiaries, as noted in the paragraph on 'Other Matters':
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note No. 47 to the consolidated financial statements.
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivatives contracts.

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, its subsidiary companies incorporated in India.
- iv. (a) The respective Managements of the Holding Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented that, to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The respective Managements of the Holding Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented that, to the best of their knowledge and belief, no funds have been received by the Company or any such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Group shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. As stated in Note No. 40(b) to the consolidated financial statements
- (a) The final dividend proposed in the previous year, declared, and paid by the holding company during the year is in accordance with Section 123 of the Act, as applicable.
- (b) The Board of Directors of the Holding Company have proposed a final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
- vi. Based on our examination which included test checks and based on the reports of other auditors of the Subsidiaries, the Group wherever applicable, have used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except in case of two subsidiaries the feature of recording audit trail (edit log) facility was not enabled at the database level to log any direct data changes for the accounting software used for maintaining the Books of Accounts relating to payroll and invoice generation. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the group as per the statutory requirements for record retention.
2. With respect to the matters specified in paragraphs 3(xxii) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order" / "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's Report, according to the information and explanations given to us, and based on the CARO reports issued for the Holding Company and its subsidiaries included in the consolidated financial statements of the Holding Company, to which reporting under CARO is applicable, we report that there are no unfavorable remarks, qualifications or adverse remarks in these CARO reports except as mentioned below:

TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Referred to in paragraph 1(f) of the 'Report on Other Legal and Regulatory Requirements' section of the Independent Auditor's Report on the consolidated financial statements of the Holding Company for the year ended March 31, 2025.

Opinion

In conjunction with our audit of the consolidated financial statements of **DATAMATICS GLOBAL SERVICES LIMITED** ("the Holding Company") as of and for the year ended March 31, 2025, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiary companies, incorporated in India, wherever applicable, as of that date.

In our opinion to the best of our knowledge and according to the opinion expressed in the report of other auditors, the Holding Company, its subsidiary companies incorporated in India, wherever applicable, in all material respects, have an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the criteria for internal controls over financial reporting established by the respective companies, wherever applicable, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The respective company's Management and Board of Directors of the Holding Company, its subsidiary companies incorporated in India, wherever applicable, are responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the respective companies, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of

internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the paragraph on 'Other Matters', is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company, its subsidiary companies incorporated in India, wherever applicable.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to the consolidated financial statements in so far as it relates to 8 (eight) subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India and the information provided by the Holding Company's Management.

The financial statements of the Parent Group and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra-Group balances / transactions and resulting unrealized profits in full. The amounts shown in respect of accumulated reserves comprises the amount of the relevant reserves as per the balance sheet of the Parent Group and its share in the post acquisition increase / decrease in the relevant reserves / accumulated deficit of its subsidiaries.

Non controlling interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the non controlling shareholders at the dates on which investments are made by the Parent Group in the subsidiary companies and further movements in their share in the equity, subsequent to the dates of investments.

The Parent Group and its Indian subsidiaries maintain their records and prepare their financial statements under the Historical Cost Convention except certain financial assets and liabilities (including derivative instruments) which is measured at fair value or amortised cost, in accordance with generally accepted accounting principals in India while the foreign subsidiaries maintain their records and prepare their financial statements in conformity with GAAP prevalent in their respective countries of domicile.

Consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances except in case of charge of depreciation on fixed assets and other insignificant items for which the accounting treatment is given on the basis of local laws applicable in the respective country, for which using uniform accounting policies for the purpose of consolidation is impracticable.

ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- * certain financial assets and liabilities (including derivative instruments) which is measured at fair value or amortised cost;
- * defined benefit plans – plan assets measured at fair value.

iii) Measurement of fair values

A number of Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Group has establish policies and procedure with respect to measurement of fair values. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2025

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, mutual funds and forward contracts that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration.

c) Use of Estimates

The preparation of consolidated financial statements in conformity with the generally accepted accounting principles require estimates and assumptions to be made that affect the reported amounts of the assets and liabilities on the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Differences between actual results and estimates are recognised in the year in which the results are known / materialized.

d) Foreign currency translation

i) Functional and presentation currency

The consolidated financial statements are presented in Indian rupee (INR), which is Group's functional and presentation currency.

ii) Transactions, balances and translation

Transactions in foreign currency are recorded at the rates of exchange prevailing at the date of the transactions.

Monetary items denominated in foreign currencies at the balance sheet date are translated at the exchange rate prevailing on the balance sheet date. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. Any income or expense on account of exchange difference either on settlement or on translation at the balance sheet date is recognised in Statement of Profit and Loss in the year in which it arises.

