COGNITIVE SYSTEMS & SMART AUTOMATION

The Next Wave of Business Transformation.

We are witnessing an exciting era, where Artificial Intelligence is paving the way for Smart Automation. The resultant platform is a smart convergence of some of the most phenomenal technologies of today. The intelligence imparted to enterprise systems can extract information from voluminous data and derive insights to provide superior customer service.

Man-made machine intelligence is creating a path for the next chapter of Digital Revolution. It has the ability to automate complex workloads and simulate deep human thinking. It can unearth insights, patterns, and opportunities hidden in data recesses for developing new products and services and take customer engagement to the next level. A confluence of exponential data growth, fast distributed systems, artificial intelligence and smart automation is driving the revolution. This convergence will drastically change the business scene in the next five years.

Robotics continues to accelerate innovation, thereby disrupting and changing the paradigm of business operations across

industries. With this, we are focusing towards embracing this change and assessing ways to leverage on robotics. This will sharpen a company's competitive advantage and make it more agile, leading to an enhanced experience for all stakeholders.

Today, Smart Automation and Exponential Technologies are impacting the way the world conducts business, leading to higher productivity, greater efficiency, improved speed and reduced costs.

CHAIRMAN'S MESSAGE

THIS HAS ALSO BEEN A YEAR OF RENEWED PARTNERSHIPS AND FORGING NEW ALLIANCES, AS WE EXPAND OUR HORIZONS TO NEW FRONTIERS IN EMERGING TECHNOLOGIES.

Dear **Shareholders**,

It is my pleasure and privilege to share an overview of your Company's performance and the way forward. I would like to take this opportunity to congratulate all our stakeholders for a good year and an exciting beginning to several new initiatives.

The global business environment has been challenging and the changing economic conditions have kept all industries on their toes. It is therefore important for all of us to be increasingly agile and nimble to deal with uncertainties. I believe that every

WITH THE GROWING DEMAND OF NEW DIGITAL TECHNOLOGIES AND THE DOMINANCE OF THE IT SECTOR, YOUR COMPANY IS WELL POSITIONED TO DIFFERENTIATE ITSELF TO CAPTURE THIS OPPORTUNITY AND BE AHEAD OF THE CURVE.

challenge brings with it new opportunities and with that comes new risks; but it is for us to seize these opportunities.

With the growing demand of new digital technologies and the dominance of the IT sector, your Company is well positioned to differentiate itself to capture this opportunity and be ahead of the curve.

Today, the world is moving towards Smart Automation, which forms the basis of our digital solutions. In my earlier communications, I have spoken about cloud, big data and analytics, social, and mobility. These are causing disruption and introducing new and dynamic business models. Organisations are continually looking to navigate through advanced technologies that will transform their core business processes. Datamatics has leveraged on this disruption, by offering customised solutions in emerging technologies.

Your Company witnessed stable growth during the year, with prudent investments in the emerging technologies space, strategic partnerships, and growth in our subsidiaries. On a consolidated basis, your Company achieved 6.2% Y-o-Y growth in gross revenues with cumulative per-share earnings of ₹ 15.24 as against ₹ 7.45 in FY2015-16. Your Company witnessed an overall increase in net income after the exceptional items to the tune of ₹ 453 million (₹ 901.31 million in FY2016-17 as against ₹ 448.32 million in FY2015-16), which is more than 100%, with an overall increase in net income excluding the exceptional items by 41%.

This has also been a year of renewed partnerships and forging new alliances, as we expand our horizons to new frontiers in emerging technologies. Keeping in mind the upcoming trends in IT, Datamatics endeavours to create new business opportunities and invest in niche technologies in order to service a wider consumer demographic.

Our employees, who are the true brand ambassadors of your Company, have played a

pivotal role in this success. It is therefore important to appreciate their contribution and also help them upskill their capabilities. I am happy to share that Datamatics has further accentuated its Learning and Development platform by introducing new training programmes and e-learning modules. Your Company's contribution towards its employees has also been acknowledged by the World HRD Congress by conferring with the award of the Most Innovative HR Technology Leader of the Year.

CIGNEX Datamatics was also felicitated at the India Human Capital Summit and Awards in two categories - Best Change Management Strategy and Best Employee Value Proposition Plan. It was also certified as a 'Great Place to Work' by the Great Place to Work Institute.

I have always believed that capable leadership and strong corporate governance play a critical role in the ability of companies to effectively focus, develop and create value for its shareholders, customers, employees and the communities wherein they do business. Our actions and initiatives demonstrate that Datamatics is on the same path.

With our operations centered around 'Data to Intelligence', your Company will continue to build efficiencies and drive incremental growth, by aligning the core strategies with the goals and aspirations of our customers.

As we stride towards a brighter future with higher ambitions, I would like to thank all our stakeholders for their valuable support, continued trust and guidance. I look forward to yet another successful year and invite you to join us in our digital journey for the future.

Yours Sincerely,

Dr. Lalit S. Kanodia

MESSAGE FROM THE VICE CHAIRMAN AND CEO

WE REMAIN COMMITTED TOWARDS
INNOVATING AND EXPANDING
OUR ENTERPRISE OFFERINGS TO
HELP OUR CUSTOMERS MAINTAIN
A COMPETITIVE EDGE BY GAINING
BUSINESS INSIGHTS.

Dear **Shareholders,**

Digital technologies are at the forefront of the current wave of disruption, and it is important for businesses to embrace these opportunities to evolve further.

Digitalisation, a super-set of Social, Mobility, Analytics, and Cloud (SMAC), along with Robotics and Artificial Intelligence has become a core driver of disruption.

WE HAVE MADE THE RIGHT MOVES OVER THE PAST FISCAL TOWARDS DELIVERING INNOVATIVE PRODUCTS AND SOLUTIONS THAT OUR CUSTOMERS NEED, AT A FASTER PACE THAN EVER BEFORE.

The need for enterprises to transform and grow is inevitable, not only to gain a competitive advantage but also attract and retain customers, reduce operational costs and remain relevant in this ever-changing environment. This digital revolution has generated huge amounts of data, and it is imperative to leverage the power of data to derive better business insights.

Datamatics with its experience and expertise has carved a niche for itself towards becoming a strategic partner to its valued customers by offering smart solutions that will enable them to make more informed decisions. Going forward, the key thrust area for Datamatics in FY2017-18 will continue to revolve around accelerating innovation through Cognitive Systems and Automation; as well as towards creating new proprietary products around Robotics, Analytics, Cloud and Mobility.

Reflecting on the past year, while we are pleased with what we have achieved, there is a lot more to accomplish in the years to come. The financial year 2016-17 has witnessed balanced growth across focused verticals, geographies and business lines as Datamatics sought new opportunities for digital transformation. We attribute this success to our fundamental belief of aligning our business goals and objectives with those of our customers. Our emphasis on account mining has also shown a positive movement.

This year our revenue, including our wholly owned subsidiaries, as well as joint ventures grew by 10%. Our consolidated revenue increased to ₹ 8,671.24 million, up by 6.2% against FY2015-16. Datamatics gained significant strength in some of the key business segments including Automated Fare Collection, Analytics and Mobility to name a few. To support the growing business of our clients, Datamatics has successfully invested in new domestic and international facilities, including an office in Kansas City, a subsidiary in Philippines and has ramped up operations in Puducherry.

Apart from our financial performance, I am also pleased to share that Datamatics has received several awards and recognitions across national and international platforms during the year. Three of our products – iQ, nSights and TruBot received recognition

for the second consecutive year from the CIO and IT decision-maker community under the Document Management, Business Intelligence and Emerging Technology (for RPA) categories, respectively. Datamatics was also recognised as the 'Fastest Growing Indian Company' in UK in a report jointly published by Grant Thornton and the Confederation of Indian Industry.

These results and successes would not have been possible without the dedication and commitment of our employees. The HR team is strategically aligned to our businesses and acts as internal consultants to understand the requirements of every business from a talent and development perspective.

Datamatics, in FY2017-18, will continue its focus on strategic priorities both internally as well as externally that will drive profitable growth. We are excited to build on the momentum we have generated over the past fiscal year and for the opportunities that lie ahead. We remain committed towards innovating and expanding our enterprise offerings to help our customers maintain a competitive edge by gaining business insights.

As global businesses aspire to become Smart Enterprises by accelerating the adoption of digital technology, Datamatics is very well positioned to capture this opportunity. We have made the right moves over the past fiscal year towards delivering innovative products and solutions that our customers need, at a faster pace than ever before. We are confident that our rich customer base, domain expertise, deep understanding of the customer landscape, technology investments and IPs combined with our global scale, will enable us to make significant impact in the Digital world.

We take this opportunity to thank our valued stakeholders, including shareholders, clients, partners and our employees, for their continued support and being an integral part of our growth journey.

Yours Sincerely,

RAHUL L. KANODIA

THE YEAR GONE BY

The role of digital technology is rapidly changing, from being a driver of marginal efficiency to an enabler of fundamental innovation and disruption. The IT industry has led the economic transformation of the country and altered the perception of India in the global economy.

It has been a good year for Datamatics as it has witnessed increased interest and investment in Robotics, Advanced Analytics, Cognitive Technologies such as Artificial Intelligence, Machine Learning and Pattern Detection, IoT, Cloud and Mobility.

