

**INDEPENDENT AUDITOR'S REPORT
TO THE BOARD OF DIRECTORS OF
DATAMATICS GLOBAL TECHNOLOGIES AG**

Report on the Condensed Financial Statements

We have audited the accompanying Condensed Financial Statements of **Datamatics Global Technologies AG** ("the company") which comprises the Balance Sheet as at March 31, 2019 and the Statement of Profit and Loss (including other Comprehensive Income) and statement changes of equity for the year then ended and a summary of significant accounting policies and a summary of selected explanatory notes. The accompanying Condensed Financial Statements have been prepared by management in accordance with the generally accepted accounting principles applicable in India, solely to enable its holding company, Datamatics Global Services Limited to prepare its consolidated Financial statements.

Management's Responsibility for the Condensed Financial Statements

The Management is responsible for the preparation of these Condensed Financial statements. This responsibility includes the design, implementation and maintenance of internal controls relevant to the preparation and presentation of the Condensed Financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Condensed Financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Condensed Financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Condensed Financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Condensed Financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal controls relevant to the Company's preparation and fair presentation of the Condensed Financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the Condensed Financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Condensed Financial statements of Datamatics Global Technologies AG as at and for the year ended March 31, 2019 are prepared, in all material respects, in accordance with the generally accepted accounting principles in India.

Basis of Accounting and Restriction on distribution and use

Without modifying our opinion, we draw attention to Note No. 1(b), which describes the basis and purpose of the Condensed Financial statements. The Condensed Financial statements are prepared solely to enable its holding company, Datamatics Global Services Limited, to prepare its consolidated Condensed Financial statements and are not to be used for any other purpose or to be distributed to any other parties without our prior written consent.

Note 1: Significant accounting policies

a) Company Overview

Datamatics Global Technologies AG (DGTAG), a trusted partner to several Fortune 500 Companies is a global provider of Information Technology (IT) and Business Process Management (BPM) and Consulting services. The Company provides business aligned next-generation solutions to a wide range of industry verticals that help enterprises across the world overcome their business challenges and achieve operational efficiencies. These solutions leverage innovations in technology, knowledge of business processes and domain expertise to provide clients a competitive edge.

b) Basis of preparation

i) Compliance with Ind AS

This Condensed Financial Statements are prepared as per Indian Accounting Standards (Ind AS), on the accrual basis of accounting and in accordance with generally acceptable accounting principle in India from the books of accounts maintained in CHF. The above Condensed Financial Statements comprising Balance sheet, the Statement of Profit and Loss (including other Comprehensive Income) and Statement of Equity for the year then ended and a summary of significant accounting policies and a summary of selected explanatory notes have been prepared by Management to enable its Holding Company, Datamatics Global Services Limited to prepare its Consolidated Financial Statements and only relevant disclosures as required for the intended purpose are disclosed.

ii) Use of estimates

The preparation of financial statements as per Generally Accepted Accounting Principals requires management to make estimates and assumptions which affects the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of financial statements and reported amount of revenue and expenses during the reported period. Actual results could differ from such estimates.

iii) Foreign currency translation

Functional and presentation currency

The financial statements are presented in Confoederatio Helvetica Francs (CHF), rounded to the nearest CHF.

Assets and liabilities, expressed in foreign currencies are translated into CHF at the rate of exchange ruling at the end of the reporting period.

Resulting profit or loss is taken to the statement of profit or loss and other comprehensive income.

iv) Revenue recognition

Revenue from services is recognised based on time and material and billed to the clients as per the term of the contract.

v) Intangible assets

Computer software

The amount which was recognised as asset comprises both the original purchase cost and expenditures directly attributable to its development. Management has decided to adopt the policy of amortising software costs over a period of three years on a straight line basis.

vi) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(1) Financial Assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- (a) those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss); and
- (b) those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

(a) For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

(b) For investments in debt instruments, this will depend on the business model in which the investment is held.

(c) For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

(iii) Impairment of financial assets

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime credit losses (ECL) to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

(iv) Derecognition of financial assets

A financial asset is derecognised only when -

- (a) The Company has transferred the rights to receive cash flows from the financial asset or
- (b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(2) Financial Liabilities

(i) Measurement

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liability not at fair value through profit or loss), that are directly attributable to the issue of financial liability. After initial recognition, financial liabilities are measured at amortised cost using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash outflow (including all fees paid, transaction cost, and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through profit or loss.

(ii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

vii) Earnings per share

Basic earnings per share is calculated by dividing:

- * the profit attributable to owners of the company
- * by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (note 11).