The consolidated financial statements are reported in Indian rupees. The translation of the local currency of each foreign subsidiary within the Group into Indian rupees is performed in respect of assets and liabilities including fixed assets using the exchange rate in effect at the balance sheet date and for revenue and expense items, using a monthly simple average exchange rate for the period. Net exchange difference resulting from the above translation of financial statements of foreign subsidiaries is recognised in Foreign Exchange Fluctuation Reserve. Exchange Difference arising on investment in subsidiaries is recognised in Foreign Exchange Fluctuation

Reserve.

e) Revenue recognition

Revenue from services is recognised based on time and material and billed to the clients as per the terms of the contract.

Revenue related to fixed price maintenance and support services contracts where the Group is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degrees of completion of the performance obligation.

Revenue from the sale of distinct internally developed software and third party software is recognised upfront at the point in time when the software is delivered to the customer. In cases where implementation services rendered significantly modifies or customise the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer.

The billing schedules agreed with customers include periodic performance-based billing and / or milestone based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as "unearned revenues").

f) Income tax

Tax expense comprise of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act.

Current income taxes

The current tax expense include income tax expense payable by the Group. The current tax payable by the Group is income tax payable on worldwide income.

Current income taxes payable by overseas subsidiaries is computed in accordance with tax laws applicable in the jurisdiction in which the respective subsidiaries operates.

Advance taxes and provision for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in some tax jurisdictions.

Deferred tax

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2025

At each balance sheet date unrecognized deferred tax assets are re-assessed. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Minimum Alternate Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the Guidance Note on Accounting for credit available in respect of Minimum Alternate Tax under the Income Tax Act, 1961.

g) Leases

Finance Lease

Assets taken on lease by the Group in its capacity as lessee, where the Group has substantially all the risks and rewards of ownership are classified as finance lease. Such leases are capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognised for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Operating lease

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating lease. Operating lease payments are recognised on a straight line basis over the lease term in statement of profit and loss, unless the lease agreement explicitly states that increase is on account of inflation.

h) Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from date of purchase to be cash equivalents.

i) Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

j) Trade receivables

Trade receivables that do not contain a significant financing component are measured at transaction price and trade receivables that contain a significant financing component are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

k) Investments and other financial assets

l) Classification

The Group classifies its financial assets in the following measurement categories:

- * those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- * those measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

* **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

* **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

* **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2025

or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Group subsequently measures all equity investments, at fair value (except investment in joint venture which is valued at cost less impairment losses, if any). Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

iii) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 39 details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

iv) Derecognition of financial assets

A financial asset is derecognised only when

* The Group has transferred the rights to receive cash flows from the financial asset or

* retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

l) Derivatives and hedging activities

The Group uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. Such forward contracts are utilised against the inflow of funds under firm commitments. The Group does not use the forward contract for speculative purposes. The Group designates these hedging instruments as cash flow hedge. The use of hedging instruments is governed by the Group's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Group's risk management strategy.

Hedging instruments are initially measured at fair value and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised through other comprehensive income and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Statement of Profit and Loss as they arise.

The fair value of derivative financial instruments is determined based on observable market inputs including currency spot and forward rates, yield curves, currency volatility etc.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised or no longer qualifies for hedge accounting. At that time for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in other comprehensive income is retained until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in other comprehensive income is transferred to the Statement of Profit and Loss for the year.

m) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2025

an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

n) Property, Plant and Equipment

Property, Plant and Equipments are valued at cost, except for certain Property, Plant and Equipments which have been stated at revalued amounts as determined by approved independent valuer, after reducing accumulated depreciation until the date of the balance sheet. Direct costs are capitalised until the assets are ready to use and include financing costs relating to any specific borrowing attributable to the acquisition of fixed assets. Capital work-in-progress includes assets not put to use before the year end.

Depreciation methods, estimated useful lives and residual value

Depreciation on property, plant and equipment is provided on the Straight Line Method except for leasehold land, leasehold premises and freehold land as per the useful life and in the manner prescribed in Schedule II to Companies Act, 2013. Leasehold Premises is amortized on the Straight Line Method over the period of 30 years and Leasehold Land is amortized on the Straight Line Method over the period of 75 years.

o) Intangible assets

l) Goodwill

Goodwill on merger of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or Groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or Groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

