

DATAMATICS

Datamatics Legacy Modernization on Cloud

Migrate, Transform, Outperform

Legacy systems are more than just outdated, they are barriers to agility, business resilience, and growth. Sustaining aging systems is an uphill battle, adds onto technical debt, rises maintenance costs, affects innovation budgets, creates integration bottlenecks, slows down transformation.

Datamatics AI-powered Legacy Modernization on Cloud helps CIOs break free from the weight of technical debt and legacy lock-ins. Our Agentic AI powered 'Kai' Accelerators & deep engineering expertise, we fast-track modernization programs while reducing risk. The results - 40% reduction in modernization timelines, 30-50% lower TCO, faster time-to-market & reduced technical debt.

Modernize faster & deploy a modern stack that with systems that are agile, scalable, secure, ensure substantial cost savings and improved ROI.

OUR SERVICES

Legacy Modernization Consulting

- Identify Modernization Applications/Candidates
- Identify Cost-saving opportunities

Modernization Engineering

- Cloud-Native Engineering - Rehost, Refactor, Replatform & Rearchitect
- API Enablement on K8
- Mainframe Modernization
- DevSecOps Automation & Testing

Managed Services

- Application Maintenance and Support
- Cloud FinOps
- AI Led Automation

AI POWERED ACCELERATORS

Discover Legacy Portfolio	KaiBRE Legacy Modernization/ Business Rules Extraction Tool using Generative AI	~30% - ~70% Cost Saving in Discovery
Discover Legacy Portfolio	Kai Cloud Analyser Re-define cloud strategy using GenAI models	30% faster app portfolio rationalization with zero risk
NewGen Application Development	KaiSDLC Redefining software development using Generative AI	40% Reduction in Development Effort
Content Migration	KaiMigrator Accelerate migration of ECM to modern cloud platforms	2x faster content migration to cloud
Migration Testing	KaiTest Conversational AI Interface using SLM/ LLMs	~30% - 50% Faster Testing Cycles
Managed Services	KaiFinOps Optimize cloud expenses across multiple cloud providers	30% 30% cloud cost reduction

DIFFERENTIATORS

AI-powered Accelerators for Cloud Enablement

Unlock deeper value in cloud enablement by accelerated cloud adoption, improve efficiency, and drive innovation.

Deep Cloud Migration Expertise

250+ Cloud SMEs ensuring successful implementation, cost-effective solutions, and maximized returns on cloud investments.

Drive Cloud Adoption and Transformation Success Stories

50+ success stories in achieving business transformation and significant improvements in performance, cost savings, scalability, and innovation by guiding them through cloud enablement.

Meaningful Partnership with Public Cloud Providers

Immense value in terms of accelerating GTM strategy, fostering innovation, providing extensive training and certification funding, and enabling co-innovation across industries.

SUCCESS STORIES

Boosted customer onboarding efficiency by 20% for a logistics customer using modern tech stack

2X faster migration of 163 TB of content for a leading Healthcare

30% Improvement in Health Insurance sales conversion rate with an optimized customer buying journey & seamless UX

24/7 connectivity via AWS cloud-based communication app for patients, families & hospital staff

60% boost in proposal efficiency & higher win ratio with Azure for a marine & space manufacturer

Enhanced security & compliance & minimized business outages for a leading FS enterprise by moving to a modern cloud platform

40% increase in field agent efficiency with real-time tracking of agents by streamlining the collection process for a FS enterprise

40% fewer delays with real-time info exchange via Linehaul mobile app for a North American transporter

42% performance improvement with containerized app hosted on Azure cloud

Modern Education platform for Philippines increased parent engagement, improved student performance and streamlined communication with self-learning platform on AWS Cloud

Modern road toll management platform streamlined process, reduced toll operation cost & improved efficiency on GCP Cloud for an independent govt agency

CLIENT TESTIMONIES

"Datamatics was very agile and proactive in their approach and worked as an extended team of Harris Teeter. Datamatics helped us in our Digital Transformation journey by enabling us to go deep in digital with its solutions."

Stephen Ramsey
Sr. Director, Information Services, Harris Teeter

"Our IT team and our Resource team talked to many different brands over the years and Datamatics was able to connect with us on a very personal way. They took the time to understand our business, to understand our challenges & to understand what the leverages. Our partnership has been tremendous because of that."

Joe Mole
CEO, OneTouch Direct
