DATAMATICS

TRUDISCOVERY

TRUDISCOVERY THE AI-LED ENTERPRISE SEARCH SOLUTION

Enterprise-grade Al-powered content assistant for efficient search

TruDiscovery by Datamatics helps executives save up to 50% of their time by eliminating manual searches across their enterprise content libraries. Powered by AI, it enables instant, conversational access to documents, Excel files, websites, portals, and more content sources delivering real-time, accurate insights from across the enterprise. With Advanced NLP and intelligent search, TruDiscovery transforms information retrieval, boosting productivity, decision-making, and operational efficiency. No more wasted hours, just fast, secure, and precise answers at your fingertips through personalized search.

The unified data-access management system allows you to seamlessly handle information diversity and overload, leverage contextual understanding related to queries, and aggregate and summarize information across your knowledge assets. It offers enterprise-grade accuracy, scalability, and security as it grounds its Al-models with your data rather than ingesting it. As a result, it produces highly accurate outcomes, which engage customers and ensure conversions.