Goodwill on consolidation of subsidiaries is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

ii) Trademarks, copyrights and other rights

Separately acquired Trademarks and copyrights are shown at historical cost. Trademarks, copyrights and non-compete fees acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

iii) Computer software

The intangible assets are recorded at cost and are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

iv) Other Intangible assets

Other intangible assets that do not meet the criteria in (i) to (iii) above are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

v) Amortisation methods and periods

The Group amortises intangible assets with a finite useful life using the straight-line method as following :

Particulars	Useful Life
Patents, Trademarks, Copyrights	3 – 5 years
Customer contracts	3 years
Computer Software	3 years
Other intangible assets	3 years

p) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

q) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2025

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

r) Borrowing costs

Borrowing costs, which are directly attributable to the acquisition, construction or production of a qualifying asset, are capitalised as a part of the cost of the assets. Other borrowing costs are recognised as expenses in the year in which they are incurred.

In the case of foreign currency borrowings taken for non-qualifying purposes, such as working capital, the difference between the cost of borrowing at the foreign interest rate and the notional cost of a comparable borrowing in Indian Rupees is treated as borrowing cost and is charged to the Statement of Profit and Loss, in accordance with Ind AS 23.

s) Provision, Contingent Liabilities and Contingent Assets

The Group recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Contingent Assets are neither recognised nor disclosed.

t) Employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented

as current employee benefit obligations in the balance sheet.

In case of Parent Group and its Indian Subsidiaries; (i) Defined Contribution Plan - Contribution to defined contribution plans are recognised as expense in the Statement of Profit and Loss, as they are incurred. (ii) Defined Benefit Plan - Companies' liability towards gratuity and leave encashment are determined using the projected unit credit method as at Balance Sheet date. Actuarial gains / losses are recognised immediately in the Statement of Profit and Loss. Long term compensated absences are provided for based on actuarial valuation.

Foreign subsidiaries maintain a defined contribution retirement plan, which covers substantially all the employees of the foreign subsidiaries and qualifies as a deferred salary arrangement under laws of respective countries. The Group matches employees' contributions at the discretion of the Group.

(iii) Restricted Stock Units (RSU): Employee Compensation in the form of stock options, granted under LDL RSU Plan 2016 & LDL Phantom Stock Appreciation Plan have been charged to Profit & Loss Statement, based on fair value method, over the vesting period.

(iv) Performance Based Employee Stock Option Plan (PSOP): The Holding Company recognizes compensation expenses relating to share-based payments in net profit based on estimated fair-value of the awards on the grant date. The estimated fair value of awards is recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in - substance. The entitlement of award which depends on the various parameters will be reviewed on annual basis.

u) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

v) Earnings per share

In determining Earnings per Share, the Group considers the net profit attributable to Group's owners. The number of shares used in computing basic Earnings per Share is the weighted average number of shares outstanding during the period. The number of shares used in computing diluted Earnings per Share comprises the weighted average shares considered for deriving basic Earnings per Share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares.

Nature and purpose of reserves

(i) Securities Premium

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provision of the Companies Act, 2013.

(ii) ESOP/PSOP Reserve

ESOP reserve is created for issue of share capital under RSU plan. PSOP reserve is created for issue of share capital under Performance Based Employee Stock Option Plan ('PSOP') 2022.

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2025

(iii) General Reserve

The General reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General reserve is created by a transfer from one component of equity to another and is not item of other comprehensive income, items included in the General reserve will not be reclassified subsequently to statement of profit and loss.

(iv) Capital Reserve

Capital reserve created on the merger of one of the subsidiaries with the company. Also Goodwill on common control transaction is adjusted against capital reserve.

(v) Capital Redemption Reserve

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve.

(vi) OCI - Equity investments

The company recognises unrealised and realised gain on equity shares in FVOCI - Equity investments.

(vii) OCI - Cash Flow Hedging Reserve

i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the consolidated financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, mutual funds and forward contracts that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration.

There are no transfers between levels 1, 2 and 3 during the year.

ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- * the use of quoted market prices or dealer quotes for similar instruments

All of the resulting fair value estimates are included in level 3 except for unlisted equity securities, contingent consideration and indemnification asset, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

iii) Valuation processes

The carrying amounts of trade receivables, trade payables, capital creditors and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

Note 39: Financial risk management

The Group's activities expose it to market risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Group, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency risk exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

This note explains the sources of risk which the Group is exposed to and how the Group manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables and financial assets	Aging analysis, Credit ratings	Diversification of bank deposits, credit limits and letters of credit
Liquidity risk	Borrowings and Trade payable	Maturity analysis, cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – foreign exchange	Import Payables and Export Receivables	Cash flow forecasting Sensitivity analysis	Forward foreign exchange contracts
Market risk – security prices	Investments in equity securities	Sensitivity analysis	Portfolio diversification

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2025

The Board provides guiding principles for overall risk management, as well as policies covering specific areas such as credit risk, liquidity risk, and Foreign Exchange Risk effecting business operations. The company's risk management is carried out by the management as per guidelines and policies approved by the Board of Directors.