FY 2016-17 has been a fruitful year. In a bid to expand its global footprint, the Company has successfully invested in new domestic and international facilities. The expansion plans were fuelled by a healthy ratio of wins, through multiple large contracts, globally, especially in the BFSI, Manufacturing and Transport & Logistics sectors. Furthermore, the Company received several awards and recognitions across various national and international platforms, which is testimony to our smart solutions and customized offerings.

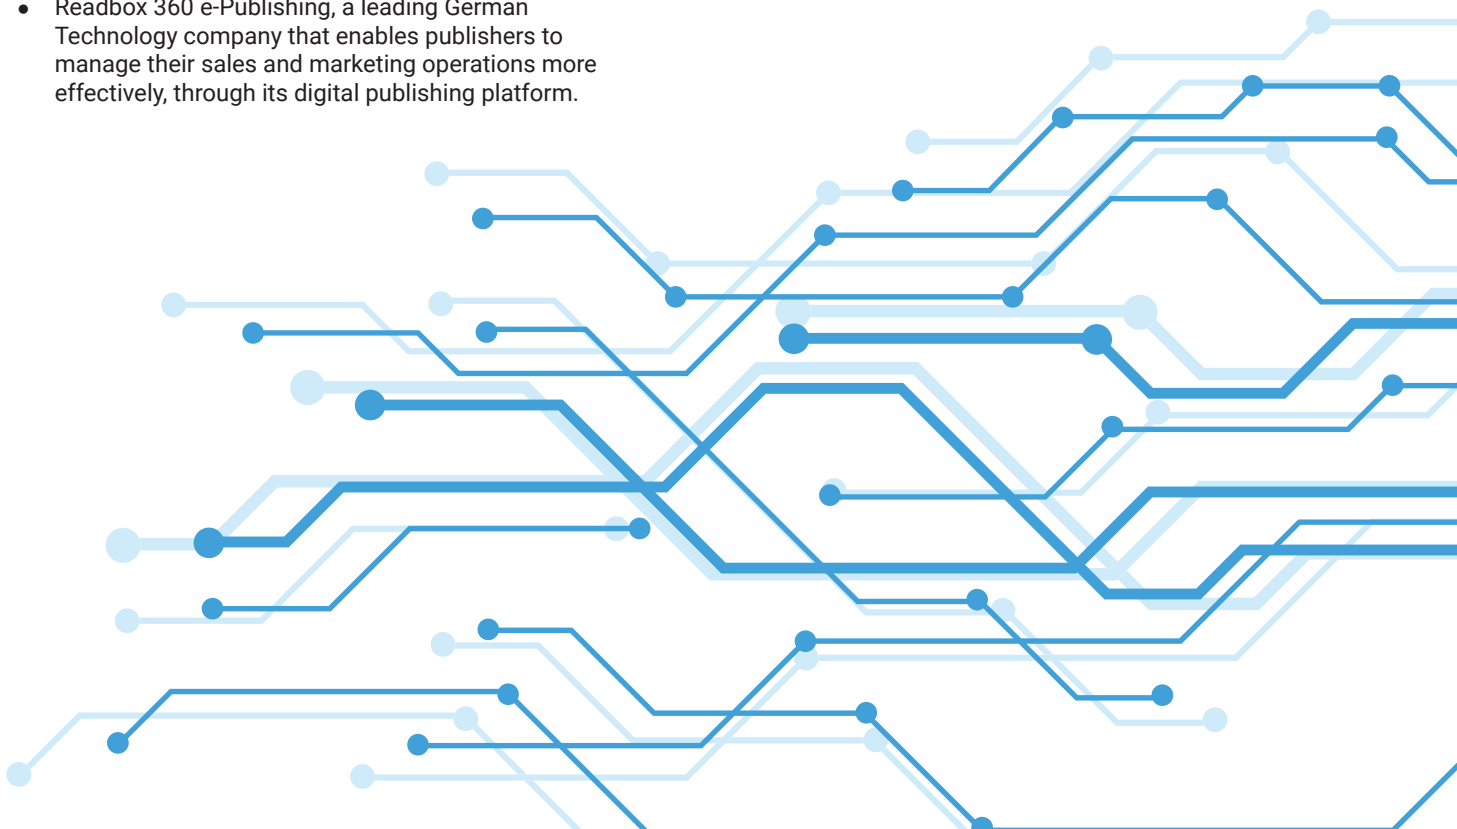

As you are aware, Lumina Datamatics is a trusted partner for several leading companies in the global publishing and retail industries, addressing their needs for content, technology and commerce. This financial year, the Company entered into partnerships with two niche technology companies:

- Readbox 360 e-Publishing, a leading German Technology company that enables publishers to manage their sales and marketing operations more effectively, through its digital publishing platform.

- HandyTrain Technologies, a leading mobile training platform provider that facilitates seamless training through mobile phones between corporates and their employees.

On the other hand, CIGNEX Datamatics, a subsidiary of Datamatics Global Services Ltd., is a Michigan based global consulting company offering solutions, services and platforms in Open Source, Cloud and Automation. The Company signed three deals this year to further enhance their offerings.

- Signed an agreement with Duo Consulting, a Chicago based digital marketing firm that specializes in Drupal based solutions, which includes creating content-rich responsive websites, experience design, digital marketing, content and digital communication.
- Partnered with Elevondata, a Chicago based next generation global data services and solutions company, using the principles of Big Data, Open Source, and Cloud to provide faster and cost effective data solutions.
- Signed an agreement with Attune Worldwide, an IT and infrastructure solutions provider delivering services with a focus on Open Source including consulting, migration, integration and trainings.

HIGHLIGHTS

The Company has received declarations from all the Independent Directors of the Company confirming that they meet the criteria of independence as prescribed under Section 149 (6) of the Act and Regulation 25 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. ("SEBI Listing Regulations").

MEETINGS OF THE BOARD

During the financial year, five meetings of the Board of Directors were held, the details of which are given in the Corporate Governance Report of the Company, which forms part of this Report. The maximum interval between any two meetings did not exceed 120 days, as prescribed under the Act.

BOARD AND COMMITTEE EVALUATION

The Act and SEBI Listing Regulations contains broad provisions on Board Evaluation i.e. evaluation of the performance of (i) the Board as a whole (ii) individual Directors (including Independent Directors and Chairperson) and (iii) various Committees of the Board.

Pursuant to the said provisions, the Board has carried out the annual performance evaluation of the entire Board, its Committees and all the Directors based on the parameters specified in the Report of Corporate Governance.

A separate meeting of Independent Directors was held to discuss the performance of Non-Independent Directors, Board as a whole and Chairman after considering the views of Executive Directors and Non-Executive Directors.

FUTURE GROWTH STRATEGY

The financial year 2016-17 witnessed a steady growth in revenues as Datamatics sought new opportunities for digital transformation in key industries. We attribute this success to our fundamental belief in aligning our business goals and objectives with those of our customers.

Datamatics has continued to focus its efforts towards offering a comprehensive suite of customized, smart and innovative solutions, powered by Artificial Intelligence and Machine Learning, Robotics, IoT, Cloud and Mobility. We remain committed towards working with our clients and supporting them in transforming their businesses into data-driven enterprises. The positive results and appreciation in various Customer Satisfaction Surveys is a validation of the exemplary services offered by our teams.

In our endeavour to drive growth, we have forged new alliances in addition to renewing existing partnerships with companies who specialize in developing niche products in the emerging technologies. These collaborations have helped Datamatics offer its customers advanced technology solutions that would give them a competitive edge in the marketplace.

Banking, Insurance, Retail, Publishing and Transportation are few of the verticals that have benefitted the most by embracing our Smart Automation products and services.

Automation, Artificial Intelligence (AI) & Cognitive Systems

Datamatics has made considerable strides in the AI and automation space, as organizations are increasingly looking to make their critical business functions more efficient. The AI-based self-learning solutions parse voluminous amounts of structured and unstructured data to detect patterns and provide valuable insights. Our award-winning proprietary product TruBot has helped organizations build a positive RoI by automating their repetitive, rule-based, and time-consuming processes. Through its smart solutions, Datamatics has been closely working with banks and insurance companies to automate and transform their backend processes, which has led to increased productivity and accuracy.

BOARD'S REPORT

Additionally, we are working towards integrating intelligence into labor-intensive processes, which lead to reduced manual intervention and increased efficiency.

Enterprise Mobility

Enterprise mobility has gained significant momentum with companies adopting 'mobile first' as a core strategy for their business and cloud platforms. We aim to further enhance our service in the mobility space and create a niche that will help us gain a competitive advantage. Datamatics foresees greater demand and growth in device centric businesses including IoT, mobility, and self-service kiosks, among others.

Text Analytics & Pattern Detection

Datamatics' text analytics solutions incorporate unique Human Data Interface and visualization along with data management techniques that offer in-depth insights for making real-time and smart decisions. It is an intelligent system that follows an iterative approach to decipher hidden insights from text based content.

Datamatics' AI based data mining platforms enable customers to correlate information across multiple sources and detect patterns in text. This could be amongst diverse and seemingly unrelated entities such as people, organizations, locations, events etc.

Accelerating innovation

The core operation of Datamatics focuses on "Data to Intelligence"; i.e. leveraging data to extract intelligence and patterns thereby facilitating smarter and quicker decision making.

For the next few years, Datamatics will continue to have a two-pronged research and innovation agenda of providing fully integrated offerings through Smart Processes, Smart Systems, Smart Devices and Smart Data. The emphasis will remain on some key thrust areas revolving around automation, text analytics and cognitive technologies such as AI, Natural Language Processing, and Machine Learning.

