

IDP SOLUTION

TRUCAP⁺ INTELLIGENT DOCUMENT PROCESSING

GenAI-powered template-free
Intelligent Document Processing solution with up to 90%+ accuracy

Organizations across all vertical industries continue to use documents as a major source of data input. These documents have unstructured data and require knowledge workers for manual data entry, exception management and quality checks, making document processing a cumbersome, time-consuming and costly proposition.

It is here that Intelligent Document Processing or IDP steps in. Users can get up and running faster with our Template-Free approach. Our AI-enabled IDP solution can be deployed in the cloud so no need to worry about setting up underlying infrastructure; easy-to-use Configurator, browser-based access, an intuitive GUI all add up to deliver a compelling user experience (UX) to business users. Continuous learning & improvement based on AI/ML algorithms and user inputs, and other cognitive capabilities deliver a greater percentage of straight-through processing (STP) with a higher accuracy.

TruCap+ takes document processing to new heights by integrating Generative AI, for enhanced accuracy, automation, multilingual capabilities, and a host of other benefits. Quite clearly, **Datamatics TruCap+ IDP** is an ideal solution for your document processing and automation requirements.

WHY ORGANIZATIONS LOVE TRUCAP+

Template-free IDP for
faster onboarding

High auto-extraction
accuracy

AI/ML-powered for greater
degree of STP with
accuracy

Out-of-the-box bots for
industry processes

End-to-end automation
through seamless integration
with downstream system

DIY capability. Introducing
soon - Bring Your Own ML

EXPERIENCE THE POWER OF GENERATIVE AI WITH TRUCAP+

Leverage power of Generative AI in document processing for enhanced accuracy, built-in data querying, support for multiple languages and many such capabilities. Also, with TruPilot creating ontologies becomes a breeze. From sample documents auto-populate ontologies to improve productivity and faster go-live.

TRUCAP+: AI AT THE CORE

TRUCAP+ IDP – SAMPLE USE CASES

TruCap+ IDP enables enterprises to use the potential of idle unstructured data and integrate its extracted and structured form with core enterprise systems. It automates simple to complex use cases and drives end-to-end automation. For example:

Semi-structured document

- Application forms
- Health claims
- Purchase orders
- Invoices
- Bills of Lading

Unstructured document

- Contracts
- Financial statements
- Medical records
- Scanned document images
- Pictures

Delivery to AI/ML research engines

- Excel spreadsheets
- Email
- Text
- Video
- Live images
- Special file types, such as social media clips

CUSTOMER TESTIMONIAL

“

Datamatics looks to solve a business problem and not just provide a technical solution.

”