A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses the direct risk of default, risk of deterioration of creditworthiness as well as concentration risks. The Group is exposed to credit risk from its operating activities (primarily trade receivables), deposits with banks and loans given.

Credit risk management

The Group's credit risk mainly from trade receivables as these are typically unsecured. This credit risk has always been managed through credit approvals, establishing credit limits and continuous monitoring the creditworthiness of customers to whom credit is extended in the normal course of business. The Group estimates the expected credit loss based on past data, available information on public domain and experience. Expected credit losses of financial assets receivable are estimated based on historical data of the Group. The Group has provisioning policy for expected credit losses. There is no credit risk in bank deposits which are demand deposits. The credit risk is minimum in case of entity / person to whom loan has been given.

The maximum exposure to credit risk as at March 31, 2025 and March 31, 2024 is the carrying value of such trade receivables as shown in note 11 of the financials.

Reconciliation of loss allowance provision – Trade receivables

Particulars	(₹ in Crores)
Loss allowance on 31 March 2023	12.56
Changes in loss allowance	(1.52)
Bad debts write off	(0.19)
Loss allowance on 31 March 2024	10.85
Changes in loss allowance	6.61
Bad debts write off	(2.58)
Loss allowance on 31 March 2025	14.89

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Group treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, the Group's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

C) Market risk

i) Foreign currency risk

The Group operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EUR and GBP. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Group's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The objective of the hedges is to minimise the volatility of the INR cash flows of highly probable forecast transactions.

The Group's risk management policy is to hedge around 70% to 85% of forecasted revenue for the subsequent 24 months. As per the risk management policy, foreign exchange forward contracts are taken to hedge around 70% to 85% of the forecasted revenue.

b) Sensitivity

The Group is mainly exposed to changes in USD, GBP, CHF, AUD and EUR. The sensitivity analysis demonstrate a reasonably possible change in USD, GBP, CHF, AUD and EUR exchange rates, with all other variables held constant. 5% appreciation/depreciation of USD, GBP, EUR, CHF and AUD with respect to functional currency of the Group will have impact of following (decrease)/increase in Profit & vice versa.

Particulars	(₹ in Crores)	
	March 31, 2025	March 31, 2024
USD	7.52	3.59
GBP	0.83	0.45
EUR	0.21	0.22
CHF	0.09	0.04
AUD	0.06	0.14

* Holding all other variables constant

ii) Cash flow and fair value interest rate risk

The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. Group policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary. During March 31, 2025 and March 31, 2024, the Group's borrowings at variable rate were mainly denominated in INR and USD.

The group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

a) Interest rate risk exposure

The exposure of the company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	(₹ in Crores)	
	March 31, 2025	March 31, 2024

Note 45: Leases

Operating leases

The Group's significant leasing arrangements are mainly in respect of residential and office premises. The aggregate lease rentals payable on these leasing arrangements are charged as rent under "Other expenses" in Note 36. These leasing arrangements are for a period not exceeding five years and are in most cases renewable by mutual consent, on mutually agreeable terms.

Note 48: Forward contracts in foreign currencies

The Group in accordance with its risk management policies and procedures, enters into foreign currency forward contracts to manage its exposure in foreign exchange rates. The counter party is generally a bank. The foreign exchange forward contracts mature within a period of one month and two years.

The Group uses forward exchange contracts to hedge its exposure in foreign currency on highly probable forecast transactions. The information on derivative instruments is given below. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as of the balance sheet date:

Note 49: Revenue from contract with major customers

No single customer represents 10% or more of the Group's total revenue during the year ended March 31, 2025 and March 31, 2024.

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially satisfied) performance obligations, along with the broad time band for the expected time to recognise those revenues, the Group has applied the practical expedient in Ind AS 115. Accordingly, the Group has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognise corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts. Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of estimates, economic factors (changes in currency rates, tax laws etc).