Datamatics will continue its research on emerging trends and technologies through its incubation centre – DataLabs. Through this setup, Datamatics

builds innovative solutions and create Intellectual Property for business and process efficiency.

It has been our constant endeavour to provide smart services and solutions to our customers globally that have played a key role in transforming their businesses and maintain an edge in a highly competitive market. This growth is a true reflection of our customer-centric approach and corporate strategy to provide innovative solutions. We aim to invest heavily in other industry sectors and tap new markets in our efforts to work with our customers in their digital transformation journey.

QUALITY

Quality has always been our top priority and continues to remain in sharp focus, creating a distinct competitive advantage. At Datamatics, quality is both a legacy and a value that Management of the Company has inculcated and ingrained as a culture, custom and character.

Our Company believes in the philosophy that quality encompasses and permeates every action and thought process. Quality at Datamatics goes beyond product and services, and forms an integral part of the Datamatics culture. The industry has always been kind in recognising the Company's performance, and this year too, Datamaticians and Datamatics featured prominently at various industry platforms by winning prestigious awards.

Your Company is the first and the only I.T. Company to have won the "International Asia Pacific Award" for Quality in services sector. The Award was won against competition from hundreds of companies from 38 countries spread across the world, including the US, Japan, Australia, New Zealand, Russia, Canada, China, Israel, South Korea, Peru and Mexico. Your Company also won the prestigious "IMC IT Award for Quality" in January 2014. We won the Global Quality Challenge award of one of the fortune 100 organizations for the ninth time. Further significant initiatives of your Company towards quality are:

1) Lean Six Sigma Initiative:

We have adopted the proven Lean Six Sigma methodology in conjunction with Kaizen to make our processes more efficient, productive, robust

BOARD'S REPORT

and defect free and also to improve productivity and cost effectiveness. This initiative continues to deliver significant benefits to the Organization with improvements in Productivity, Efficiency, Quality and Customer Satisfaction. Overall 375 Six Sigma Projects and 1700 Kaizen Projects have been completed since the launch of this initiative in 2007. For the past consecutive three years, our improvement projects have been ranked within the top 5 projects out of around 80 projects in QIMPRO Conventions.

In the last financial year, an overall benefit that includes tangible and intangible benefits, of 24 million with an ROI of more than 200% was achieved through these performance improvement methodologies.

The Company has about 25 Six Sigma Green Belt and 40 Six Sigma White Belt certified professionals along with 6 Six Sigma Black Belt and 1 Six Sigma Master Black Belt certified professionals. The Company spent over 4500 person hours of training around continuous improvement in the last financial year.

2) Certifications:

Your Company, keeping true to its commitment of designing and implementing its quality management systems as per the global standards and benchmarks has been assessed and certified on standards such as ISO 9001:2015, SEI - CMMI Version 1.3 high maturity Level L4, and ITIL. New centers that we added last year have also been assessed and certified for compliance to these standards.

The thrust and demands on information security is increasingly becoming stricter. In line with the demands as well as our own analysis of the information security landscape, we continue to lay great emphasis on the information security management systems. Last year, we not only retained the ISO 27001:2013 certification for our Information Security Management Systems but also brought all our centers under the purview of the information security management. We also got certified to SSAE 16 SOC 1 and SOC2 requirements with HiTRUST capabilities. These standards are critical standards for Financial,

Insurance and Healthcare industries. Our commitment to ensure a robust information security management system for our customers has been bolstered by these certifications. We will continue to strengthen this as we enter the new financial year. There is a conscious thrust on risk management as an organization strategy and the risks and mitigation plans are reviewed regularly at all pertinent levels.

3) Customer Satisfaction Tracking:

We conducted a comprehensive branding survey among our customers to assess their priorities and their perceptions about the Company against these priorities. We are happy to share with you that there is no jarring incongruence between the two. However, as an organizational improvement initiative, we have identified, as shared earlier, delivery as per commitment and quality of solutions. There is also an emphasis on providing value-addition to our customers and feedback ranging from happy to delighted bears testimony to the effectiveness of these initiatives.

The customer satisfaction and loyalty index measuring process continues to provide invaluable insights into our customer's expectations and our performance vis-à-vis these expectations. This is done once every six months and captures customer's feedback on a wide range of parameters that encompass each aspect of service excellence. This is a wholly automated process and it speeds up the entire process of capture and analysis of the feedback received from the Customer. We feel proud to share with you that overall our Customer Satisfaction Index has been 5.01 on a scale of 1-6 (1 being the lowest and 6 being the highest) with about 81% of our customers rating us "highly satisfied" and "delighted". 75% of our customers have rated us "highly satisfied" and "delighted" on the organization improvement theme of delivery as per commitment and quality of solutions. In addition to this formal mechanism, we also have systems that capture customer feedback received through other formal and informal channels. The results of these also show an improving trend.

BOARD'S REPORT

4) Metrics and Process Compliance Index

Metrics is a concept of measuring Delivery Index for each Line of Business (LOB) and each Support Department. The Quality of all deliverables is monitored on a regular basis and a feedback is given to the Department Heads. This index not only provides the snapshot health of a LOB but also provides a mechanism to compare various LOB's. We use a delivery index to measure and compare the performance for each Line of Business (LOB). It incorporates the three key indicators of performance of any project viz Quality, Effort and Schedule adherence and a stop light (red-amber-green) dashboard is used to display the performance.

In addition, regular process compliance checkups and speedy follow-ups on the corrective and preventive actions have helped us significantly to keep non-compliances in check and thereby reduce rework and defects at the source. Process Compliance Index (PCI) measures and compares the compliance levels for the different LOBs. The process compliance indices are well above the defined targets.

The defined quality gates ensure that we are adhering to process requirements and deliverables at each of the critical stages of the project. A regular review of this with senior management ensures that the processes are on track.

In order to create processes at par with global best practices, we have also tied up with a number of global forums such as ISBSG, CSI and PMI to understand and benchmark ourselves against key metrics.

We have also introduced advanced statistical tools and analysis and simulation techniques to improve our ability to predict the performance of the projects and thereby take proactive steps and measures to improve the performance.

HUMAN RESOURCES MANAGEMENT AND EMPLOYEE RELATIONS

The entire business is chiefly talent-based and people driven. Employees, play a significant role in the success of the Company and are the key assets of the Company. Hence, we precisely term them as '**Human Capital**'.

Our Company's endeavour is to create a work environment that imbibes a positive attitude for excellent performance. The key areas of the Company's Human Resource Management (HRM) strategy includes a comprehensive approach to managing people, workplace culture and environment.

Managing a strong employer and employee relationship leads to the ultimate success of an organisation. A strong relationship at any work centre will lead to more qualitative & efficient productivity, generate cohesion among the employees and create smooth functional environment.

The Human Resource Department ("HRD") of the Company regularly conducts the following programs:

Datamatics Pulse : Our Company has launched a Mobile Application named 'Datamatics Pulse' for its employees on Android Platform and the same will soon be available on iOS. The application is designed to help the employees manage their leaves, outdoor duties and travel activities.

Happy Birthday Placard: There is always a special day in everyone's life. The day of birth of an individual is considered to be one of the most cherished moments in his/her life. Keeping this in mind, we at Datamatics go an extra mile in celebrating this auspicious day. We dedicate a Happy Birthday Placard on employee's desk so that everyone can celebrate together with the employee on his/her day.

"Climate Survey" and **"Open House"** to ensure that employees' views and opinions are taken on board, as well as the Company's larger strategy is discussed and shared with them. Both these initiatives have HRD Head and leadership teams of each Line of Services ("LOS") to bring a shared understanding of the larger organizational direction. It renders the employee a

BOARD'S REPORT

platform to voice their views, opinions for the possible areas of improvement which in turn enhance employee engagement and fosters direct organizational Growth.

New Entrant Observation ("NEO"): It is a session conducted by the HRD for new entrants after they complete 30 days to understand how things are going with them and gain their feedback.

On-Site Visit: It helps in establishing connect with onsite employees to address various issues and for continuous to & fro performance and business related information exchange. HRD representative and account manager visit employees once every month. It helps us to understand the communication system, opportunities to collaborate and work environment of both clients & our employees.

Saarathi: With a view to ensure smooth integration of new entrants into the organization, processes, systems and work culture a 'Buddy System' which is known as 'Saarathi' is in place. Saarathi is the point of contact, friend and guide for the new joiner during initial days within the organization.

Euphoria - Monthly Departmental Meet: A monthly meeting is conducted by the HRD, which offers the team an opportunity to interact with each other, come together and celebrate. It provides a platform on monthly basis for the seniors & HRD to provide updates, to have an element of fun together, reward & recognize employees, all with a munch & mingle session at the end. It works as a motivator to perform outstandingly.

Long Service Award: Being a 40 year old organization, we have many employees who have helped us grow by displaying strong sense of commitment, trust and loyalty with their long term association with the organization. These employees are conferred Long Service Awards during the Annual Achievers Award Ceremony. The excitement is created amongst these employees by felicitating appropriately and infusing a sense of belongingness of being a core member of the Company.

