DATAMATICS

Navigate the Ocean of AI with
Digital Technology Services

Datamatics empowers enterprises to embark on their Digital Transformation journey by integrating key technologies – AI, Data, Cloud, Applications, Hyperautomation, CRM, and Digital Assurance. These interconnected technologies create a powerful synergy, enabling businesses to unlock their full potential and embrace the future.

With AI at the core, we help businesses modernize systems, accelerate releases, enable cloud adoption, build resilient and intelligent systems. The result is enhanced operational efficiency, improved customer experiences, driving innovation, our AI-powered digital transformation solutions are designed to help enterprises stay ahead of curve.

WHAT YOUR ENTERPRISE CAN ACHIEVE..

→ **40% Faster Legacy Modernization**

→ **Cloud Adoption with up to 30% cost savings**

→ **30% Lower TCO with Testing**

→ **30% Faster AI-Ready Data**

→ **50% Faster Data Modernization**

→ **Enhanced Customer Experience**

→ **3X Faster Insights**

DATAMATICS TECHNOLOGY SERVICES

AI
Accelerate enterprise transformation with AI adoption, solution development, model lifecycle management, and ecosystem enablement services.

Data
Build a trusted data foundation with governance, migration, management, business intelligence and advanced analytics for actionable insights.

Cloud
Unlock agility with end-to-end cloud strategy, migration, modernization, & managed services.

Business Application
Transform your enterprise applications & systems with consulting, modernization, LCNC development, DevOps, CI/CD automation, and digital assurance.

Hyperautomation
Drive intelligent enterprise automation by deploying RPA, IDP, LCNC, scalable hyperautomation solutions, and sustenance services.

Digital Assurance
Ensure digital excellence with AI-powered functional, non-functional testing, advisory, and managed QA services.

CRM
Enhance sales, services & customer retention through CRM consulting, implementation, integration, modernization, & managed services.

Product Engineering
Accelerate product innovation with end-to-end engineering, from consulting & development to lifecycle management.

AI POWERED ACCELERATORS

Our accelerators that enable faster cheaper smarter transformation

Industry Accelerators

TruAI Underwriting
A multi-agent underwriting solution with autonomous AI agents accelerating the underwriting lifecycle for real-time decision-making

KaiDynamic Pricing
Real-time pricing intelligence driven by demand signals, behavioural data, and AI models, improving margins, conversion rates, and competitive differentiation.

KaiCustomer Insights
AI-driven behavioural and value-based segmentation enabling personalized engagement, targeted marketing, and higher retention and lifetime value

KaiVision
Derive deepen insights with Agentic AI powered video and image analytics

Data & Cloud Accelerators:

KaiData

An intelligent data foundation accelerator combining automated schema discovery, legacy-to-cloud mapping, and end-to-end lineage.

Talk to Data

Enterprise-grade, governed data-on-demand accelerator enabling users to query in natural language while securely converting into compliant, auditable SQL within Copilot.

KaiKM

Centralizes pertinent data, enables better context, for better data annotation, efficient MDM thus helping get faster insights.

KaiAssist

Agentic AI & Generative AI-powered Conversational Accelerator that transforms how enterprises interact with data and processes.

KaiCloud

Assess application portfolios 30% faster, reduce cloud costs by upto 30% and maximize Cloud ROI.

KaiTone

Transform voice data into actionable insights for multilingual transcription, sentiment analysis, and enhanced audio intelligence.

Software Engineering Accelerators

KaiSDLC

Accelerate your software development lifecycle by 50% with Agentic AI

KaiBRE

Modernize & decode complex legacy code 40% faster using Agentic AI

KaiTest

An Agentic AI-powered tool that automates the creation of test plans, cases, and scripts, ensuring speed and precision.

ENTERPRISE PLATFORMS

Microsoft   aws   Google Cloud   salesforce   outsystems

SUCCESS STORIES

80% Reduction in Shipment Costs with Agentic AI

Delivered significant cost savings for a leading logistics company using **Agentic AI-powered vision analytics** for shipment verification

Seamless Data Migration with Zero Disruption

Migrated 400,000 accounts and developed 150+ control reports for a Middle Eastern bank, ensurin flawless transition and uninterrupted operations

20% Lower Cloud TCO & 67% Faster RTO

Optimized cloud infrastructure and integrated ERPsystems for a leading NBFC, **enhancing data exchange and reducing recovery time**

40% Faster Cycle Time in Logistics Operations

Developed a **linehaul mobile app for drivers**, enabling real-time sync with terminal dispatch schedules for a leading logistics provider

40% Reduction in Underwriting Time with Agentic AI Assistant

Streamlined manual underwriting processes for aleading healthcare insurance company using **Agentic AI-powered underwriting assistant**

For an International Humanitarian Organization, Enabled 70% Faster Responses

An **Agentic AI-Powered virtual assistant** for migration guidance & support.

ABOUT DATAMATICS

Datamatics enables enterprises to go Deep in Digital to boost their productivity, customer experience, and competitive advantage. Datamatics' portfolio spans across three pillars of Digital Technologies, Digital Operations, and Digital Experiences. It has established products in Intelligent Document Processing, Robotic Process Automation, AI/ML models, Smart Workflows, Business Intelligence, and

Datamatics caters to a diverse global clientele across Banking, Financial Services, Insurance, Healthcare, Manufacturing, International Organizations, and Media & Publishing. The Company has a presence across four continents with significant delivery centers in the USA, India, and the Philippines. To learn more about Datamatics, visit www.datamatics.com