Note 50: Employee benefits

The disclosure as required by Ind AS 19 on "Employee Benefits" are given below:

The present value of gratuity obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation of leave benefits (unfunded) is also recognised using the projected unit credit method.

iii. Leave Encashment

The Group has a policy on compensated absences which is accumulating in nature, wherever applicable. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date. This is done using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expenses relating to the same are recognised in the statement of profit and loss.

iv. LDL PHANTOM STOCK APPRECIATION PLAN 2021

The Company has granted "Phantom Stock Units" under "LDL Phantom Stock Appreciation Plan 2021". The plan shall extend to certain employees as identified by the Board/ Nomination and Remuneration Committee, being the permanent employees of the Company including its Subsidiaries and its directors subject to certain vesting conditions. Phantom units shall vest at the end of 3 years from the date of grant and based upon satisfaction of the performance criteria. The continuation of employee in the services of the Company shall be the primary requirement of the vesting. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter

A. Revenue recognition in respect of fixed price contract

The Company inter alia engages in fixed price contracts, wherein revenue is recognized using the percentage completion method based on the Company's estimate of contract cost. We identified revenue recognition of fixed price contracts as a Key Audit Matter since:

- accuracy and existence of revenues and onerous obligations, in respect of fixed price contracts, involves critical estimates.
- these estimates have high inherent uncertainty as it requires determination of the progress of the contract, costs incurred till date and future costs required to complete the remaining contract and performance obligations.
- estimate of costs is a critical estimate to determine the revenues and liability for a contract and these contracts may involve onerous obligations which require critical assessment of future costs.
- at the year-end, significant amount of unbilled revenue is recognized on the balance sheet date.

Auditor's Response

Our audit procedures included discussion with the management to obtain an understanding of the systems, processes and controls implemented by the Company for recording and computing the costs, revenue and other estimates associated with such contracts. Our audit approach was a combination of test of internal controls and substantive procedures which included the following:

- we evaluated the design of internal controls relating to recording of costs incurred and estimate of costs required to complete the performance obligations.
- we tested the access and application controls pertaining to time recording, allocation and budgeting systems which prevents unauthorised changes to recording of costs incurred.
- we selected a sample of contracts and tested the operating effectiveness of the internal controls relating to costs incurred and estimate of costs, through the inspection of performance of these controls.
- we selected a sample of contracts and performed a retrospective review of costs incurred with estimate of costs to identify significant variations and verify whether those variations have been considered in estimating the future costs required to complete the contract.
- we reviewed a sample of contracts with unbilled revenue to identify possible delays in achieving milestones, which

Key Audit Matter	Auditor's Response
	require change in estimated costs to complete the remaining performance obligations. we performed analytical procedures and test of details for reasonableness of incurred and estimated costs.
B. Transactions with Related Parties The company has material related party transactions during the year. Related party transactions impose limitations on the auditor's ability to obtain audit evidence that all other aspects of related party transactions (other than price) are equivalent to those of a similar arm's length transaction. Further the nature and complexity of such transactions and the involvement of management with respect to the roles and responsibilities of the entities involved in the transactions, makes it subjective. We identified transactions with related parties as key audit matter.	Our audit procedures on transactions with related parties included the following: - we obtained a comfort letter issued by an independent professional who is in charge of Transfer Pricing matters of the Company which states that the transactions are conducted at arm's length price. - we also reviewed the income tax assessments of earlier years to corroborate whether the methodology adopted by the Company has been accepted by the income tax authorities in previous years. - we also compared the pricing model and other terms of the current agreements with agreements of the previous years.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the consolidated financial statements, the standalone financial statements and our respective Auditors' Report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Accounting Standards specified under Section 133 of the Act ("Ind AS"). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent;

and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management and Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or

error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

- (d) In our opinion and as per the information provided to us, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016), and hence reporting under clause 3(xvi)(d) of the Order is not applicable.
- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of section 135 of the said Act, and hence reporting under clause 3(xx)(a) of the Order is not applicable for the year.
- (b) There are no amounts remaining unspent in respect of ongoing projects relating to the current year and previous year.

TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Referred to in paragraph 2(f) of 'Report on Other Legal and Regulatory Requirements' section of the Independent Auditor's Report on the standalone financial statements of the company for the year ended March 31, 2025.

Opinion

We have audited the internal financial controls over financial reporting of DATAMATICS GLOBAL SERVICES LIMITED ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, to the best of our knowledge and according to the information and explanations provided to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over

financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Note 2: Material Accounting Policies

a) Basis of Preparation of Financial Statements:

i) Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (IndAS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statements were approved by the Company's Board of Directors and authorised for issue on May 15, 2025.

ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) which is measured at fair value;
- defined benefit plans – plan assets measured at fair value

iii) Measurement of fair values

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has established policies and procedure with respect to measurement of fair values. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, mutual funds and forward contracts that have quoted price. The fair value of all equity instruments

(including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration.

b) Use of Estimates

The preparation of financial statements in conformity with the generally accepted accounting principles require estimates and assumptions to be made that affect the reported amounts of the assets and liabilities on the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Differences between actual results and estimates are recognised in the year in which the results are known / materialized.

c) Foreign currency translation

i) Functional and presentation currency

The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

ii) Transactions and balances

Transactions in foreign currency are recorded at the rates of exchange prevailing at the date of the transactions.

Monetary items denominated in foreign currencies at the balance sheet date are translated at the exchange rates prevailing at the balance sheet date. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Any income or expense on account of exchange difference either on settlement or on translation at the balance sheet date is recognised in the Statement of Profit and Loss in the year in which it arises.

d) Revenue recognition

Revenue from services is recognised based on time and material and billed to the clients as per the terms of the contract.

Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degrees of completion of the performance obligation.

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2025

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer.

Revenue from subsidiaries is recognised based on transaction price of services which is at arm's length.

The billing schedules agreed with customers include periodic performance-based billing and / or milestone based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as "unearned revenues").

e) Income tax

Tax expense comprise of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act.

Current income taxes

The current tax expense include income tax expense payable by the company. Advance taxes and provision for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in same tax jurisdictions.

Deferred tax

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

f) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar

characteristics.

g) Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from date of purchase to be cash equivalents.

h) Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

i) Trade receivables

Trade receivables that do not contain a significant financing component are measured at transaction price and trade receivables that contain a significant financing component are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

j) Investments and other financial assets

i) Classification

The company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The company reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2025

in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Impairment of investment in subsidiary:** The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently, when there is indication for impairment. If the recoverable amount is less than carrying amount, the impairment loss is accounted for.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The company subsequently measures all equity investments at fair value (except investment in subsidiaries and joint venture which are at amortised cost). Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income

when the company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

iii) Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 36 details how the company determines whether there has been a significant increase in credit risk.

For trade receivables only, the company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

iv) Derecognition of financial assets

A financial asset is derecognised only when

- The company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2025

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount of the dividend can be measured reliably.

k) Derivatives and hedging activities

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. Such forward contracts are utilised against the inflow of funds under firm commitments. The Company does not use the forward contract for speculative purposes. The Company designates these hedging instruments as cash flow hedge. The use of hedging instruments is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy.

Hedging instruments are initially measured at fair value and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in other comprehensive income and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Statement of Profit and Loss as they arise.

The fair value of derivative financial instruments is determined based on observable market inputs including currency spot and forward rates, yield curves, currency volatility etc.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised or no longer qualifies for hedge accounting. At that time for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in Other comprehensive income is retained until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in other comprehensive income is transferred to the Statement of Profit and Loss for the year.

l) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

m) Property, Plant and Equipment

Property, Plant and Equipment are valued at cost, except for certain Property, Plant and Equipment which have been

stated at revalued amounts as determined by approved independent valuer, after reducing accumulated depreciation until the date of the balance sheet. Direct costs are capitalised until the assets are ready to use and include financing costs relating to any specific borrowing attributable to the acquisition of fixed assets. Capital work-in-progress includes assets not put to use before the year end.

Depreciation methods, estimated useful lives and residual value

Depreciation on property, plant and equipment is provided on the Straight Line Method except for leasehold land, leasehold premises and freehold land as per the useful life and in the manner prescribed in Schedule II to Companies Act, 2013. Leasehold Premises is amortized on the Straight Line Method over the period of 30 years and Leasehold Land is amortized on the Straight Line Method over the period of 75 years.

n) Intangible assets

i) Goodwill

Goodwill on merger of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

ii) Trademarks, copyrights and other rights

Separately acquired Trademarks and copyrights are shown at historical cost. Trademarks, copyrights and non-compete acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

iii) Computer software

The intangible assets are recorded at cost and are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

iv) Other intangible assets

Other intangible assets that do not meet the criteria in (i) to

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2025

(iii) above are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

v) Amortisation methods and periods

The company amortises intangible assets with a finite useful life using the straight-line method as following:

Particulars	Useful Life
Computer Software	3 years
Non-Compete Fees	5 years
Copy Rights	3 years
Trade Mark	3 years
Other Intangible assets	3 years

o) Trade and other payables

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

p) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the

company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

q) Borrowing costs

Borrowing costs, which are directly attributable to the acquisition, construction or production of a qualifying assets are capitalised as a part of the cost of the assets. Other borrowing costs are recognised as expenses in the year in which they are incurred.

r) Provision, Contingent Liabilities and Contingent Assets

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Contingent assets are neither recognised nor disclosed.