Annual Achievers Award, Instant Recognition and Client Appreciation: To motivate high performing individuals and teams, who have exhibited exemplary commitment, having outstanding leadership qualities, made considerable impact on the business, we confer upon them various performance awards during the

Annual Achievers Awards Ceremony and Euphoria. In addition to these, there are also 3 kinds of spot awards viz. a) Spot Individual; b) Spot Team; c) Employee of the month, to instantly recognize significant achievement, excellence in performance and special contributions by individuals and teams. **'Praise for Performance'** is a program that aims at recognising the efforts of employees who have received client appreciation, in front of a larger audience to induce a sense of pride and contentment. It is a concerted effort to instil a fresh spirit in the employees, so that they become more spirited and competitive in their performance.

IAppreciate: These cards are awarded by the Reporting Manager to Appreciate their team members at right time for good work and efforts.

Our Company has rich diversity in its employees with a common aim to excel. A culture of co-operation and solidarity is infused by celebrating National holidays and festivities such as Independence & Republic Day, Diwali, Dandiya & Christmas. Initiatives such as JOSH, where employees offer their innovative ideas help to unleash their creativity, maintain a balance between work & life and create a deep sense of bonding among employees.

Lazy Friday in ITS: Focus is laid on Team Orientated Culture wherein, employees interact and perform tasks together to increase team cohesion. It is also instrumental in promoting cross functional teams as they share similar goals, purpose and targets

TALENT MANAGEMENT

The HRM team has introduced a new vertical called **'Talent Management'** effective September 2016. The Talent Management team, spear headed by the Global HR Head act as a strategic partner to both business leaders and the wider HR function, acting as internal consultants to understand the needs of every business from a talent and development perspective. Some of the interventions planned under the Talent Management umbrella aim to bring in a more focused alignment of HR processes in accordance with our business objectives & goals.

Online Talent Profile:

Talent Profile is an online platform within the intranet portal - PULSE that enables employees to create an up-to-date profile of their professional experience, educational

BOARD'S REPORT

background, certifications, skills, accomplishments and more at one place. It provides visibility to Managers, Senior Executives and HR, to get a complete overview on the experience of the current workforce and their teams through this online portal, thereby enabling them to know their employees better and make informed decisions accordingly.

Competency Framework:

Designing the competency framework for the Company aims to identify and spell out the specific behaviours important for organizational success. The framework will help define the competencies needed for employees within the Company to perform their job more effectively and successfully. This forms the foundation for Talent Management interventions. The identified competencies will get integrated with job descriptions, performance appraisals, development programs, internal transfers, talent reviews and succession planning for critical roles.

Graduate Executive Program – Building Talent Pipeline for Sales:

It is a multilayer program for fresh graduates with a variety of classroom and on-the-job development opportunities, to cultivate graduates into Business Development Associates. The focus is on developing the next talent pipeline for Sales, to generate more demand for Company's products and services, leading to increased business impact and revenue growth.

Aspire – Online Portal for Internal Job Postings:

'Aspire' the internal talent mobility project consist of (a) Internal Job Posting ("IJP") Policy, and (b) an online IJP platform, powered by hire craft. This has been developed with an aim to turn the talent search engine inside the organization. It provides employees the opportunity to apply for open positions across the organization, to enhance their career growth and development. A structured IJP program acts as one of the key success drivers in providing mobility to employees across roles / functions / locations, thus addressing business challenges, as well as providing job enrichment to employees based on their career aspirations.

Talent review - 9 box grid (Talent Calibration):

A defined process to enable Managers evaluate and gauge the performance, potential and readiness of their respective talent pool using the 9 box grid format. This involves working collaboratively with the leaders to arrange every employee above specific grades, into one of the nine boxes on three levels of performance and potential. This will form the basis for succession planning, Hi-Performer/Hi-Potential identification and leadership development.

RECRUITMENT

The Talent Acquisition team implemented the recruitment automated tracking system (ATS) i.e. Hirecraft from April 01, 2016. It is an end-to-end online recruitment platform, which has been created with an objective of transiting towards paperless recruitment, candidate database management and to record all phases of recruitment transactions online. It digitizes each recruitment phase which otherwise functioned manually and was paper-enabled. The change has resulted in providing a compounding database of candidates indexed to the organisation's manpower needs and acts as a catalyst for generating reports and MIS.

Regional Location HR

South HR: The employee headcount for south locations (Bengaluru, Chennai & Puducherry) as on March 31, 2017 is 1820. The company has been supporting the cause 'Empowerment of underprivileged women', by offering them a career with Datamatics. There has also been an increase in the number of our differently abled employees in FY 2016-17. Puducherry ramp up has been executed as per the plan and the focus has been on providing employment opportunities to local talent.

Nashik HR: Nashik has an excellent pool of resources for the IT and BPO businesses. Today the Company is one of the top employers in the BPO sector. The Company has on-boarded 800+ employees within 99% TAT and zero consultancy cost. The campus recruitment drive has been conducted successfully in Nashik, branding Datamatics as an 'Employer of Choice' across colleges. Nashik as a location has matured with quality service and low attrition.

BOARD'S REPORT

HR OPERATIONS

Automation:

Ask HR: A newly introduced tool 'ASK HR' has been introduced to address all employee queries pertaining to HR. Each category of query has a defined SLA attached and is tracked on a regular basis which helps employees with a timely and effective resolution.

Payroll Outsourcing: Payroll has been outsourced to Excelity group effective October 2016 to obtain process efficiency and cost reduction. HR outsourcing impacts the organization in managing and delivering 'payroll and benefits' services to the employees efficiently, mitigating the risks associated with process, technology, people, compliance and change management. It enables the HR team to focus more on business strategy and less on administration.

One Database: The project supports the Human Resources team to generate an employee database/reports online for any given month.

e-Dialogue: It is an online Performance Management tool developed on the intranet portal - PULSE to automate the entire cycle from target setting to annual appraisal under one platform. This will help in structuring and creating a more efficient PMS process, by transitioning from a paper-based process to a robust online platform.

LEARNING & DEVELOPMENT (L&D)

The Learning & Development (L&D) team conducted the following programs during financial 2016-17:

Eagle @ Datamatics:

The Company has successfully executed the 8th batch of the Eagles program. The Eagles program was launched with the objective of bringing the best from each department and creating cross functional teams which are mentored to achieve the goals defined by the leadership team. The program has been giving excellent results and helped the company get next gen leaders in-house. The Eagles

program has enabled the organization to generate passion and zeal amongst team members. The team members explored and enhanced their creativity, resourcefulness, bonding, accountability, influencing skills and belief in themselves.

Project Management Preparatory Course (PMP):

The Company is a Registered Education Provider (REP) for PMP training and executes these trainings for its employees through a 5-day module by in-house trainers. So far, the company has 40+ certified PMP professionals who have been trained internally for certification.

Synergy – The Team Building Workshop:

The Team Building Workshop based on experiential learning is a customized program that address the issues faced by a team. The program helps the team members to synergize and create a good working environment. This workshop helps resolve these issues and bond both professionally as well as personally. Till date 64 programs have been executed successfully out of which 4 programs were organized last year. These programs are executed in-house, and have managed to generate immense curiosity amongst the employees and clients who often participate remotely.

Blended Learning:

Training via the WebEx Training tool: The L&D team has expanded their horizon for training execution through WebEx for employees across the organization. With the help of this tool, the team is able to address a larger global audience effectively, which allows participants to log-in from different locations. These training sessions are recorded and are later used as pre-recorded trainings via webex. These recorded sessions are shared with employees who have missed the live training session. This has imbibed a continuous learning attitude amongst employees. In the last one year, 100+ trainings have been organized and executed.

L&D has clocked 253,307 Person-hours in the year 2016–17 with an average feedback of 4.0 out of 5.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

7.5 %

CONTRIBUTION OF INDIA'S IT SECTOR TO THE GDP

WITH THE SIGNIFICANT SOCIAL CHANGES TAKING PLACE, EMERGING DIGITAL TECHNOLOGIES ARE DISRUPTING AND RESHAPING THE WORLD WITH GREAT SPEED.

OVERVIEW OF THE INDUSTRY

The Indian Information Technology (IT) industry is rapidly changing and has been one of the fastest growing industries in India. With the significant social changes taking place, emerging digital technologies are disrupting and reshaping the world with great speed. The IT industry has played a vital role in the growth of the Indian economy, with a contribution of \$ 155 billion in 2016-17, constituting 7.5% of our GDP, thereby building significant brand equity for itself in the global market.

The overall IT function comprises four primary domains, namely, Infrastructure, Development, Security and Data. Each of these are instrumental in the digital transformation of the sector. Earlier, the IT function was considered more as a support for every organization; however, with the changing trends, the role of digital technology has transformed from being an efficiency driver to becoming an enabler of

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

innovation and disruption. Digitalization has made steady progress in recent years, and today, it is being viewed as an imperative. With digitalization and automation gaining momentum, companies have started recognizing the role of technology and how it can positively impact productivity, provide insights and create new revenue opportunities. Enterprises across different sectors are embracing and adapting new technologies to improve efficiency, reduce costs and further enhance customer experience.

GROWTH OF THE IT SECTOR

IT industry executives remain bullish on IT services. A trend that began many years ago, the everything-as-a-service phenomena has maintained its momentum. While certain facets of technology are becoming easier to manage, the overall complexity of managing technology ecosystems often exceeds the capabilities of many customer segments, especially small businesses.

Indian investment in technology is further set to rise with a number of initiatives like Digital India, which the government estimates will go up to \$1trillion by 2024, up from \$270 billion today. With these initiatives, technology investments will accelerate significantly and this will generate new employment and many new micro entrepreneurship opportunities.

