DISCLAIMER

This presentation and the following discussion may contain “forward looking statements” by Datamatics Global Services (‘DGS’ or the Company) that are not historical in nature. These forward looking statements, which may include statements relating to future results of operations, financial condition, business prospects, plans and objectives, are based on the current beliefs, assumptions, expectations, estimates, and projections of the management of DGS about the business, industry and markets in which DGS operates.

These statements are not guarantees of future performance, and are subject to known and unknown risks, uncertainties, and other factors, some of which are beyond DGS’ control and difficult to predict, that could cause actual results, performance or achievements to differ materially from those in the forward looking statements. Such statements are not, and should not be construed, as a representation as to future performance or achievements of DGS.

In particular, such statements should not be regarded as a projection of future performance of DGS. It should be noted that the actual performance or achievements of DGS may vary significantly from such statements.