s) Employee benefits

i) Defined Contribution Plan

Contribution to defined contribution plans are recognised as expense in the Statement of Profit and Loss, as they are incurred.

ii) Defined Benefit Plan

Company's liabilities towards gratuity and leave encashment are determined using the projected unit credit method with actuarial valuation being carried out as at Balance Sheet date. Actuarial gains / losses are recognised immediately in the Statement of Profit and Loss. Long-term compensated absences are provided for based on actuarial valuation.

iii) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees

as at March 31, 2025

render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

iv) Performance Based Employee Stock Option Plan

The Company recognizes compensation expenses relating to share-based payments in net profit based on estimated fair value of the awards on the grant date. The estimated fair value of awards is recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in substance. The entitlement of award which depends on the various parameters will be reviewed on annual basis.

t) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

u) Earnings per share

In determining Earnings per Share, the Company considers the net profit attributable to company's owners. The number of shares used in computing basic Earnings per Share is the weighted average number of shares outstanding during the period. The number of shares used in computing diluted Earnings per Share comprises the weighted average shares considered for deriving basic Earnings per Share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares.

i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, mutual funds and forward contracts that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration.

There are no transfers between levels 1 and 2 during the year.

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2025

Reconciliation of Level 3 fair value measurement is as follows:

(₹ in Crores)

Particulars	Amount
Balance as on March 31, 2023	13.07
Change in the value	(3.24)
Balance as on March 31, 2024	9.83
Change in the value	3.78
Balance as on March 31, 2025	13.61

ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

* the use of quoted market prices or dealer quotes for similar instruments

All of the resulting fair value estimates are included in level 3 except for unlisted equity securities, contingent consideration and indemnification asset, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

iii) Valuation processes

The carrying amounts of trade receivables, trade payables, capital creditors and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

Note 36: Financial risk management

The company's activities expose it to market risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency risk exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables and financial assets	Aging analysis Credit ratings	Diversification of bank deposits, credit limits and letters of credit
Liquidity risk	Borrowings and Trade payable	Maturity analysis, cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – foreign exchange	Import Payables and Receivables on Indenting services	Cash flow forecasting Sensitivity analysis	Forward foreign exchange contracts
Market risk – security prices	Investments in equity securities	Sensitivity analysis	Portfolio diversification

The Board provides guiding principles for overall risk management, as well as policies covering specific areas such as credit risk, liquidity risk, and Foreign Exchange Risk effecting business operations. The company's risk management is carried out by the management as per guidelines and policies approved by the Board of Directors.

A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses the direct risk of default, risk of deterioration of creditworthiness as well as concentration risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables), deposits with banks and loans given.

Credit risk management

The company's credit risk mainly from trade receivables as these are typically unsecured. This credit risk has always been managed through credit approvals, establishing credit limits and continuous monitoring the creditworthiness of customers to whom credit is extended in the normal course of business. The Company estimates the expected credit loss based on past data,

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2025

available information on public domain and experience. Expected credit losses of financial assets receivable are estimated based on historical data of the Company. The company has provisioning policy for expected credit losses. There is no credit risk in bank deposits which are demand deposits. The credit risk is minimum in case of entity / person to whom loan has been given.

The maximum exposure to credit risk as at March 31, 2025 and March 31, 2024 is the carrying value of such trade receivables as shown in note 11 of the financials.

Reconciliation of loss allowance provision – Trade receivables

Particulars	(₹ in Crores)
Loss allowance on 31 March 2023	5.32
Changes in loss allowance	1.34
Loss allowance on 31 March 2024	6.66
Changes in loss allowance	(0.67)
Loss allowance on 31 March 2025	5.99

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the company's liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, the company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

C) Market risk

i) Foreign currency risk

The company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EUR and GBP. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The objective of the hedges is to minimise the volatility of the INR cash flows of highly probable forecast transactions.

The company's risk management policy is to hedge around 50% to 70% of forecasted receivables for the subsequent 18 months. As per the risk management policy, foreign exchange forward contracts are taken to hedge around 50% to 70% of the forecasted receivables.

a) Foreign currency risk exposure:

Details of foreign currency exposures not covered by derivative instruments as at March 31, 2025 and March 31, 2024 are given below :

b) Sensitivity

The Company is mainly exposed to changes in USD, GBP, CHF, AUD and EURO. The sensitivity analysis demonstrate a reasonably possible change in USD, GBP, CHF, AUD and EURO exchange rates, with all other variables held constant. 5% appreciation/depreciation of USD, GBP, CHF, AUD and EURO with respect to functional currency of the company will have impact of following (decrease)/increase in Profit & vice versa.