Emerging technologies such as Artificial Intelligence, Machine Learning, Automation and Big Data Analytics among others have ushered a new era, where businesses, in a short span of time, can tap insights from their enterprise data, and at times even legacy data, to provide timely and better customer service. These cognitive systems will change the way people interact with computing systems, and help them extend their expertise across any domain of knowledge to make faster and more informed decisions.

With cloud services gaining significant momentum, the Indian market is slated to grow about 36% to reach US\$ 1.3 billion. The increased penetration of internet (including rural areas) and rapid emergence of e-commerce are the main drivers for continued growth of data center co-location and the hosting market in India.

Post the government's announcement of demonetization of high denomination currency, digital payment platforms witnessed a sharp spike in user transactions, app downloads and merchant enquiries, thereby indicating a greater demand for digital payments by consumers.

India ranks among the top five countries in terms of digitalization maturity, as per Accenture's Platform Readiness Index, and is expected to further mature due to the domestic opportunity and scaling up of digital platforms by 2020.

GOVERNMENT POLICIES

In the Union Budget 2017-18, the Government of India announced the following key proposals which will affect the IT Industry:

- Allocation of Rs. 10,000 crore (US\$ 1.5 billion) for Bharat Net project under which the government aims to provide high speed broadband to more than 150,000 gram panchayats by FY 2018.
- The Bharat Interface for Money (BHIM) app, an Aadhaar-based mobile payment application to allow users to make digital payments, without having to use a credit or debit card. The app has already reached the mark of 10 million downloads.

OVERVIEW OF THE BUSINESS

The core operations of Datamatics are built around 'Data to Intelligence'. This leverages data to extract intelligence and patterns, thereby facilitating smarter and quicker decision making.

Your Company is focused on delivering value through integrated digital solutions for data intensive business processes that help enterprises across the world become more competitive.

Datamatics' approach to digital transformation is through implementing Smart Processes, i.e. automation powered through intelligent robots, or iBots and Smart Systems that combines machine learning, rules, and content analytics. Your Company is also actively working with Smart Devices, which include smart phones, smart TVs, smart homes, and interconnected devices (IoT), and several such areas that make smart living; and Smart Data, which extracts insights from data through algorithms.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

AS A STRATEGIC PARTNER, DATAMATICS HELPS ITS CLIENTS TRANSFORM INTO A TRULY DIGITAL, DATA-DRIVEN ENTERPRISE AND EMPOWERS THEM TO TAKE ADVANTAGE OF THE DIGITAL REVOLUTION TO INNOVATE, DIFFERENTIATE AND GROW.

Datamatics is a trusted partner to several Fortune 500 companies, globally, for managing their end-to-end Application Life Cycle and Business Critical Processes. This is done through solutions that are powered by Robotics, Artificial Intelligence and Machine Learning algorithms, which offer improved business efficiency in the interconnected world.

As a strategic partner, Datamatics helps its clients transform into a truly digital, data-driven enterprise and empowers them to take advantage of the digital revolution to innovate, differentiate and grow.

OUTLOOK

The Process Automation platform enables business operations to be agile and cost effective by automating manual, rules based, back office administrative processes, thereby reducing costs and improving accuracy.

The IT and business industries have shifted their practices from a technical and mechanical race to the new age of Robotic Process Automation (RPA). Standardization and new era business systems have strengthened our ability to process voluminous data and information quickly. Datamatics has been successfully using RPA technology as a key enabler to help clients in their digital transformation journey.

Our RPA solutions use iBots, a family of intelligent robots to offer improved business efficiency and effectiveness. This is done by emulating human actions and decision-making process and automating them, without making changes to the underlying systems and processes.

RISKS AND CONCERNS

Your Company recognizes various types of risks including political and regulatory risk, skill shortage risk and cyber security risks. The Company reviews risks from time to time, initiates mitigation actions, identifies owners and reviews progress along with the cost of treating risks and incorporates risk treatment plans in its strategy, business and operational plans. Datamatics has always focused on risk mitigation by formulating and deploying risk management policies, deploying practices for identification, assessment, monitoring, mitigation and reporting of risks thereby strengthening its sustainability. Some of the key risks and risk mitigation strategies have been highlighted below:

Global Economic Risk

The global economy is facing several key challenges because of volatility brought about by Brexit and the election of Donald Trump in the USA; the threat of stagnation in advanced economies and ongoing fears of a Chinese hard landing. On the other hand, there are also growth hotspots, especially amongst emerging markets.

Technology is becoming more and more embedded in our everyday life, and the Internet of Things (IoT) will bring connectivity to myriad products, such as cars, household appliances and clothing. How that data is used and protected will be of paramount importance for all the companies involved—and for the regulators creating and enforcing rules.

The changing economic conditions in these markets could enhance cost pressure on clients and may affect your Company adversely in a number of ways.

The major concern areas include protectionism and anti-globalization creeping into markets like the US, the UK and the rest of Europe, Singapore and Australia. Secondly, we need to update our skill base and the rising need for digital and consulting skills.

Your Company may witness a cutback in prices, or loss of key projects and customers, in turn affecting the financial performance. Datamatics mitigates global economic risk by focusing on new market segments and consolidating their operations in the existing markets.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

In all, countering protectionism that is creeping in different geographies, supporting government initiatives like Digital India, Make in India and Skill India and strengthening our footprint in newer markets like Japan, China, Africa and Nordics will be some of the focus for the IT industry in 2017.

Employee Related Risks

Your Company's business is dependent on the quality of its workforce. A shortage of highly skilled talent is a risk faced by the IT industry as a whole. There is a dearth of qualified engineers to tap high-end business opportunities such as artificial intelligence and cloud computing. Therefore, failure to attract, retain and motivate key employees could impair your Company's ability to offer the right quality of services to its clients.

Datamatics manages attrition and employee related risks by adopting the following measures:

- Engaging skilled professionals at the right time across all locations.
- Datamatics has strong in-house and external training programs, offering the latest technology as well as soft skills training.
- Datamatics has a competitive remuneration structure, matured HR processes and several employee friendly initiatives.

- The performance of employees is linked directly to the quality of work delivered, customer satisfaction and increasing product sales of your Company.
- Datamatics provides an opportunity to connect its employees through the Employee Connect initiative and client survey.

Business Continuity and Information Security

The thrust and demands on information security is increasingly becoming stricter. In line with the demands as well as our own analysis of the information security landscape, your Company continues to lay great emphasis on the Information Security Management Systems. Datamatics has successfully concluded the transition to the new version of ISO 9001. Datamatics is now an ISO 9001:2015 certified organization, and complies with the Information Security standards. Datamatics is committed to maintain an effective information security management system. This enables dissemination of information throughout the organization, sharing with its associates and its customers, as required for the business, while

ensuring, as appropriate, its confidentiality, integrity and availability. Your Company's Information Security Policy and control mechanisms ensure that these risks are kept in control. The Information Security team assesses and manages information security, data privacy and related risks.

Competition Risk

In an increasingly global market, companies face rising levels of competition. All organizations face some degree of competitive risk. In recent years, many big brands have fallen prey to competitive threats left unchecked. Former industry heavyweights in their respective sectors, companies such as Kodak, Blackberry and Nokia have all been laid low when faced with aggressive competition and were unable to defend their market share. The failure of companies such as Nokia and Kodak demonstrates that, irrespective of the size of the firm, any company can easily lose market share and potentially their entire business.

One of the main reasons businesses fail to defend themselves effectively is that they underestimate the size of the risk posed. Be it from existing rivals or start-ups just entering the market, from a position of size and dominance in a particular field, companies often dismiss threats from smaller, seemingly inconsequential rivals.

Datamatics faces different levels of competition across segments from domestic as well as multinational companies. However, Datamatics has established a strong brand reputation in the market and a strong foothold in the IT & ITeS spectrum.

Datamatics manages to mitigate the competition risk by way of adopting the following measures:

- Datamatics has deep domain knowledge, skilled professionals, delivery capabilities and efficient sales force along with relationship managers to help retain its competitive positioning amongst peers.
- Adopting a customer centric approach together with its ability to innovate customer specific solutions, through its in-house incubation hub, DataLabs that conducts research and development based on emerging trends and cutting edge technologies.
- Datamatics invests in developing new and improved technologies to keep pace with the increasing level of competition focusing on customer expectations.

Legal and Regulatory Compliance Risk

Companies across all industries are navigating a global proliferation of diverse regulatory requirements, stakeholder expectations, and business model changes. Companies are challenged to comply with laws and regulations while also increasing shareholder value and protecting their brand. These challenges are acute in highly regulated industries such as financial services, healthcare and life sciences where the compliance agenda has evolved beyond mere compliance to include strategic issues.

Datamatics has a global presence in several developed as well as developing countries that have a complex and varied legal and regulatory compliance landscape; and is continuously adding new geographies that can result into risk of managing compliances.

Datamatics uses the services of professional consultants to develop successful enterprise efforts to embed compliance cultural priorities into the fabric of the organization. It also helps envision compliance, risk and program strategy, governance and program design, thereby maintaining a comprehensive compliance management framework to ensure compliance with domestic as well as overseas laws and regulations. Changes in the applicable regulations are monitored and tracked on a global basis.

Currency Risk

Different expectations around interest rate policies, quantitative easing removals and other actions by global economies are driving the volatility in global currency.

