FINATO CONTRACT MANAGEMENT

Smarter Contracts. Seamless Control. Complete Compliance.

RETHINK CONTRACT LIFECYCLE MANAGEMENT WITH AI

Across industries, where precision, speed, and compliance are critical, **contract delays, version chaos, and missed renewals** can stall operations, increase costs, and expose businesses to risk. Managing thousands of agreements, dynamic terms, and evolving regulatory requirements demands accuracy, transparency, and control.

FINATO Contract Management redefines how organizations **create, manage, and govern contracts** by harnessing **AI, automation, and analytics** – streamlining every stage of the contract lifecycle.

With FINATO, contract management evolves into an **intelligent, unified, and compliant ecosystem** – enabling smarter decisions, faster execution, and stronger governance.

THE CONTRACT MANAGEMENT CHALLENGE

Organizations often face multiple roadblocks that hinder contract efficiency and compliance:

HOW FINATO MAKES A DIFFERENCE

FINATO redefines contract management by combining **AI intelligence** with **process automation** to ensure control, visibility, and compliance across the enterprise.

Centralized, AI-powered Contract Repository

Unified, searchable storage for all contracts with complete visibility.

Smart Authoring & Clause-based Drafting

Pre-approved templates and intelligent clause suggestions for faster, consistent drafting.

Automated Review & Renewal Workflows

Accelerated approval cycles and proactive renewal alerts to eliminate delays.

Comprehensive Visibility & Analytics

Monitor performance, obligations, and compliance metrics with intuitive dashboards.

AI-driven Clause Extraction & Risk Scoring

Identifies deviations and compliance risks in real time.

FINATO transforms contract management from a static storage system into an **autonomous control tower** – ensuring compliance, continuity, and measurable value.

UNIFIED, INTELLIGENT CONTRACT LIFECYCLE MANAGEMENT

FINATO integrates every stage of the contract journey – from **creation and negotiation to approval, execution, and renewal** – within a single AI-enabled platform.

It empowers **legal, procurement, and finance teams** to collaborate seamlessly while minimizing risks and accelerating cycle times.

CORE CAPABILITIES

AI Contract Authoring

Leverage intelligent clause libraries and standardized templates for compliant drafting. AI recommends optimal clauses and flags deviations from approved language.

Smart Clause Extraction & Risk Scoring

FINATO uses Natural Language Processing (NLP) to extract key clauses, obligations, and risk indicators – providing real-time compliance scoring and visibility.

Automated Workflows & Approvals

Configurable approval hierarchies with SLA-based routing ensure faster negotiation, version control, and e-signature integration.

Obligation & Renewal Management

AI tracks key milestones, payment terms, and renewal dates, sending timely alerts to prevent lapses and revenue leakage.

Contract Repository & Search

A centralized, metadata-driven repository with AI-powered search and instant clause retrieval capabilities.

Analytics & Compliance Dashboards

Interactive dashboards offer complete visibility into contract performance, obligations, and deviations – enabling proactive governance.

ARCHITECTURE OVERVIEW

- >> Seamless integration with ERP, CRM, and Procurement systems
- >> AI and NLP engine for clause extraction and risk identification
- >> Configurable approval workflows with digital signature support
- >> Secure, centralized repository with access control and audit trails

FEATURES & MEASURABLE IMPACT

FINATO enables enterprises to gain total control of their contracts – ensuring compliance, reducing risk, and accelerating deal execution.

Features	Description
AI Clause Extraction	Automatically identifies, categorizes, and scores clauses for compliance and risk exposure.
Template & Clause Library	Standardized templates and pre-approved language ensure consistency and legal adherence.
Smart Workflows	Automated routing, version control, and e-signature integration for faster execution.
Renewal & Obligation Alerts	AI monitors milestones and sends automated reminders to prevent revenue loss.
Searchable Repository	Centralized, metadata-driven storage for quick, secure contract access.
Compliance & Audit Logs	Full traceability of actions for enhanced governance and accountability.

BUSINESS IMPACT

60%

Reduction in contract cycle time

90%

Improvement in compliance and obligation tracking

75%

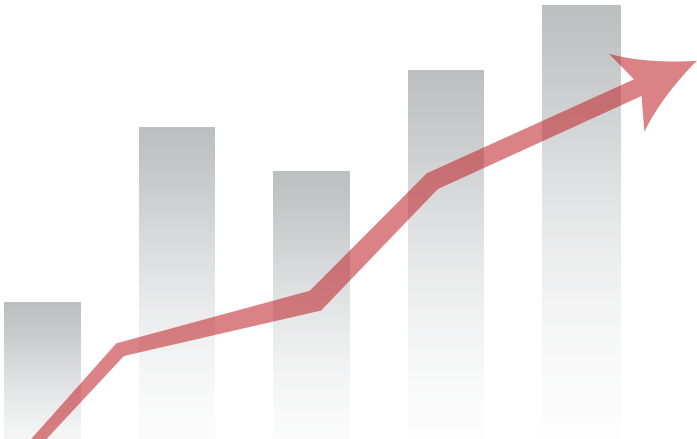

Reduction in manual review effort

50%

Faster renewals and amendments

100%

Visibility and audit traceability

SUCCESS STORIES

	Global Engineering Services Provider	Leading Automotive OEM
Challenge	<p>A leading engineering conglomerate struggled with fragmented contract repositories across geographies, lack of renewal tracking, and manual clause verification. This led to frequent compliance issues and missed renewals.</p>	<p>The client's legal team manually reviewed vendor contracts, resulting in slow turnarounds and inconsistent language. Contract renewals were often missed due to lack of reminders.</p>
Solution	<p>Datamatics implemented FINATO Contract Management with AI-powered clause extraction, centralized repository, and auto-renewal tracking. The system provided real-time visibility across all active contracts and obligations.</p>	<p>FINATO introduced clause-based drafting, AI risk scoring, and auto-renewal alerts, ensuring legal consistency and proactive management.</p>
Impact	<ul style="list-style-type: none">• 70% faster contract creation and review cycle• 100% compliance monitoring via AI alerts• Elimination of missed renewals and expiries• Enhanced collaboration between legal, procurement, and finance teams	<ul style="list-style-type: none">• 80% reduction in review turnaround time• 100% renewal tracking and compliance adherence• Consistent use of approved legal templates• Improved vendor and vpartner confidence through faster execution

ABOUT DATAMATICS

Datamatics enables enterprises to go Deep in Digital to boost their productivity, customer experience, and competitive advantage. Datamatics’ portfolio spans across three pillars of Digital Technologies, Digital Operations, and Digital Experiences. It has established products in Intelligent Document Processing, Robotic Process Automation, AI/ML models, Smart Workflows, Business Intelligence, and Automatic Fare Collection.

Datamatics caters to a diverse global clientele across Banking, Financial Services, Insurance, Healthcare, Manufacturing, International Organizations, and Media & Publishing. The Company has a presence across four continents with significant delivery centers in the USA, India, and the Philippines. To learn more about Datamatics, visit www.datamatics.com