Particulars	(₹ in Crores)	
	March 31, 2025	March 31, 2024
USD	2.49	2.00
GBP	1.08	0.87
EUR	0.09	0.15
CHF	0.05	0.06
AUD	0.07	0.09

* Holding all other variables constant

ii) Cash flow and fair value interest rate risk

The company's main interest rate risk arises from long-term borrowings with variable rates, which expose the company to cash flow interest rate risk. company policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary.

The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

iii) Price risk

a) Exposure

The company's exposure to equity securities price risk arises from investments held by the company and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss.

To manage its price risk arising from investments in equity securities, the company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the company.

All of the company's equity investments are publicly traded.

Note 37: Capital management

a) Risk management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Company capital management is to maximise the shareholder value.

b) Dividends

Particulars	(₹ in Crores)	
	March 31, 2025	March 31, 2024
Dividends not recognised at the end of the reporting period		
In addition to the above dividends, since year end the directors have recommended the payment of a final dividend of Rs. 5.00 per fully paid equity share (March 31, 2024 Rs. 5.00). This proposed dividend is subject to the approval of shareholders in the ensuing annual general meeting.	29.55	29.50

III. Leave Encashment

The Company has a policy on compensated absences which is accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date. This is done using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expenses relating to the same are recognised in the statement of profit and loss.

IV. Performance Based Employee Stock Option Plan ('PSOP') 2022

The Company has granted Stock Options under Performance Based Employee Stock Option Plan 2022 ("PSOP 2022"). The plan shall extend to present and future eligible employees of the Company or its Subsidiary/ies or its Group Company(ies) working exclusively for such company whether within or outside India and/or such other persons, as may be permitted from time to time, under Applicable Laws, rules and regulations and/or amendments thereto as eligible to participate in this PSOP 2022 who meet the eligibility criteria set out in the Grantee's Option Agreement in accordance with this PSOP 2022 as determined by the Compensation Committee from time to time. Note 48: Revenue from contract with major customers

No single customer represents 10% or more of the Company's total revenue during the year ended March 31, 2025 and March 31, 2024.

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially satisfied) performance obligations, along with the broad time band for the expected time to recognise those revenues, the Company has applied the practical expedient in Ind AS 115. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognise corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts. Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of estimates, economic factors (changes in currency rates, tax laws etc). This excludes transactions with subsidiaries of the Company.

Changes in contract assets of major customers are as follows:

Note 49: Acquisition of a Subsidiary

The Board of Directors, at its meeting held on April 01, 2024, approved the execution of the Share Purchase Agreement, Shareholders Agreement, and other related documents (collectively referred to as the "Definitive Agreements") for the acquisition of 100% equity interest in Dextara Digital Private Limited ("Dextara"), a private limited company incorporated in Hyderabad, Telangana, India. This acquisition also includes the indirect acquisition of its wholly owned subsidiaries Dextara Digital (UK) Private Limited and Dextara Digital (USA) Inc. through the purchase of shares from existing shareholders in one or more tranches over a period of two years, in accordance with the terms of the Definitive Agreements.

Pursuant to these agreements, the Company acquired an initial 80% equity stake in Dextara on April 01, 2024, for a consideration of Rs.109.85 Crores. The Company has recognized the fair value of both fixed and contingent consideration including remaining 20% equity in Dextara as of the acquisition date (including adjustment during measurement period), amounting to Rs. 40.07 Crores. This brings the total investment value in Dextara to Rs. 149.92 Crores.

The contingent consideration payable has been recorded under non-current and current financial liabilities and is expected to be settled in two tranches on or before June 30, 2026. The actual payout is subject to the achievement of specified conditions and valuation methodologies detailed in the Definitive Agreements.

Additionally, acquisition-related expenses amounting to Rs. 3.12 Crores have been recognized as an exceptional item in the financial statements.

Note 50: Additional stake acquisition of a subsidiary:

During the year, the Company acquired the remaining 23% equity stake in Datamatics Cloud Solutions Private Limited, resulting in it becoming a wholly owned subsidiary of the Company w.e.f. from May 20, 2024.

Note 51: Impairment

As per Companies (Accounting Standards) Rules, 2013 issued by the Central Government, in consultation with National Advisory Committee on Accounting Standards ('NACAS') and the relevant provisions of the Companies Act, 2013, to the extent applicable, the carrying value of the asset has been reviewed for impairment of assets.

Notes forming part of the Standalone Financial Statements (Contd.)