The ability of corporations to manage currency risk effectively will therefore continue to be tested. Your Company derived about 65% of its revenues in US dollars and other currencies during the FY 2017, and any volatility in currency exchange movements can have a negative impact on your Company's financial performance. The management team ensures currency-related value erosion is minimized.

Datamatics manages this risk through an appropriate hedging strategy and business marketing practices. Your Company continues to constantly review the economic scenario and update policies accordingly.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Internal control is a process, effected by an entity's Board of Directors and management, designed to provide reasonable assurance regarding the achievement of objectives. Adequate internal controls allow managers to delegate responsibilities with reasonable assurance in terms of what they expect will happen, actually does happen. Good governance, well defined systems and processes, a vigilant finance function and an independent internal audit function are the foundation of our internal control systems. These systems provide a reasonable assurance with respect to providing financial and operational information, complying with applicable statutes, safeguarding of assets of your Company and ensuring compliance with corporate policies. Your Company is committed towards ensuring that its operations are carried out within a well-defined internal control framework. Its internal financial control systems are commensurate with its size and operations of your Company.

Your Company had appointed, M/s. BDO India LLP, Chartered Accountants, Mumbai as Internal Auditors of the Company to carry out the Internal Audit. During the year, the Internal Auditor has carried out their audit on significant areas - i) Revenue Assurance and Operations ii) Travel Desk Expenses iii) Administrative Expenses and iv) HR and Payroll Review. The Audit Committee periodically reviews the performance of the Internal Audit function. Your Company's Audit committee, comprising of three Independent Directors, which is a sub-committee of the Board, reviews adherence to the requirements of internal control systems, internal audit reports and legal compliances. The Audit Committee also reviews Internal Audit Reports submitted by the Internal Auditors. Suggestions for improvement are considered. The Committee reviews all quarterly, half yearly and yearly financial results of your Company and recommends it to the Board for approval.

AUDITORS' CERTIFICATE

To,
The Members of
Datamatics Global Services Limited

We have examined the compliance of conditions of Corporate Governance by Datamatics Global Services Limited (the Company) for the year ended March 31, 2017, as stipulated in regulations 17 to 27, clauses (b) to (i) of sub-regulation (2) of regulation 46 and paragraph C, D and E of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The compliance of conditions of Corporate Governance is the responsibility of the management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

We conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purpose (Revised 2016) issued by the Institute of Chartered Accountant of India (ICAI). The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by ICAI. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information and Other Assurance and Related Services Engagements.

In our opinion and to the best of our information and according to the explanations given to us and based on the representations made by the Directors and the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above-mentioned SEBI Listing Regulations.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

To,
The Members of **DATAMATICS GLOBAL SERVICES LIMITED**

We have audited the accompanying consolidated financial statements of Datamatics Global Services Limited ("the Holding Company"), and its subsidiaries (the Holding Company and its subsidiaries constitute 'the Group'), comprising of the Consolidated Balance Sheet as at March 31, 2017, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors are responsible for the matters and presentation stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these consolidated financial statements to give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of these consolidated financial statements by the Board of Directors of the Holding Company.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected

depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on our audit and on consideration of reports of other auditors on the separate financial statements/ consolidated financial statements of the subsidiaries referred to in point number 1 below in the Other Matters Paragraph and based on the consideration of unaudited financial statements furnished by the management for subsidiaries as explained in point number 2 below in Other Matters paragraph, the consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2017;
- b) in the case of the consolidated Statement of Profit and Loss, of the profit of the Group for the year ended on that date; and
- c) in the case of consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

Emphasis of Matter

Attention is drawn to Note no. 34 wherein a subsidiary of the Company, had issued preference shares worth ₹ 771.76 million to outside shareholders in earlier year. During the year, the same was purchased / bought back by the Company/subsidiary for ₹ 217.80 million and ₹ 250 million respectively, resulting in total exceptional gain of ₹ 303.96 million. Considering the fact that preference shares are a financial liability and bought back from outside shareholders, the resultant gain is recognised as exceptional gain in the Consolidated statement of Profit and Loss.

However our opinion is not modified in respect of this matter.

Other Matters

1. We did not audit the financial statements of nine subsidiaries (including four step down subsidiaries) included in the consolidated financial statements as at the

INDEPENDENT AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

year ended March 31 2017, whose financial statements reflect total assets of ₹ 2,557.18 million and net assets of ₹ 1,711.71 million, total revenue of ₹ 3,951.32 million and net cash inflows of ₹ 193.84 millions for the year then ended. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us by the management, and our opinion, on the financial statements in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on the report of the such other auditors.

2. Further, we have relied on the unaudited financial statements furnished by the management with respect to two subsidiaries and ten step down subsidiaries whose financial statements reflect total assets of ₹ 255.07 million and net assets of ₹ 153.07 million as at March 31, 2017, total revenue of ₹ 343.89 million and net cash outflows of ₹ 23.06 million for the year then ended. These unaudited financial statements and other financial information as approved by the respective Board of Directors of these companies, have been furnished to us by the management and our report is so far as it relates to the amounts included in respect of the consolidated financial statements is based solely on such approved unaudited financial statements.

We are unable to comment upon the resultant impact, if any, on the profit and net assets of the consolidated financial statements of the Company as at March 31 2017, had the subsidiaries including step down subsidiaries been audited.

Our opinion is not qualified in respect of Other Matters.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- e) On the basis of the written representations received from the Directors of the Holding Company as on March 31, 2017, taken on record by the Board of Directors of the Company and the reports of the auditors of its subsidiary companies incorporated in India, none of the Directors of the Company and its subsidiaries, incorporated in India is disqualified as on March 31, 2017 from being appointed as a Director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
- g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i) The Group has disclosed the impact of pending litigations on the consolidated financial position of the Group in its consolidated financial statements – Refer Note 23 to the consolidated financial statement;
 - ii) The Group did not have any material foreseeable losses on long term contracts including derivatives contacts.
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies incorporated in India.
 - iv) The Group has provided requisite disclosures in its consolidated financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8 November, 2016 to 30 December, 2016 and these are in accordance with the books of accounts maintained by the Company. (Refer Note 27 to the consolidated financial statements).

ANNEXURE A TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Datamatics Global Services Limited ("the Holding Company") and its subsidiary companies which are companies incorporated in India as of 31 March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors of Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation

ANNEXURE A TO THE AUDITORS' REPORT

of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and based on the reports of the auditors of its subsidiary companies incorporated in India, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one subsidiary company, which is a company incorporated in India, is based on the corresponding report of the auditors of such company incorporated in India. Our opinion is not qualified in respect of this matter.

Incorporated during the year

@ Acquired during the year

The financial statements of the Parent Company and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances / transactions and resulting unrealized profits in full. The amounts shown in respect of accumulated reserves comprises the amount of the relevant reserves as per the balance sheet of the Parent Company and its share in the post acquisition increase / decrease in the relevant reserves / accumulated deficit of its subsidiaries.

Minority interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the minority shareholders at the dates on which investments are made by the Parent Company in the subsidiary companies and further movements in their share in the equity, subsequent to the dates of investments.

The Parent Company and its Indian subsidiaries maintain their records and prepare their financial statements under the Historical Cost Convention except for certain property, plant and equipments which are revalued, in accordance with generally accepted accounting principals in India while the foreign subsidiaries maintain their records and prepare their financial statements in conformity with GAAP prevalent in their respective countries of domicile.

Consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances except in case of charge of depreciation on fixed assets and other insignificant items for which the accounting treatment is given on the basis of local laws applicable in the respective country, for which using uniform accounting policies for the purpose of consolidation is impracticable.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS ON MARCH 31, 2017

iii Property, plant and equipments, Intangible assets and Capital work-in-progress:

Property, plant and equipments are stated at acquisition cost, except for certain property, plant and equipments which have been stated at revalued amounts as determined by approved independent valuer, less accumulated depreciation. Direct Costs are capitalised until the assets are ready to use and include financing costs relating to any specific borrowing attributable to the acquisition of fixed assets. Intangible assets consist of expenses incurred / paid for development and acquisition of computer software. Capital work-in-progress includes assets not put to use before the year end.

Depreciation is provided on Straight Line Method except for leasehold and freehold land by the Parent Company and its Indian subsidiary as stated in the significant accounting policies forming integral part of the financial statements. Whereas the foreign subsidiaries have provided depreciation on the assets over their estimated useful life as required / permissible by the local laws. The aggregate Gross Block of ₹ 1,559.90 million (₹ 1,540.08 million) of foreign subsidiaries have charged depreciation as per the useful life other than those prescribed in Schedule II to Companies Act, 2013. Intangible assets including internally developed intangible assets are amortized over a period of three years for which the Group expects the benefits to accrue. Non-Compete fees and copyrights are amortised over a period of five years. Goodwill generated on account of merger is amortised over a period of five years. Leasehold Premises is amortized on the Straight Line Method over the period of the Lease.

iv Goodwill / Capital Reserve:

The excess of cost to the Parent Company of its investment in subsidiaries over the Parent Company's portion of equity in the subsidiaries at the respective dates on which investments in subsidiaries were made, is recognised in the consolidated financial statements as goodwill. Alternatively, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of investment of the Parent Company, it is recognised as 'Capital Reserve' and shown under the head 'Reserves and Surplus', in the consolidated financial statements. The Parent Company's portion of equity in the subsidiaries is determined on the basis of the book value of assets and liabilities as

per the financial statements of the subsidiaries as on the date of investment.

