**TRUBOT RPA**

# **START & SCALE YOUR AUTOMATION JOURNEY WITH AI-POWERED TRUBOT RPA**

Enterprise-grade, Multi-skilled bot programmed to enhance  
your enterprise's productivity

**TruBot RPA** improves enterprise productivity by manifold. It takes the business on the path to better profitability, higher productivity, and a happier workforce.

TruBot RPA is an enterprise-grade Robotic Process Automation solution that automates workloads with high accuracy and minimal human intervention. It frees up the intellectual workforce from repetitive tasks.

## TRUBOT RPA – KEY DIFFERENTIATORS

**Multi-skilled bot** – An enterprise grade, multi-skilled bot which automates a range of simple as well as complex processes.

---

**Ease of use** – With Universal recorder and visual workflow, business users can record the activities or drag and drop ready-to-use components to form a fully functional bot in minutes.

---

**Low Code design and development** – Library of over 500 pre-built components enables faster development of automation flows.

---

**Full control of the RPA Program** – Through an intuitive dashboard, fully manage and monitor entire bot workforce and get complete insights on bot ecosystem health, all in one place.

---

**Enterprise-grade security** – Features like role-based access control and credential vault makes TruBot very secure.

---

**Real-time analytics** – Actionable intelligence for business users, visibility into bot operations and KPIs.

---

**UI automation with enterprise applications** – Be it automation involving a legacy application or human-bot collaboration, TruBot seamlessly handles complex tasks.

---

**Zero bot footprint** – Leaves zero bot footprint on workstations, which ensures workstations are bot-ready quickly.

---

**Gen AI-powered TruPilot** – An in-built co-pilot for TruBot seamlessly translates natural language commands into fully-fledged workflows, which, in turn, metamorphose into functional bots within minutes.

# COMPONENTS OF TRUBOT RPA ARCHITECTURE

## TruBot DESIGNER

- With this visual workflow designer, simply record activities, or drag-and-drop ready-to-use components from the library to form fully functional bots.

## TruBot COCKPIT

- Take complete control of your RPA program with TruBot Cockpit. You can now centrally manage and monitor your bot workforce.

## TruBot STATION

- TruBot Station is a physical or virtual machine where the bot is deployed. Multiple bots can concurrently run on the same station, thus minimizing the footprint.

## TruBot ANALYTICS

- TruBot Analytics provides business users with actionable intelligence which can play a crucial role in the success of the RPA program.

# ARTIFICIAL INTELLIGENCE AT THE CORE

Face recognition and language analysis services based on AI/ ML technologies of Microsoft Azure Cognitive Service.

Connects with all OpenAI, MS Azure and AWS AI/ML services to create intelligent bots.

Builds bots with natural language commands with Gen AI-powered TruPilot.

Manages bot reviews, audits, enhancements, & maintenance across the entire bot lifecycle with TruPilot.

Offers comprehensive natural language product documentation assistance.

# CUSTOMER'S CHOICE FOR ROBOTIC PROCESS AUTOMATION TOOLS

TruBot enjoys high customer satisfaction across industries

## ABOUT DATAMATICS

Datamatics provides intelligent solutions for data-driven businesses to increase productivity and enhance the customer experience. With a complete digital approach, Datamatics portfolio spans across Information Technology Services, Business Process Management, Engineering Services and Big Data & Analytics all powered by Artificial Intelligence. It has established products in Robotic Process Automation, Intelligent

Document Processing, Business Intelligence and Automated Fare Collection. Datamatics services global customers across Banking, Financial Services, Insurance, Healthcare, Manufacturing, International Organizations, and Media & Publishing. The Company has presence across 4 continents with major delivery centers in the USA, India, and Philippines. To know more about Datamatics, visit [www.datamatics.com](http://www.datamatics.com)
