

DATAMATICS

DEVOPS
SOLUTION

DIGITALLY POWERED CONTINUOUS IMPROVEMENT

DevOps Automation for demanding agile schedules

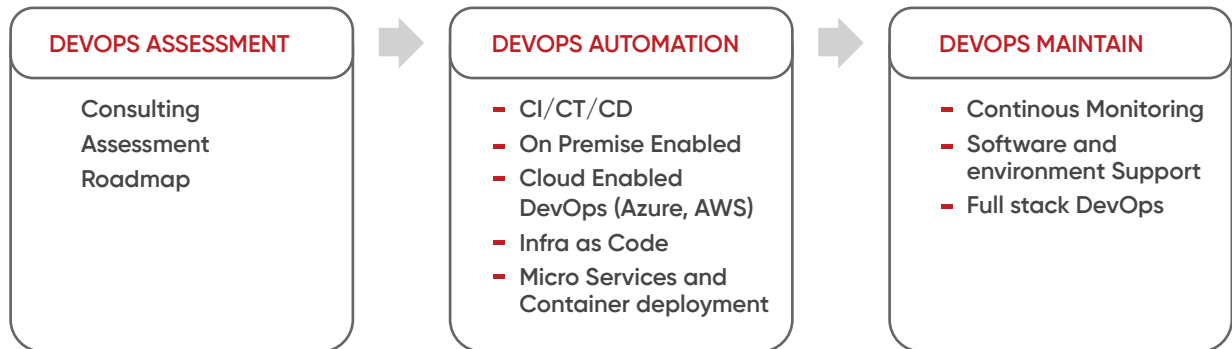

Long development cycles, cumbersome timelines, minuscule testing due to unavailability of time, result in sub-standard applications. An agile environment demands quick turnaround of functional pieces of applications with least number of bugs.

Datamatics DevOps Solution integrates robotic test automation in the real-time development cycles ensuring quick turnaround of software applications with ingrained high quality standards due to continuous development (CD), testing (CT) and integration (CI) of live code.

Datamatics has expertise in executing DevOps projects for cloud, mobile applications, application integration, application modernization, and multi-cloud management. Datamatics' toolchain-based integrated approach enables enterprises to continuously integrate user feedback in the applications.

DATAMATICS DEVOPS OFFERINGS

DevOps automation for demanding Agile schedules
Continuously Deliver High Quality Products

DEVOPS CLOUD EXPERTISE

ADVANTAGES OF DATAMATICS DEVOPS SOLUTION

- Accelerated delivery
- Tool agnostic framework
- Balanced speed, cost, quality, and risk
- Improved responsiveness to feedback
- Better customer experience
- Increased innovation capacity and appetite