The Goodwill recorded in these consolidated financial statements has been recognised as "Goodwill on Consolidation" and is grouped under fixed assets in the consolidated financial statements. The carrying value of Goodwill arising on consolidation for acquisitions during the previous year is tested for impairment as at the end of the reporting period.

v Operating Lease:

The leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items, are classified as operating lease. Operating lease payments are recognised as expenses in the Statement of Profit and Loss.

vi Revenue Recognition:

Revenue from services is recognised based on time and material and billed to the clients as per the terms of the contract. In the case of fixed price contracts, revenue is recognised on periodical basis based on units executed and delivered.

Revenue / Income from sale of traded goods is recognised on dispatch of goods. Sales are exclusive of taxes, wherever applicable.

Revenue from software development on a time and material basis is recognised based on software developed and billed on clients as per the terms of specific contracts.

Interest on deployment of funds is recognised on accrual basis. Dividend income is recognised when right to receive dividend is established. Profit on sale of investment is recognised on sale of investments.

Cost and earnings in excess of billings are classified as unbilled revenue while billings in excess of cost and earnings are classified as unearned revenue. Discount is recognised on cash basis in accordance with the contractual term of the agreement with the customers.

vii Employee Benefits:

In case of Parent Company and its Indian Subsidiaries; (i) Defined Contribution Plan - Contribution to defined contribution plans are recognised as expense in the Statement of Profit and Loss, as they are incurred. (ii) Defined Benefit Plan - Companies' liability towards gratuity and leave encashment are determined using the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AS ON MARCH 31, 2017

projected unit credit method as at Balance Sheet date. Actuarial gains / losses are recognised immediately in the Statement of Profit and Loss. Long term compensated absences are provided for based on actuarial valuation.

Foreign subsidiaries maintain a defined contribution retirement plan, which covers substantially all the employees of the foreign subsidiaries and qualifies as a deferred salary arrangement under laws of respective countries. The Group matches employees' contributions at the discretion of the Group.

viii Foreign Exchange Transactions:

Transactions in foreign currency are recorded at the rates of exchange prevailing at the date of the transactions.

Monetary items denominated in foreign currencies at the balance sheet date are translated at the exchange rate prevailing on the balance sheet date.

Any income or expense on account of exchange difference either on settlement or on translation at the balance sheet date is recognised in Statement of Profit and Loss in the year in which it arises.

ix Foreign Currency Translation:

The consolidated financial statements are reported in Indian rupees. The translation of the local currency of each foreign subsidiary within the Group into Indian rupees is performed in respect of assets and liabilities including fixed assets using the exchange rate in effect at the balance sheet date and for revenue and expense items, using a monthly simple average exchange rate for the period. Net exchange difference resulting from the above translation of financial statements of foreign subsidiaries is recognised in Foreign Exchange Fluctuation Reserve. Exchange Difference arising on investment in subsidiaries is recognised in Foreign Exchange Fluctuation Reserve.

x Derivative Instruments and Hedge Accounting:

The Group uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. Such forward contracts are utilised against the inflow of funds under firm commitments. The Group does not use the forward contract for speculative purposes. The Group designates these hedging instruments as cash flow hedge.

The use of hedging instruments is governed by the Group's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Group's risk management strategy.

Hedging instruments are initially measured at fair value and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised directly in Shareholders' Funds and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Statement of Profit and Loss as they arise.

The fair value of derivative financial instruments is determined based on observable market inputs including currency spot and forward rates, yield curves, currency volatility.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, exercised or no longer qualifies for hedge accounting. At that time for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in Shareholders' Funds is retained there until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in Shareholders' Funds is transferred to the Statement of Profit and Loss for the year.

xi Investments:

Investments classified as long-term investments are stated at cost. Provision is made to recognise any diminution, other than temporary, in the carrying value of each investment. Current investments are carried at lower of cost and fair value of each investment.

xii Income Tax:

Tax expense comprise of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted at the balance sheet date. Deferred tax assets are recognized only to

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS ON MARCH 31, 2017

the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

In the situations where an entity in the Group is entitled to a tax holiday under the Income Tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period, to the extent the entity's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the entity restricts recognition of deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each balance sheet date unrecognized deferred tax assets are re-assessed. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Minimum Alternate Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the Guidance Note on Accounting for credit available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement.

xiii Borrowing Cost:

Borrowing costs, which are directly attributable to the acquisition, construction or production of qualifying assets are capitalised as a part of the cost of the assets. Other borrowing costs are recognised as expense in the year in which they are incurred.

xiv Cash Flow Statement:

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

xv Earnings per Share:

In determining Earnings per Share, the Group considers the net profit after tax after reducing the preference dividend and tax thereon and includes the post-tax effect of any extra-ordinary items. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares.

xvi Employee Stock Option Scheme:

Employee Compensation in the form of stock options granted under various schemes have been charged to Statement of Profit and Loss, based on Intrinsic value method, over the vesting period.

xvii Impairment of Assets:

At each balance sheet date, the Group assesses whether there is any indication that an asset may be impaired. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the net selling price and Value-in-use. In assessing Value-in-use, the estimated future cash flows are discounted to their present value based on an appropriate discount factor.

xviii Provision, Contingent Liabilities and Contingent Assets:

The Group recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AS ON MARCH 31, 2017

liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Contingent Assets are neither recognised nor disclosed.

xix Cash and Cash Equivalents:

The Group considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three

months or less from date of purchase to be cash equivalents.

xx Segment Reporting:

Primary segment is identified based on the nature of products and services, the different risks and returns and the internal business reporting system. Secondary segment is identified based on geographical area in which major operating divisions of the Group operate.

xxi Service tax input credit

Service tax input credit of company is accounted for in the period in which the underlying service received is accounted and when there is no uncertainty in availing/utilising the credits.

xxii Prior period adjustments, extra-ordinary items and changes in accounting policies:

Prior period adjustments, extra-ordinary items and changes in accounting policies, if any, having material impact on the financial affairs of the Group are disclosed.

The Group has applied the principles of Cash Flow Hedge Accounting as per Accounting Standards (AS) - 30, Financial Instrument: Recognition and Measurement, to the extent that application of AS 30 did not conflict with existing accounting standards and other authoritative pronouncement of the Company Law and other regulatory requirements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AS ON MARCH 31, 2017

The Institute of Chartered Accountants of India (ICAI) has issued a guidance note on accounting for derivative contracts (guidance note) on May 12, 2015 and the guidance note becomes applicable for accounting periods beginning on or after April 1, 2016. As Per Management, the application of guidance note will not have any major accounting impact on transition date i.e. April 1, 2016.

25 Employee Benefits

As per Accounting Standard 15 "Employee Benefits", the disclosures are as under :

The present value of gratuity obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation of leave benefits (unfunded) is also recognised using the projected unit credit method.

INDEPENDENT AUDITORS' REPORT ON STANDALONE FINANCIAL STATEMENTS

To,
The Members of **DATAMATICS GLOBAL SERVICES LIMITED**

We have audited accompanying standalone financial statements of DATAMATICS GLOBAL SERVICES LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2017 and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards and pronouncements

require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2017;
- b) in the case of the Statement of Profit and Loss, of the Profit for the year ended on that date; and
- c) in the case of Cash Flow Statement, of the cash flows for the year ended on that date.

Emphasis of Matter

Attention is drawn to Note no. 34, the Company has an investment of ₹ 646.30 million in two of its wholly owned subsidiaries and also extended loans and advances of ₹ 9.52 million to these subsidiaries as on March 31, 2017. The net worth of these subsidiaries has declined. We are given to understand that, these investments are for long term and of strategic nature and the management is confident of turning around the subsidiaries in the near future. In view of this, we are unable to comment on whether provision if any, for the diminution in the value of investments is required to be made.

INDEPENDENT AUDITORS' REPORT ON STANDALONE FINANCIAL STATEMENTS

Report on other Legal and Regulatory Requirements

ANNEXURE B

TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Datamatics Global Services Limited** ("the Company") as of 31 March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

ANNEXURE B TO THE AUDITORS' REPORT

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the

essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. Significant Accounting Policies

I. Basis of Preparation of Financial Statements:

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) on the basis of going concern concept and under the historical cost convention except for certain fixed assets which are revalued. The Company adopts accrual basis in preparation of its financial statements to comply in all material aspects with the Accounting Standards as specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act"), as applicable. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year, unless otherwise mentioned in the notes.

II. Use of Estimates:

The preparation of financial statements in conformity with the generally accepted accounting principles require estimates and assumptions to be made that affect the reported amounts of the assets and liabilities on the date of financial statements and the reported amounts of revenues and expenses during

the reporting period. Differences between actual results and estimates are recognised in the year in which the results are known / materialized.

III. Revenue Recognition:

Revenue from services is recognised based on time and material and billed to the clients as per the terms of the contract. In the case of fixed price contracts, revenue is recognised on periodical basis based on units executed and delivered.

Revenue / Income from sale of traded goods is recognised on dispatch of goods. Sales are exclusive of taxes, wherever applicable.

Revenue from software development on a time and material basis is recognised based on software developed and billed on clients as per the terms of specific contracts.

Cost and earnings in excess of billings are classified as unbilled revenue while billings in excess of cost and earnings are classified as unearned revenue. Discount is recognised on cash basis in accordance with the contractual term of the agreement with the customers.

