

DATAMATICS

Datamatics TruAgent

Agentic AI framework for higher process autonomy

TruAgent

Embrace the cutting-edge of process automation with Datamatics TruAgent. Easily create, govern, and manage AI Agents to drastically increase the speed of operation, eliminate inaccuracies, and free up employees' time to solve complex challenges.

Datamatics TruAgent enables you to take a quantum leap in the automation continuum with powerful possibilities that Agentic AI can only provide. It allows businesses to harness the power of Agentic AI with a flexible solution brought to the market by the leaders in Process Automation.

Datamatics TruAgent allows businesses to take charge of their automation requirements to get custom automation solutions ready in minutes. The Agentic AI solution easily integrates with other automation solutions through different APIs to automate complex scenarios.

TruAgent easily adapts to a multi-agent scenario, as per the business requirement, and progressively evolves around an orchestrator agent. It leverages existing automation investment and infrastructure to bring in greater autonomy, speed, and efficiency in the process architecture.