Interest on deployment of funds is recognised on accrual basis. Dividend income is recognised when right to receive dividend is established. Profit on sale of investments is recognised on sale of investments.

IV. Property, plant and equipment, Intangible assets and Capital work-in-progress:

Property, plant and equipments are valued at cost, except for certain property, plant and equipments which have been stated at revalued amounts as determined by approved independent valuer, after reducing accumulated depreciation until the date of the balance sheet. Direct costs are capitalised until the assets are ready to use and include financing costs relating to any specific borrowing attributable to the acquisition of fixed assets. Intangible assets are recognised, only if it is probable that the future economic benefits that are attributable to the assets will flow to the enterprise and the cost of the assets can be measured reliably. The intangible assets are recorded at cost and are carried at cost less accumulated amortization and accumulated impairment losses, if any. Capital work-in-progress includes assets not put to use before the year end.

V. Depreciation and Amortization:

Depreciation on property, plant and equipment is provided on the Straight Line Method except for leasehold and freehold land as per the useful life

NOTES TO THE FINANCIAL STATEMENTS

AS ON MARCH 31, 2017

and in the manner prescribed in Schedule II to Companies Act, 2013. Intangible assets including internally developed intangible assets are amortized over a period of three years for which the Company expects the benefits to accrue. Non-Compete fees and copyrights are amortised over a period of five years. Goodwill generated on account of amalgamation is amortised over a period of five years. Leasehold Premises is amortized on the Straight Line Method over the period of the 30 years.

VI. Valuation of Inventories:

Inventory, if any, is valued at cost (arrived on FIFO basis) or net realizable value, whichever is lower. Custom Duty on the goods where title has passed to the Company is included in the value of inventory.

VII. Investments:

Investments classified as non-current investments are stated at cost. Provision is made to recognise any diminution, other than temporary, in the carrying value of each investment. Current investments are carried at lower of cost and fair value of each investment.

VIII. Employee Benefits:

(i) Defined Contribution Plan

Contribution to defined contribution plans are recognised as expense in the Statement of Profit and Loss, as they are incurred.

(ii) Defined Benefit Plan

Company's liabilities towards gratuity and leave encashment are determined using the projected unit credit method as at Balance Sheet date. Actuarial gains / losses are recognised immediately in the Statement of Profit and Loss. Long term compensated absences are provided for based on actuarial valuation.

IX. Foreign Exchange Transactions:

- (i) Transactions in foreign currency are recorded at the rates of exchange prevailing at the date of the transactions.
- (ii) Monetary items denominated in foreign currencies at the balance sheet date are translated at the exchange rates prevailing at the balance sheet date. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.
- (iii) Any income or expense on account of exchange difference either on settlement or on translation

at the balance sheet date is recognised in the Statement of Profit and Loss in the year in which it arises.

X. Derivative Instruments and Hedge Accounting:

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. Such forward contracts are utilised against the inflow of funds under firm commitments. The Company does not use the forward contract for speculative purposes. The Company designates these hedging instruments as cash flow hedge. The use of hedging instruments is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy.

Hedging instruments are initially measured at fair value and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised directly in Shareholders' Funds and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Statement of Profit and Loss as they arise.

The fair value of derivative financial instruments is determined based on observable market inputs including currency spot and forward rates, yield curves, currency volatility etc. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised or no longer qualifies for hedge accounting. At that time for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in Shareholders' Funds is retained until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in Shareholders' Funds is transferred to the Statement of Profit and Loss for the year.

XI. Leases:

Lease under which the Company assumes substantially all the risks and rewards of ownership are classified as Finance Leases. The leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items, are classified as operating lease. Operating lease payments are recognised as expenses in the Statement of Profit and Loss.

NOTES TO THE FINANCIAL STATEMENTS

AS ON MARCH 31, 2017

XII. Income Tax:

Tax expense comprise of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

In the situations where Company is entitled to a tax holiday under the Income Tax Act, 1961 enacted in India, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period, to the extent the Company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the Company restricts recognition of deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each balance sheet date unrecognized deferred tax assets are re-assessed. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Minimum Alternate Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the Guidance Note on Accounting for credit available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement.

XIII. Borrowing Cost:

Borrowing costs, which are directly attributable to the acquisition, construction or production of a qualifying

assets are capitalised as a part of the cost of the assets. Other borrowing costs are recognised as expenses in the year in which they are incurred.

XIV. Cash Flow Statement:

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

XV. Earnings per Share:

In determining Earnings per Share, the Company considers the net profit after tax after reducing the preference dividend and tax thereon and includes the post-tax effect of any extra-ordinary items. The number of shares used in computing basic Earnings per Share is the weighted average number of shares outstanding during the period. The number of shares used in computing diluted Earnings per Share comprises the weighted average shares considered for deriving basic Earnings per Share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares.

XVI. Employee Stock Option Scheme:

Employee Compensation in the form of stock options granted under various schemes are charged to the Statement of Profit and Loss, based on Intrinsic value method, over the vesting period.

XVII. Impairment of Assets:

The carrying value of assets is reviewed for impairment, when events or changes in circumstance indicate that the carrying values may not be recoverable. In addition, at each balance sheet date, the Company assesses whether there is any indication that an assets may be impaired. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the net selling price and Value-in-use. In assessing Value-in-use, the estimated future cash flows are discounted to their present value based on an appropriate discount factor.

XVIII. Provision, Contingent Liabilities and Contingent Assets:

The Company recognises a provision when there is a present obligation as a result of a past event

NOTES TO THE FINANCIAL STATEMENTS AS ON MARCH 31, 2017

that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Contingent Assets are neither recognised nor disclosed.

XIX. Cash and Cash Equivalents:

The Company considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from date of purchase to be cash equivalents.

XX. Segment Reporting:

Primary segment is identified based on the nature of products and services, the different risks and returns and the internal business reporting system. Secondary segment is identified based on geographical area in which major operating divisions of the Company operate.

XXI. Service tax input credit :

Service tax input credit of Company is accounted for in the books in the year in which the underlying service received is accounted and when there is no uncertainty in availing/utilising the credits.

XXII. Prior period adjustments, extra-ordinary items and changes in accounting policies:

Prior period adjustments, extra-ordinary items and changes in accounting policies, if any, having material impact on the financial affairs of the Company are disclosed.

25 Forward contracts in foreign currencies

The Company in accordance with its risk management policies and procedures, enters into foreign currency forward contracts to manage its exposure in foreign exchange rates. The counter party is generally a bank. The foreign exchange forward contracts mature within a period of one month and two years.

- a) The Company uses forward exchange contracts to hedge its exposure in foreign currency on highly probable forecast transactions. The information on derivative instrument is given below.

The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as of the Balance Sheet date:

29 Segment Reporting

The Management Information System of the Company identifies and operates in a single primary business segment. In the opinion of the Management these activities are governed by the same set of risks and returns as per AS-17 segment reporting. All the assets of the Company are located in India and hence secondary segment reporting is on the basis of the geographical location of customers.

NOTES TO THE FINANCIAL STATEMENTS

AS ON MARCH 31, 2017

Geographic Segment

Revenue attributable to the location of the customers is as follows :

	(₹ Millions)	
	Mar-17	Mar-16
USA	794.74	871.05
Europe	1,079.15	1,031.75
India	1,054.53	878.91
Rest of World	128.70	34.38
Total	3,057.12	2,816.09

Fixed assets in India used in the Company's business or liabilities contracted in India cannot be identified to any geographical segment as the fixed assets and services are used interchangeably between geographical segments and a meaningful segregation is not possible.

34 The Company has ₹ 9.52 million (₹ 0.89 million) as outstanding loans and advances (Refer note no. 36 below) and ₹ 646.30 million (₹ 670.18 million) as investment in two of its 100% Subsidiaries at the year end. The net worth of these subsidiaries has declined. The Company has assured financial support. These investments are for long term and are of strategic nature. As the Management is confident of turning around the subsidiaries in the near future provision for diminution in the value, if at all required, is not made.

35 In the previous year 2015-16, pursuant to the Scheme of Amalgamation (The Scheme) u/s 391 to 394 of the Companies Act, 1956 read with section 78 and sections 100 to 104 and other applicable provisions of the Companies Act, 2013 for amalgamation of Datamatics Software Services Limited (DSSL) and Datamatics Vista Info Systems Limited (DVISTA) with the Company as sanctioned by Hon'ble High Court of Bombay on April 22, 2016 and the said order was filed with ROC on May 13, 2016 (effective date), all the assets and liabilities of DSSL and DVISTA were transferred to and vested in the Company, without any consideration and on going concern basis, with effect from April 1, 2015 (the appointed date). The Scheme has accordingly given effect to in the year ended March 31, 2016.

The amalgamation has been accounted for under the "Purchase Method" as prescribed under Accounting Standard 14 - "Accounting for Amalgamations" (AS 14) issued by the Institute of Chartered Accountants of India and as notified u/s 133 of the Companies Act 2013 read with Rule 7 of the Companies Accounts Rules 2014. Accordingly and giving effect in compliance of the Scheme all the assets and liabilities of DSSL and DVISTA, were recorded in the books of the Company at their fair value and the form as at appointed date in the books of DSSL and DVISTA.

DSSL and DVISTA being the wholly owned subsidiary and step down wholly owned subsidiary respectively of the Company neither any shares were required to be issued nor any consideration was paid. The Equity share capital, Preference share capital and the carrying value of investment in Equity shares and Preference shares in the books of the Company stands cancelled.
